THE RULE OF LAW: A NECESSARY PILLAR OF FREE AND DEMOCRATIC SOCIETIES FOR PROTECTING HUMAN RIGHTS

John D. Bessler*

This essay traces the history and development of the concept of the Rule of Law from ancient times through the present. It describes the elements of the Rule of Law and its importance to the protection of human rights in a variety of contexts, including under domestic and international law. From ancient Greece and Rome to the Enlightenment, and from the American and French Revolutions to modern times, the Rule of Law has played a key role in societies around the world. The essay discusses definitions of the Rule of Law, its origins, and its development over time, including in Europe, America’s founding period, and the post–World War II era. In particular, the essay discusses the intellectual contributions of historical figures such as the Italian criminal-law theorist Cesare Beccaria, the French jurist, Baron de Montesquieu, and American revolutionaries who played major roles in laying the now centuries-old foundation for the development of the modern-day Rule of Law concept (i.e., in drafting early American constitutions and laws, including the U.S. Constitution and its Bill of Rights). The essay explores a wide range of topics, from the creation of the United Nations and the ratification of international conventions and human rights treaties, to the adoption of South Africa’s post–apartheid constitution, to Donald Trump’s continuous and systematic assault on the Rule of Law, human rights, and democratic institutions and norms. The essay also highlights the Rule of Law’s symbiotic relationship to the protection of fundamental human rights such as the rights to equality, to vote, and to be free from discrimination, cruelty and torture. Arguing that various Trump Administration acts and policies (e.g., separating children from their parents at the U.S.-Mexico border and the death penalty’s use) and the outrageous and brazen efforts of Donald Trump and his campaign and allies to discriminate against and disenfranchise

* Professor of Law, University of Baltimore School of Law; Adjunct Professor, Georgetown University Law Center.
voters violate core Rule of Law principles, the essay concludes by emphasizing the Rule of Law’s continuing and critical importance to the protection of civil liberties and fundamental human rights in the twenty-first century.

TIMES (Dec. 8, 2020, 3:00 AM), https://www.latimes.com/opinion/story/2020-12-08/immigration-family-separation-policy-trump-administration (“More than 5,400 children have been detained and separated from their parents at the U.S.-Mexico border by the Trump administration since 2017. Many families remain separated, and the violence of this policy has been compounded by the government’s failure to keep track of the families it tore apart as it sent children to shelters all over the
systematic, anti-democratic efforts to disenfranchise voters, including even after the November 3rd election, only confirmed Donald Trump’s total disdain for individual rights and the Rule of Law. Notoriously, on January 2, 2021, in a recorded, hour-long telephone call with Brad Raffensperger, Georgia’s Republican Secretary of State, Trump brazenly threatened him and his lawyer with criminal prosecution and demanded that he “find 11,780 votes.”

6. See Just over a week before the US election, lawsuits linger, ASSOCIATED PRESS (Oct. 23, 2020), https://apnews.com/article/election-2020-joe-biden-donald-trump-virus-outbreak-voting-1c9d33e9f7d3b81d41874bf49b637 (“Hundreds of lawsuits about voting have been filed before the Nov. 3 election. The cases concern the fundamentals of the American democratic process, including how ballots are cast and counted. Some of the challenges are being fronted by legal teams working for President Donald Trump and Democratic challenger Joe Biden.”); see also Noah Fransky, Postal Service Delays Disenfranchised Thousands of Legally-Cast Ballots This Fall, NBC WASH. (Dec. 3, 2020), https://www.nbcbusiness.com/tx/postal-service-delays-disenfranchised-thousands-of-legally-cast-ballots-this-fall/2495351/.

The frontal assault on the integrity of American elections and the Rule of Law culminated in the chaotic events of January 6, 2021, when Donald Trump, who for weeks after losing the election had falsely claimed victory, delivered an incendiary speech on the Ellipse in front of the White House. In that speech, he called the election “rigged,” said it had been “stolen” by “radical left Democrats” and “the fake news media,” and emphasized, “We will never concede.” At an event in which Representative Mo Brooks of Alabama yelled, “Today is the day American patriots start taking down names and kicking ass!”, and in which Trump’s lawyer, Rudy Giuliani, called for “trial by combat,” Trump urged Vice President Mike Pence—the public official tasked with presiding over the ministerial counting of state-certified Electoral College votes—to do “the right thing” and “send it back to the States to recertify” and to “come through for us.” 

Calling on his supporters to “protect our constitution,” attacking “weak Republicans,” and accusing Democrats of “election fraud” and “theft,” Trump vehemently demanded that Congress “confront this egregious assault on our democracy.”

Donald Trump’s “attempts to influence the administration of the 2020 Georgia general election”).

12. Id. Even before the November 2020 election, Trump had a long history of saying, without evidence, that an election was “rigged” or “stolen.” Terrance Smith, Trump has longstanding history of calling elections ‘rigged’ if he doesn’t like the results, ABC NEWS (Nov. 11, 2020, 2:24 AM), https://abcnews.go.com/Politics/trump-longstanding-history-calling-elections-rigged-doesnt-results/story?id=74126926.

wear gas masks, the people’s business—the counting of Electoral College votes—was delayed for several hours.

In the wake of the failed insurrection, appeals for the restoration of “the Rule of Law” were heard in many quarters, including from then President-Elect Joe Biden’s transition team. The somewhat amorphous, but much-invoked concept of the Rule of Law, though

variously conceived and defined over the years, has been aptly characterized by the United Nations in this way: “A principle of

27. “The rule of law,” one commentator has written, “takes on various conceptions, often characterized as ‘thick’ and ‘thin’ conceptions.” Noah Bialostozky, The Misuse of Terrorism Prosecution in Chile: The Need for Discrete Consideration of Minority and Indigenous Group Treatment in Rule of Law Analyses, 6 NW. J. INT’L HUM. RTS. 81, 84 n.20 (2007); see also id. ("[T]he basic principles of a ‘thin’ conception are threshold requirements that are common to all conceptions of the rule of law. Thick conceptions of the rule of law begin with the basic principles of a thin conception but then incorporate other elements such as particular conceptions of human rights, economic arrangements, forms of government, etc. The United Nations has defined the rule of law as including the basic principles described but also requires that laws are consistent with international human rights norms and standards."); Robert A. Stein, What Exactly Is the Rule of Law?, 57 Hous. L. Rev. 185, 196 (2019) (“A distinction has been drawn in some recent writings between a ‘thin’ rule of law and a ‘thick’ rule of law. A thin rule of law describes governance in a society in which many of the procedural principles of the rule of law are observed, but not the elements of substantive justice and protection of human rights. An example would be a society that has a system of laws governing all of its citizens and an efficient court system to enforce those laws, but the system does not include a robust protection of human rights. A thick rule of law, by contrast, is governance under a rule of law that includes all of the principles of the rule of law, including those related to substantive justice and enforcement of human rights protections."); King Fung Tsang, China’s Rule of Law from a Private International Law Perspective, 47 GA. J. INT’L & COMP. L. 93, 103 (2018) (“[T]he ‘thin’ theory of the rule of law focuses on the procedural aspects of the rule of law, while the ‘thick’ theory of the rule of law takes a further step in stipulating the substantive content of the law. This is one of the biggest debates on what constitutes rule of law. If a country has a consistent, clear, and efficient legal system, will that alone be sufficient to qualify it as a country with rule of law? Or does it take more, such as the protection of fundamental human rights to earn that badge of honor?”); Simon Chesterman, An International Rule of Law?, 56 AM. J. COMP. L. 331, 340-41 (2008) (“The content of the term ‘rule of law,’ then, remains contested across both time and geography. Analysis of its content often begins by parsing out formal and substantive understandings. Those theories that emphasize the formal aspects describe instrumental limitations on the exercise of State authority; they tend to be minimalistic, positivist, and are often referred to as ‘thin’ theories—distinguishing them from the ‘thick’ theories that incorporate substantive notions of justice. The latter conceive the rule of law more broadly as a set of ideals, whether understood in terms of protection of human rights, specific forms of organized government, or particular economic arrangements such as free market capitalism. Ronald Dworkin has referred to the two conceptions as the ‘rule-book’ model and a ‘rights’ model, respectively . . . .”).

28. E.g., Michael F. Duggan, The Open Hand: Moderate Realism and the Rule of Law, 61 HOW. L.J. 271, 272 n.4 (2018) (“One of the most difficult tasks in approaching the rule of law is simply to define it.”); id. (“Supreme Court Associate Justice Anthony Kennedy has suggested a provisional definition of The Rule of Law with three elements: 1. The law is superior to, and thus binds, the governed and all its officials. 2. The Law must respect and preserve the dignity, equality, and human rights of all persons . . . . 3. The Law must establish and safeguard the constitutional structures to be a free society in which all citizens have a meaningful voice in shaping and enacting rules that govern them. The Law must devise and maintain systems to advise all persons of their rights, and it must empower them to fulfill just expectations and seek redress of grievances without fear of penalty or retaliation.”); id. (“An even more general definition of the rule of law can be found in the U.S. Citizens Immigration Services (USCIS) Citizenship Exam. Question 12 asks, ‘What is the rule of law?’ and then answers in four parts: ‘Everyone must follow the law; leaders must obey the law; government must obey the law; no one is above the law.’ ”); John Mukum Mbaku, Threats to the Rule of Law in Africa, 48 GA. J. INT’L & COMP. L. 293, 306 (2020) (“Throughout the years, many
governance in which all persons, institutions and entities, public and private, including the State itself, are accountable to laws that are publicly promulgated, equally enforced and independently adjudicated, and which are consistent with international human rights norms and standards."29 In nominating Judge Merrick Garland on January 7, 2021, to serve as the Attorney General of the United States to restore confidence in the U.S. Department of Justice, and with urgent calls for Donald Trump’s impeachment and removal from office swirling about Capitol Hill and the country,30 then President-Elect Joe Biden observed: “The past four years we’ve had a president who’s made his contempt for

legal and constitutional scholars have contributed to the definition of the rule of law . . . The rule of law is ‘typically contrasted with arbitrary exercise of power.’ ”); id. at 312 (“Professor John Mitchell Finnis, an international expert on jurisprudence and legal philosophy, has argued that the rule of law is ‘[t]he name commonly given to the state of affairs in which a legal system is legally in good shape.’ He argues further: ‘A legal system exemplifies the Rule of Law to the extent . . . that (i) its rules are prospective, not retroactive, and (ii) are not in any other way impossible to comply with; that (iii) its rules are promulgated, (iv) clear, and (v) coherent one with another; that (vi) its rules are sufficiently stable to allow people to be guided by their knowledge of the content of the rules; that (vii) the making of decrees and orders applicable to relatively limited situations is guided by rules that are promulgated, clear, stable, and relatively general; and that (viii) those people who have authority to make, administer, and apply the rules in an official capacity (a) are accountable for their compliance with rules applicable to their performance and (b) do actually administer the law consistently and in accordance with its tenor.’ ”); cf. W. Bradley Wendel, Government Lawyers in the Trump Administration, 69 HASTINGS L.J. 275, 336-37 (2017) (“The rule of law is a highly contested concept. It is sometimes used loosely to refer to a good government under law, such as one characterized by the existence of strong property rights and investor protections, which may correlate with the size of a country’s capital markets, or protection for human dignity and human rights. The rule of law or legality may also refer to formal features a legal system ought to have, such as laws that are publicly promulgated, clear and understandable, openly and impartially administered, and at the very least capable of being obeyed.”).

our democracy, our Constitution, the rule of law, clear in everything he has done.” “More than anything,” Biden said, “we need to restore the honor, the integrity, the independence of the Department of Justice that’s been so badly damaged.”

Lawsuits filed by the American Civil Liberties Union, the NAACP, and other groups exposed—and sought to remedy as best they could—the traumatic, discriminatory and often irreversible harm caused by Donald Trump and the Trump Administration’s mean-spirited and unlawful policies. And thankfully, along with state governors, secretaries of state, and local canvassing board members who respected the will of voters, America’s independent judiciary—from state

Michelle Wiley, ‘Disturbing’: Judge Asks Trump Administration to Explain Why It Withheld Contact Information for Separated Migrant Parents, KQED (Dec. 4, 2020), https://www.kqed.org/news/11849630/disturbing-judge-asks-trump-administration-to-explain-why-it-withheld-contact-information-for-separated-migrant-parents (“Earlier this week, the American Civil Liberties Union announced that the administration had finally provided a tranche of phone numbers and addresses needed to help reunite hundreds of families, information advocates had been requesting for nearly a year.”).
supreme courts to federal district court and circuit court judges—flatly rejected Donald Trump’s nefarious scheme to set aside the will of tens of millions of voters in the 2020 presidential election. As Laurence Tribe and Joseph Grodin, emeritus law professors at Harvard and UC–Hastings, wrote in a post-election op-ed for the *Boston Globe*:

President Trump’s cynical effort to enlist the courts in his attempt to retain power has failed miserably. Claims of voter fraud and other theories advanced on his behalf have consistently been rebuffed by judges of all political backgrounds, including judges with conservative reputations and federal judges appointed by Republican presidents—including Trump himself.

In fact, in the wake of the U.S. Supreme Court’s terse December 11, 2020 order summarily rejecting the Texas Attorney General’s baseless lawsuit seeking to overturn the election results in Georgia,

41. In its December 11, 2020 unsigned order in *Texas v. Pennsylvania*, the U.S. Supreme Court wrote: “The State of Texas’s motion for leave to file a bill of complaint is denied for lack of standing under Article III of the Constitution. Texas has not demonstrated a judicially
Michigan, Pennsylvania and Wisconsin, Republican Senator Ben Sasse, of Nebraska, weighed in, invoking the Rule of Law concept. “Since Election Night,” he said in a statement, rebuffing conspiracy theories spun out by Donald Trump and his campaign:

[A] lot of people have been confusing voters by spinning Kenyan Birther-type, ‘Chavez rigged the election from the grave’ conspiracy theories, but every American who cares about the rule of law should take comfort that the Supreme Court—including all three of President Trump’s picks—closed the book on the nonsense.\(^4\)

Just three days later, after the Democratic Biden-Harris ticket’s victory was confirmed by the Electoral College on December 14th, then-President Elect Joe Biden offered these words to the nation after the country’s hotly contested election: “Once again in America, the rule of law, our Constitution, and the will of the people have prevailed. Our democracy—pushed, tested, threatened—proved to be resilient, true, and strong.”\(^4\) Despite Donald Trump’s unrelenting efforts to deceive the country, including his own donors and supporters, America’s

cognizable interest in the manner in which another State conducts its elections. All other pending motions are dismissed as moot.” Texas v. Pennsylvania, No. 155 ORIG., 2020 WL 7296814 (U.S. Dec. 11, 2020).

Bene Sasse’s “Statement on Supreme Court’s Election Decision” posted on Twitter on December 11, 2020); see also Nicole Sganga, Trump floated appointing Sidney Powell, lawyer who promoted conspiracy theories, as special counsel on voter fraud, CBS NEWS (Dec. 20, 2020, 8:19 AM), https://www.cbsnews.com/news/trump-considered-sidney-powell-special-counsel-election-fraud-conspiracy-theories/ (“Powell promoted a number of baseless conspiracy theories about the election, including that the deceased Hugo Chávez, among others, had rigged the election against Mr. Trump by programming voting machines to switch votes for the president to President-elect Joe Biden.”).

representative democracy carried the day.\textsuperscript{46} Most dramatically, lawmakers returned to the task at hand on the evening of January 6, 2021 following the rioting at the U.S. Capitol by the Proud Boys, the Oath Keepers, and other pro-Trump forces,\textsuperscript{47} what Republican Senator Mitt Romney of Utah called an “insurrection, incited by the President of the United States.”\textsuperscript{48} It was not until January 7th at 3:41 AM EST that Vice President Pence formally declared Joseph R. Biden the winner of the 2020 presidential election.\textsuperscript{49}

This essay, which describes the vital importance of the Rule of Law to representative democracies, domestic and international law, and the protection of human rights,\textsuperscript{50} is divided into nine parts. Part II lays out the meaning and critical components of the Rule of Law, while Part III recounts that concept’s foundation and history dating back to the ancient world. Part IV describes the American Revolution’s historic contributions to the Rule of Law’s development, with Part V highlighting changes in the understanding of the Rule of Law from the Enlightenment to modern times. Part VI focuses on the Rule of Law’s

\textsuperscript{50} Monica Hakimi, Why Should We Care About International Law?, 118 Mich. L. Rev. 1283, 1289 (2020) (reviewing Harold Hongju Koh, The Trump Administration and International Law (2018)) (“The rule of law generally refers not to what law is in a jurisprudential sense but to what makes law, as a political project, worthwhile. Why and under what conditions should we aspire to live in a society governed by law? Although accounts of the rule of law differ, the one that is most prominent in international legal circles prioritizes obedience to law, as a way of ensuring that states do not exercise power arbitrarily or unpredictably. In this account, the rule of law requires (1) relatively precise and transparent conduct rules, (2) that are consistently and impartially applied, (3) to constrain the discretion of the people who are in positions to govern.”).
transformative nature in the post–World War II period in which the newly created United Nations adopted the Universal Declaration of Human Rights; 51 Part VII contrasts instances of tyrannical rule and grotesque abuses of power with adherence to democratic norms and the Rule of Law ideal; Part VIII underscores the importance of the Rule of Law to safeguarding civil liberties and human rights; and Part IX describes what should be considered the penultimate Rule of Law violation—the use of state-sanctioned executions—to further illustrate the Trump Administration’s contempt for the Rule of Law 52 and human rights and to show how, in the U.S., the concepts of the Rule of Law and torture are still under-conceptualized in American life. 53 With Part X recalling the Rule of Law’s distant and immediate past and its future prospects in the wake of the Trump Administration, the essay concludes that restoring and strengthening the Rule of Law will be critical to safeguarding America’s representative democracy, to fostering democratic norms around the globe, and to protecting civil and international human rights.

52. Christina Carrega, Dozens of members of Congress call on Biden to end the federal death penalty, CNN (Dec. 15, 2020, 5:07 PM), https://www.cnn.com/2020/12/15/politics/death-penalty-congress-letter-pressley/index.html (noting that, in December 2020, Massachusetts Rep. Ayanna Pressley wrote that the Trump Administration “has weaponized capital punishment with callous disregard for human life” and that “[i]n the middle of our current public health crisis, the Department of Justice resumed federal executions and executed more people in six months than the total number executed over the previous six decades”); Erik Ortiz, Senators ask Justice Department watchdog to investigate federal executions under Trump, NBC NEWS (Dec. 22, 2020, 8:52 AM), https://www.nbcnews.com/politics/justice-department/senators-ask-justice-department-watchdog-investigate-federal-executions-under-trump-n1252079 (“Since July, the Justice Department under Attorney General William Barr has put 10 federal inmates to death, with three more executions scheduled in January just days before President-elect Joe Biden’s inauguration. That is the most executions in a presidential lame-duck period in more than 130 years.”).
53. In particular, I argue that the Rule of Law requires respect for universal human rights, such as the right to be free from torture, and that the death penalty (which bears all the indicia of a torturous practice) should be—but for whatever reason, has not yet been—classified and prohibited by law as a torturous act. E.g., Matt Hadro, Is the death penalty a form of psychological torture? This author says yes, CATH. NEWS AGENCY (Mar. 14, 2017, 3:20 AM), https://www.catholicnewsagency.com/news/is-the-death-penalty-a-form-of-psychological-torture-this-author-says-yes-26120 (discussing the arguments made in THE DEATH PENALTY AS TORTURE: FROM THE DARK AGES TO ABOLITION, a book published in 2017 by Carolina Academic Press in which I argue that the death penalty should be classified under the rubric of torture).
II. THE “RULE OF LAW” CONCEPT

There are “rules of law” and then there is the “Rule of Law.” Both are important, but the Rule of Law—the application of which makes clear that no one, not even a nation’s leader, is above the law—sets the character and tone for the proper administration of a country’s laws or, in the global context, for the application of international law. If a tyrant, a despot, or an authoritarian leader or regime can ignore a provision of a legally binding treaty or a country’s constitution or snub or flout some other rule of law, then there is, in reality, no meaningful

54. Jeremy Waldron, The Rule of Law, STAN. ENCYCLOPEDIA OF PHIL. (June 22, 2016), https://plato.stanford.edu/entries/rule-of-law/ (“The phrase ‘the Rule of Law’ has to be distinguished from the phrase ‘a rule of law.’ The latter phrase is used to designate some particular legal rule like the rule against perpetuities or the rule that says we have to file our taxes by a certain date. Those are rules of law, but the Rule of Law is one of the ideals of our political morality and it refers to the ascendancy of law as such and of the institutions of the legal system in a system of governance.”); id. (“The most important demand of the Rule of Law is that people in positions of authority should exercise their power within a constraining framework of well-established public norms rather than in an arbitrary, ad hoc, or purely discretionary manner on the basis of their own preferences or ideology. It insists that the government should operate within a framework of law in everything it does, and that it should be accountable through law when there is a suggestion of unauthorized action by those in power.”).

55. This idea has been expressed in different ways through history. “[I]f you maltreat a penguin in the London zoo,” Law Lord Tom Bingham wrote in 2010, “you do not escape prosecution because you are the Archbishop of Canterbury.” GEERT CORSTENS, UNDERSTANDING THE RULE OF LAW 10 (Annette Mills trans., 2017); TOM BINGHAM, THE RULE OF LAW 4 (Penguin Books 2011) (2010); see generally TOM BINGHAM, THE BUSINESS OF JUDGING: SELECTED ESSAYS AND SPEECHES (2000). In 1903, in his Third Annual Message to Congress, President Theodore Roosevelt put it this way: “No man is above the law and no man is below it; nor do we ask any man’s permission when we require him to obey it. Obedience to the law is demanded as a right; not asked as a favor.” Theodore Roosevelt, Third Annual Message to Congress, 7 Dec. 1903, in THE YALE BOOK OF QUOTATIONS 648 (Fred. R. Shapiro, ed., 2006).

56. GERANNE LAUTENBACH, THE CONCEPT OF THE RULE OF LAW AND THE EUROPEAN COURT OF HUMAN RIGHTS 3 (2014) (“There are two different views of the rule of law in international law: one that sets standards for the international legal system, and one that sets standards for the national legal system.”). Cf. id. at 4 (“On the international level, there is no centralized hierarchical power that can ensure the application of the law. In the context of international law, the rule of law is mainly concerned with the conditions under which the power of states is exercised. At the same time, the possibilities that exist within international law to ensure compliance with the law are mainly dependent upon states. Furthermore, one of the central concepts of the rule of law is the equal application of the law. As noted, the control of state power through law is essential to any rule of law concept. However, states are not equal in power and strength, and this creates serious problems for the functioning of the rule of law in the international legal system.”).
Rule of Law, however that concept is defined or understood, whether by the U.N. Secretary-General, a national leader, a legal commentator, or a historical figure.

---

57. Clemens A. Feinigule, *The Rule of Law and Its Application to the United Nations*, in *HANDBOOK ON THE RULE OF LAW 213* (Christopher May & Adam Winchester, eds., 2018) (“Lord Bingham counted among his eight sub-rules or principles of the rule of law, among others, that the law must be clear and predictable and be applied equally to all; that the law must afford adequate protection of human rights; that means must be provided for resolving disputes and that adjudicative procedures provided by the state should be fair.”); see also Christopher May & Adam Winchester, *Introduction to HANDBOOK ON THE RULE OF LAW 1, 8* (Christopher May & Adam Winchester, eds., 2018) (laying out the eight components of the rule of law set forth by Tom Bingham as follows: (1) “The law must be accessible and so far as possible intelligible, clear and predictable.”; (2) “Questions of legal right and liability should ordinarily be resolved by application of the law and not the exercise of discretion.”; (3) “The laws of the land should apply equally to all, save to the extent that objective differences justify differentiation.”; (4) “Ministers and public officers at all levels must exercise the powers conferred, without exceeding the limits of such powers and not unreasonably.”; (5) “The law must afford adequate attention to fundamental human rights.”; (6) “Means must be provided for resolving, without prohibitive cost or inordinate delay, bona fide civil disputes which the parties themselves are unable to resolve.”; (7) “Adjudicative procedures provided by the state should be fair.”; and (8) “The rule of law requires compliance by the state with its obligations in international law as in national law.”).

58. See, e.g., John M. Breen, *The Lost Volume Seller and Lost Profits Under U.C.C. § 2-708(2): A Conceptual and Linguistic Critique*, 50 U. MIAI. L. REV. 779, 853 (1996) (“Although there is no one settled definition of ‘the rule of law,’ the basic concept is that disputes between individuals and the state must be resolved by the ‘law.’”); see also Tom Bingham, *THE RULE OF LAW* ch. 1 (Penguin Books 2011) (discussing different conceptions of the Rule of Law); LAUTENBACH, *supra* note 56, at 8 (“the rule of law is defined in very diverse ways.”). Cf. LAUTENBACH, *supra* note 56, at 18 (“Simple definitions of the rule of law describe the concept as ‘government by law, not by men’, or ‘the subjection of all state power to the law’, or ‘the limitation of arbitrary government.’”).

59. In a 2004 report, “The Rule of Law and Transitional Justice in Conflict and Post-Conflict Societies,” the rule of law was defined as follows: [A] principle of governance in which all persons, institutions and entities, public and private, including the State itself, are accountable to laws that are publicly promulgated, equally enforced and independently adjudicated, and which are consistent with international human rights norms and standards. It requires, as well, measures to ensure adherence to the principles of supremacy of law, equality before the law, accountability to the law, fairness in the application of the law, separation of powers, participation in decision-making, legal certainty, avoidance of arbitrariness and procedural and legal transparency.

60. Dwight D. Eisenhower—a five-star General of the U.S. Army during World War II who became the 34th President of the United States—once put it this way: “The clearest way to show what the rule of law means to us in everyday life is to recall what has happened when there is no rule oflaw.” SCOTT SLORACH ET AL., *LEGAL SYSTEMS AND SKILLS 23* (Oxford Univ. Press, 3d ed. 2017); see also KAIUS TUORI, *EMPIRE OF LAW: NAZI GERMANY, EXILE SCHOLARS AND THE BATTLE FOR THE FUTURE OF EUROPE* 121 (2020) (“The rule of law was
**Rules of law** are found in treaties, constitutions, statutes, ordinances, and administrative regulations. Courts, through judicial
rulings, also lay down legal rules by looking to precedents and custom—a foundation of both international law and the common law. In 1914, Bouvier’s Law Dictionary defined a rule of law in this way: “A general principle of law, recognized as such by authorities. It is called a rule because in new cases it is a rule for their decision; it embraces particular cases within general principles.” The Rule of Law, by contrast, is defined by the Oxford English Dictionary as “[t]he authority and influence of law in society, esp. as when viewed as a constraint on individual and institutional behavior; (hence) the principle whereby all

and local—authorize administrative agencies to issue specific rules and regulations consistent with the general principles specified in a statute or municipal ordinance.”.

68. Marbury v. Madison, 5 U.S. 137, 177 (1803) (“It is emphatically the province and duty of the judicial department to say what the law is.”).

69. Hugh Thirlway, The Sources Of International Law 60 (2d ed. 2019) (“In human societies generally, custom ranking as something amounting to law can be traced back to preliteracy societies, where indeed it was virtually the only form of law possible.”); id. (“In treating custom as a source of legal rules, international law thus does not deviate from the pattern discernible in municipal legal systems.”); Emmerich de Vattel, The Law of Nations; Or, Principles of the Law of Nature, Applied to the Conduct and Affairs of Nations and Sovereigns ixix (Joseph Chitty ed., T. & J. W. Johnson, 7th Am. ed. 1849) (“Certain maxims and customs, consecrated by long use, and observed by nations in their mutual intercourse with each other as a kind of law, form the Customary Law of Nations, or the Custom of Nations.”); Anthony J. Bellia Jr. & Bradford R. Clark, The Law of Nations and the United States Constitution 6 (2017) (“By the eighteenth century, certain English judges and treatise writers endorsed the idea that the common law of England generally incorporated the law of nations. In 1764, Lord Mansfield observed ‘[t]hat the law of nations, in its full extent, was part of the law of England.’ Blackstone also described the law of nations as part of the law of the land.”). Article 38(1) of the Statute of the International Court of Justice (“ICJ Statute”) lists the following sources of international law: “international conventions,” “international custom,” “the general principles of law recognized by civilized nations,” “judicial decisions,” and “the teachings of the most highly qualified publicists of the various nations.” Statute of the International Court of Justice art. 38(1) (2017-2021).

70. Wilcox v. Wood, 9 Wend. 346, 349 (1832) (“A universal custom becomes common law.”); 1 Stewart Rapalje & Robert L. Lawrence, A Dictionary of American and English Law, With Definitions of the Technical Terms of the Canon and Civil Laws 243 (1888) (noting that “the original common law” constituted “those rules which have been administered by the common law courts from time immemorial” and that “in this sense ‘common law’ is opposed to ‘statute law’ ”); Henry James Holthouse & Henry Penington, A New Law Dictionary, Containing Explanations of Such Technical Terms and Phrases as Occur in the Works of Legal Authors, in the Practice of the Courts, and in the Parliamentary Proceedings of the Houses of Lords and Commons 113 (1847) (“The custom of the realm . . . from the circumstance of its being the common or ordinary law of the land, as formerly administered between man and man, is denominated the common law of the realm, and under which denomination is comprised all the law of this country excepting the statute law.”).

72. The term Rule of Law is frequently capitalized to distinguish it from a particular legal rule, or rule of law. E.g., Jeremy Waldron, The Concept and the Rule of Law, 43 GA. L. REV. 1, 3 n.1 (2008).
members of a society (including those in government) are considered equally subject to publicly disclosed legal codes and processes.” The Latin maxim nemo est supra leges—no one is above the laws—has been around for a long time, with the Rule of Law itself said to be “founded on the notion that no one is above the law.”

73. Carl Wellman, Conceptual Analysis and Emergency Legislation, in The Rule of Crisis: Terrorism, Emergency Legislation and the Rule of Law 17 (Pierre Auriel, Oliver Beaud & Carl Wellman eds. 2018); see also Hans Corell, Reflections on International Criminal Justice: Past, Present and Future, 12 Wash. U. Global Stud. L. Rev. 621, 627 (2013) (“[W]hat does the rule of law mean? If we take the national level as a point of departure, one of the fundamental elements of the rule of law is that all should be equal under the law. In particular, the government and its officials and agents must be subject to and held accountable under the law.”); Monica P. Moyo, The International Rule of Law: An Analysis, 23 Minn. J. Int’l L. 79, 82 (2014) (“A number of normative principles have been used to define the thick or substantive understanding of the rule of law, including fairness in adjudication, clarity of law, limitation of discretion, ability to resolve civil disputes appropriately, and equal application of law. Other elements of a thick understanding of the rule of law include respect for international law as well as moral values such as the preservation of the ‘dignity, equality, and human rights of all persons.’ ”); Justin Hughes, The Charming Betsy Canon, American Legal Doctrine, and the Global Rule of Law, 53 Vand. J. Transnat’l L. 1147, 1171 n.113 (2020) (“The federal judiciary’s own website describes ‘[r]ule of law [as] a principle under which all persons, institutions, and entities are accountable to laws that are: [p]ublicly promulgated; [e]qually enforced; [i]ndependently adjudicated; and consistent with international human rights principles.’ ”) (citation omitted).

75. See, e.g., Peter Halkerston, A Collection of Latin Maxims and Rules, in Law and Equity, Selected from the Most Eminent Authors, on the Civil, Canon, Feudal, English and Scots Law, with an English Translation 95 (1823); Walter A. Shumaker & George Foster Longsdorf, The Cyclopedic Dictionary of Law: Comprising the Terms and Phrases of American Jurisprudence, Including Ancient and Modern Common Law, International Law, and Numerous Select Titles from the Civil Law, the French and the Spanish Law, Etc., with an Exhaustive Collection of Legal Maxims 621 (1901); Fellmeth & Horwitz, supra note 74, at 194; see also 1 A Collection of State Tracts, Publish’d on Occasion of the Late Revolution in 1688 and During the Reign of King William III, at 264 (1705) (“The King did not think himself above the Law . . . ”); “Wednesday’s Post,” Ipswich Journal (Ipswich, England), Nov. 24, 1792, at 4 (commenting on Louis XVI and the Constitution of 1791, noting that the French Declaration of Rights contains the “sacred maxim” that “[n]o one can be punished but in virtue of a law made prior to his crime” and that “[t]his maxim admits of no exception,” and observing: “A Constitution which might place a man above the law, even if accepted, would be null.”). The expression nemo est supra leges is listed in “Maxims and Rules of the Law of England, and Principles of Equity.” Capel Loft, Reports of Cases Adjudged in the Court of King’s Bench, from Easter Term 12 Geo. 3. to Michaelmas 14 Geo. 3, with Some Select Cases in the Court of Chancery, and of the Common Pleas, Which Are Within the Same Period, to Which Is Added the Case of General Warrants, and a Collection of Maxims 1, 5 (1790) (listing the maxim in the separated paginated section of the book titled “Maxims and Rules of the Law of England, and Principles of Equity”).

Picard, Robert Groenewa & Terry F. Buss, eds., 2015). In the early twentieth century, at a speech in Butte, Montana, President Theodore Roosevelt put it this
The Rule of Law has multiple pillars, but there is no consensus as to its exact definition even though the concept is a long-standing one. “[A]lthough the precise meaning of the phrase ‘rule of law’ is much debated,” scholars Maurice Adams, Ernst Hirsch Ballin and Anne

way: “Ours is a government of liberty by, through and under the law. No man is above it and no man is below it.” THEODORE ROOSEVELT, A SQUARE DEAL FOR EVERY MAN: A COLLATION OF QUOTATIONS FROM THE ADDRESSES AND MESSAGES OF THEODORE ROOSEVELT, BEING A SELF-DENELIATION OF HIS CHARACTER AND IDEALS (Robert J. Thompson comp., 1904). Compare Aspen Expl. Corp. v. Sheffield, 739 P.2d 150, 157 n.14 (Alaska 1987) (“The immunity of public officials is a relatively recent phenomenon. Traditionally, the common law did not distinguish between public officials and private individuals for purposes of tort liability.”) This rule had its origin in the Anglo-American common law principle that ‘no man is above the law.’ As the eminent British constitutional scholar, A.V. Dicey boasted: ‘[w]ith us every official from the Prime Minister down to the constable or a collector of taxes, is under the same responsibility for every act done without legal justification as any other citizen.’ (“[T]oday the [w]hole official’s authority is done without legal justification as any other citizen.” (citations omitted), with id. at 157-58 (“[T]oday the general rule in the federal courts, and a minority of states, is that a public official is absolutely immune from common law tort liability for any discretionary act done within the scope of the official’s authority without regard to motive.”).

77. See, e.g., CRISTINA NICOLESCU-WAGGONNER, NO RULE OF LAW, NO DEMOCRACY: CONFLICTS OF INTEREST, CORRUPTION, AND ELECTIONS AS DEMOCRATIC DEFICITS 14 (SUNY Press 2016) (“I identify four main pillars of rule of law in a state: the separation of powers, the predictability of the legal system, the independence and impartiality of judiciary, and the equal protection of civil rights and liberties by the law. . . .” Since the justice system is the guardian of rule of law, I identify the independence and impartiality of the judiciary and the predictability of the legal system as the crucial weak links in the process of rule of law establishment. If these two components are harmed, they weaken all other rule of law pillars.”).

78. Id. at 28 (“The definition of rule of law is also complex. Much like defining democracy, defining rule of law is similar to going through a very extended checklist organized into five major categories: accountability, legislation, enforcement, fairness, and efficiency.”); compare id. (“I prefer the definition employed by the International Bar Association. Rule of law is principle of governance in which all persons, institutions and entities, public and private, including the State itself are accountable to laws that are publicly promulgated, equally consistent with international human rights norms and standards. It requires, as well, measures to ensure adherence to the principles of supremacy of law, equality before the law, accountability of the law, fairness in the application of the law, separation of powers, participation in the decision-making, legal certainty, avoidance of arbitrariness and procedural and legal transparency.”) with id. (“I make available a list of the most frequently employed definitions of rule of law both by scholars and practitioners (appendix 1).”); see also Rosin Burke, SOMALIA AND LEGAL PLURALISM: ADVANCING GENDER JUSTICE THROUGH RULE OF LAW PROGRAMMING IN TIMES OF TRANSITION, 16 LOY. U. CHI. INT’L L. REV. 177, 185-86 (2020) (“There is no universally accepted definition of the ‘rule of law’ (‘RoL’). The literature refers to both ‘thin’ and ‘thick’ conceptions of the rule of law. Thin definitions of the rule of law generally refer to formal legal and procedural rules, which often tend to be minimalist. Thick definitions of the rule of law go towards the broader contours of justice and human rights, including gender justice. Rule of law is a system wherein each and every individual has access to a just and equitable system, that is accountable, trustworthy, accessible, transparent, entails a culture of compliance with the law, and ensures human rights are complied with on an equal basis for all.”); Teemu Ruskola, LAW WITHOUT LAW, or IS “CHINESE LAW” an OXYMORON?, 11 WM. & MARY BILL RTS. J. 655, 657 (2003) (“[T]here is little consensus on just what constitutes ‘rule of law.’ Legal theorists have proposed multiple definitions ranging from ‘thick’ to ‘thin,’ from ‘instrumental’ to ‘substantive.’ “).
Meuwese explain, “nowadays there seems to be some agreement that it encompasses fundamental rights protection, judicial review, the division of powers, as well as a variety of governance requirements—values that are in some form also legally protected by constitutional norms.”79 “The ‘rule of law’ in its usual sense,” emphasizes University of Baltimore law professor Tim Sellers, “implies the fulfillment of justice and the negation of government by and for the benefit of those in charge.”80

79. Maurice Adams et al., The Ideal and the Real in the Realm of Constitutionalism and the Rule of Law: An Introduction, in CONSTITUTIONALISM AND THE RULE OF LAW: BRIDGING IDEALISM AND REALISM 4 (Maurice Adams, Ann Meuwese & Ernst Hirsch Ballin eds., 2017); see also Jeremias A. Dron, Are Sovereigns Entitled to the Benefit of the International Rule of Law?, 22 EUR. INT’L L. 315, 316-17 (2011) (noting that “there is an immense literature” on what the Rule of Law requires and “the ideal is heavily contested”; suggesting that “[r]eaders unfamiliar with the main issues might want to look at writings on the subject by Aristotle, Dicey, Dworkin, Fallon, Finnis, Fuller, Hayek, Locke, Raz, Rawls, and Tamanaha”; and observing “the ROL comprises some or all of the following”: “1. a requirement that people in positions of authority should exercise their power within a constraining framework of public norms rather than on the basis of their own preferences or ideology; 2. a requirement that there be general rules laid down clearly in advance, rules whose public presence enables people to figure out what is required of them, what the legal consequences of their actions will be, and what they can rely on so far as official action is concerned; 3. a requirement that there be courts, which operate according to recognized standards of procedural due process or natural justice, offering an impartial forum in which disputes can be resolved, and allowing people an opportunity to present evidence and make arguments before impartial and independent adjudicators to challenge the legality of official action, particular[ly] when it impacts on vital interests in life, liberty, or economic well-being; 4. a principle of legal equality, which ensures that the law is the same for everyone, that everyone has access to the courts, and that no one is above the law.”).

80. Mortimer Sellers, An Introduction to the Rule of Law in Comparative Perspective, in THE RULE OF LAW IN COMPARATIVE PERSPECTIVE 2 (Mortimer Sellers & Tadeusz Tomaszewski eds., 2010); see also id. at 4 (“This, then, is the central definition and purpose of the rule of law: the effort to discover what combination of powers in society, or what form of government, will compel the formation of good and equal laws, an impartial execution, and faithful interpretation of them, so that citizens may constantly enjoy the benefit of them, and be sure of their continuance.”). Mortimer “Tim” Sellers is an expert on republicanism and the Rule of Law, and he has emphasized the Rule of Law’s importance to promoting liberty and the common good. E.g., M. N. S. Sellers, AMERICAN REPUBLICANISM: ROMAN IDEOLOGY IN THE UNITED STATES CONSTITUTION 7 (1994) (“Understanding American republicanism requires a familiarity with the literary and political sources used and imitated by eighteenth-century Americans. These included not only the Roman authors and statesmen Americans explicitly appropriated in their pamphlets and pseudonyms, but also European writers who had interpreted Rome in the past, and Americans who had incorporated Roman imagery into their public iconography and grammar-school curriculum.”); Mortimer Sellers, What Is the Rule of Law and Why Is It So Important?, in DEMOCRACY AND RULE OF LAW IN THE EUROPEAN UNION: ESSAYS IN HONOUR OF JAAP W. DE ZWAAN 5 (Flora A.N.J. Goudappel & Ernst M.H. Hirsch Ballin, eds., 2016) (“The rule of law signifies ‘the empire of laws and not of men’: the subordination of arbitrary power and the will of public officials as much as possible to the guidance of laws made and enforced to serve their proper purpose, which is the public good (‘res publica’) of the community as a whole. When positive laws or their interpretation or enforcement serve other purposes, there is no rule of law, in its fullest sense, but rather ‘rule by law’—mere legalism—in service of arbitrary power. The vocabulary here is important, because the concept of the rule of law enjoyed its fullest elaboration in tandem
III. THE ANCIENT ORIGINS OF THE RULE OF LAW, AND ITS
IMPORTANCE THROUGH HISTORY

The idea of the Rule of Law emerged in ancient times, including in Athens and Rome. “In the Western tradition,” one encyclopedia

with related struggles for ‘liberty’ and ‘republican government’ against tyranny and oppression.”; id. (“When we have and maintain a legal system that serves the common good of society as a whole, then we have the rule of law (because the laws rule and not men), we have liberty (because the law prevents oppression), and we live in a republic (because government advances the ‘res publica’ or ‘common good’ of its subjects). The rule of law, liberty, and republican government are three facets of the same substantive good, secured only where the laws rule and protect us from tyranny and oppression.”).

See, CHRISTOPHER MAY, THE RULE OF LAW: THE COMMON SENSE OF GLOBAL POLITICS 33-45 (2014) (discussing the complexity of the Rule of Law concept and providing differing historical perspectives that have been offered as to its meaning); Yongshun Cai & Songcai Yang, State Power and Unbalanced Legal Development in China, in DEBATING POLITICAL REFORM IN CHINA: RULE OF LAW VS. DEMOCRATIZATION 164 (Suisheng Zhao ed., 2015) (“There has not been a commonly accepted definition of rule of law, but ‘virtually all definitions of rule of law agree on the importance of law’s function to set limits to the exercise of private and state power.’ Hence, a precondition for rule of law is to restrain state actors.”).

82. BERNARD J. COUGHLIN, THE SOUL OF A NATION: CULTURE, MORALITY, LAW, EDUCATION, FAITH 77 (2012) (“The concept of the ‘rule of law,’ which rests on natural law theory, we . . . owe to Aristotle. In the Politics he asks whether the rule of an individual is preferable to the rule of law. He answers: ‘To invest the law then with authority is, it seems, to invest God and intelligence only; to invest a man is to introduce a beast, as desire is something bestial and even the best of men in authority are liable to be corrupted by anger. We may conclude then that the law is intelligence without passion and is therefore preferable to any individual’ . . . This philosophy of natural law and the rule of law the Romans inherited from the Greeks, and Western Civilization received it from the Romans.’

83. EDWARD M. HARRIS, THE RULE OF LAW IN ACTION IN DEMOCRATIC ATHENS 3 (2013) (“The Rule of Law was one of the most important cultural values in Athenian democracy. When delivering the funeral oration for the Athenian soldiers who fell at Lamia in 322 BCE, Hyperides (Epitaphios 25) declared: ‘For men to be happy they must be ruled by the voice of law, not the threats of a man; free men must not be frightened by accusation, only by proof of guilt; and the safety of our citizens must not depend on men who flatter their masters and slander our citizens but on our confidence in the law.’”) (citation omitted); see also id. at 5 (“According to Dicey, the rule of law requires that ‘no one is above the law and everyone is equal before the law regardless of social, economic, or political status.’ This principle is contained in an article in the Déclaration des droits de l’homme of 1789 (‘Les hommes naissent et demeurent libres et égaux en droits’). There can be no question that the Athenians believed in this principle and followed it in their laws. According to Demosthenes, the Athenians enjoyed equality because of their laws. This principle was explicitly stated in the laws enacted in 403 BCE: ‘It is not permitted to enact a law directed at an individual unless the same law applies to all Athenians.’”)

84. NORMAN E. BOWIE & ROBERT L. SIMON, THE INDIVIDUAL AND THE POLITICAL ORDER: AN INTRODUCTION TO SOCIAL AND POLITICAL PHILOSOPHY 54-55 (4th ed. 2008) (“The concern for the rule of law as manifested in ancient Rome led to further emphasis on the Stoic ideal of a law of nature. In 534 AD, Emperor Justinian presided over the completion of the Corpus Iuris Civilis, a great codebook of Roman law. This codification of the law of the Roman Empire was to have remarkable influence, for one of the great gifts of Rome to later civilizations was appreciation of the significance of the rule of law. Justinian’s law books claimed universal validity and so reinforced the Stoic ideal of a law over and above the law of any particular community, applying equally to all. This conception of a ‘higher’ law than
notes, “the historical origins of the rule of law go back more than 2,000 years.” “Many ancient legal systems, such as the Code of Hammurabi, the Twelve Tables in ancient Rome, and the Mosaic Law of ancient Israel,” it observes, “established legal codes to be applied . . .”85 But the concept of the Rule of Law, properly understood, consists of far more than just having written laws in place.86 As that modern encyclopedia observes: “[W]hile the existence of laws is a necessary precondition for the rule of law to exist, it is not sufficient. The rule of law ideal requires the sovereign to accept law as a constraint on the sovereign’s interactions with members of the polity.”87 “In the Western tradition,” that encyclopedia stresses of the Rule of Law’s beginnings so long ago, “the first serious treatments of the rule of law as a limitation on the ability of the state to act outside the law were Plato’s The Republic and Aristotle’s Politics.”88

that of one’s community was acknowledged by many educated Romans during various stages of the Empire’s development. Perhaps none expressed the idea as well as Cicero, who declared: ‘There is indeed a law, right reason, which is in accordance with nature; existing in all, unchangeable, eternal . . . It is not one thing at Rome, and another thing at Athens . . . but it is a law, eternal and immutable for all nations and for all time.’”).

85. THE SAGE ENCYCLOPEDIA OF POLITICAL BEHAVIOR, supra note 62, at 721; cf. id. (“Despite the positive benefits claimed to be associated with the rule of law, attempts by Western agencies to export the rule of law to non-Western countries have met with limited success. China, in particular, and many Asian countries in general, have resisted both formal and substantive formulations of the rule of law as incompatible with non-Western social and legal norms. Chinese jurists, scholars, and political elites advocate a minimalist, nonsubstantive understanding of the rule of law in the form of ‘rule by law.’ Rule by law idealizes the use of law by the state to govern its citizens but does not imply any restraint on government by law.”). 86. Id. at 722 (noting that “[s]cholars such as Joseph Raz, Lon Fuller, and John Finnis have suggested a number of formal principles comprising the rule of law ideal,” including these: (1) publication of laws so there is notice of what the law requires; (2) integrity in creating and applying the law, which means “clear, transparent, and open rules and processes” and executive agencies and judges who “apply the law faithfully and refrain from arbitrary exercises of discretion, providing special benefits to certain individuals or classes not specified in law, or ignoring the law in exercising their powers”; (3) independence of the judiciary so judges are able to “apply the law free of outside political influences”; (4) laws that are understandable, that do not impose contradictory obligations on those subject to them, that are possible to comply with, and that are prospective in their application, with “[t]he rule of law ideal” being “inconsistent with the use of laws to retrospectively punish or prohibit past conduct that was not illegal or improper at the time it occurred”; (5) stability, because “[a] state that makes frequent, radical changes to the legal rights and obligations of its citizens undermines the ability of those subjects to rely upon law as the primary mechanism for communicating legal requirements”; and (6) “[g]enerality and neutrality,” with the ideal that laws are to be “general in application and not designed to benefit or suppress particular persons or classes of persons”).

87. Id. at 721.

88. Id.; see also id. (“[I]n Book II of the Politics, Aristotle distinguished states ruled by individuals (such as monarchy where a sovereign exercises arbitrary power over subjects) from politics ruled through laws applicable to all including the sovereign itself. Aristotle observed that all individuals, including rulers, are subject to self-interested appetites and
The Rule of Law’s history, in fact, cannot be separated from ancient philosophers, the Enlightenment’s intellectual history, or revolutionary constitutions, be they in Africa, Europe, North America or elsewhere. The American and French Revolutions, for instance, both produced written declarations of rights that changed the course of world history, just as—two centuries later—South Africa would rid itself of apartheid and adopt a new, transformative constitution. In America, the Declaration of Independence (1776), revolutionary state constitutions, the U.S. Constitution, and the U.S. Bill of Rights (1791) contain rights clauses that recite protections for civil rights and civil liberties. Likewise, in France, the Declaration of the Rights of Man and the Citizen (1789), with its preamble referencing “the natural, unalienable and sacred rights of man,” states in its very first article: “Men are born and passions that corrupt their ability to exercise power and make decisions rationally in the interest of the overall populace. Aristotle therefore considered the rule of law to be a mechanism for controlling otherwise unrestrained passions by subjecting them to the dictates of natural law and reason.”; Waldron, supra note 79 (“The Rule of Law has been an important ideal in our political tradition for millennia, and it is impossible to grasp and evaluate modern understandings of it without fathoming that historical heritage. The heritage of argument about the Rule of Law begins with Aristotle (c. 350 BC); it proceeds with medieval theorists like Sir John Fortescue (1471), who sought to distinguish lawful from despotic forms of kingship; it goes on through the early modern period in the work of John Locke (1689), James Harrington (1656), and (oddly enough) Niccolò Machiavelli (1517); in the European Enlightenment in the writings of Montesquieu (1748) and others; in American constitutionalism in The Federalist Papers and (and even more forcefully) in the writings of the Federalists’ opponents; and, in the modern era, in Britain in the writings of A. V. Dicey (1885), F.A. Hayek (1944, 1960, and 1973), Michael Oakeshott (1983), Joseph Raz (1977), and John Finnis (1980), and in America in the writings of Lon Fuller (1964), Ronald Dworkin (1985), and John Rawls (1971).”).

91. E.g., RONALD DWORKIN, FREEDOM’S LAW: THE MORAL READING OF THE AMERICAN CONSTITUTION 7 (1997) (“The clauses of the American Constitution that protect individuals and minorities from government are found mainly in the so-called Bill of Rights—the first several amendments to the document—and the further amendments added after the Civil War.”); RONALD DWORKIN, LIFE’S DOMINION: AN ARGUMENT ABOUT ABORTION, EUTHANASIA, AND INDIVIDUAL FREEDOM 128 (1994) (“Read in the most natural way, the words of the Bill of Rights do seem to create a breathtakingly abstract, principled constitution. Taken at face value, they command nothing less than that government treat everyone subject to its dominion with equal concern and respect, and that it not infringe their most basic freedoms, those liberties essential, as one prominent jurist put it, to the very idea of ‘ordered liberty.’”).
remain free and equal in rights.” By contrast, South Africa’s post-apartheid constitution—adopted in the 1990s—protects not only an array of individual civil rights, but also social and economic rights such as education, food and water, health care, housing, social security, and the environment.

Throughout the world, adherence to the Rule of Law only emerged over time, with fierce battles between monarchical rule and the desire to protect the natural and imprescriptible rights of man. These rights are Liberty, Property, Safety, and Resistance to Oppression. The articles of the French Declaration make multiple declarations about rights and law itself. Article 2 states: “The aim of every political association is the preservation of the natural and imprescriptible rights of man. These rights are Liberty, Property, Safety, and Resistance to Oppression.” Id. Article 4 proclaims:

“Liberty consists in being able to do anything that does not harm others: thus, the exercise of the natural rights of every man has no bounds other than those that ensure to the other members of society the enjoyment of these same rights. These bounds may be determined only by Law.” Id. Article 5 declares: “The Law has the right to forbid only those actions that are injurious to society. Nothing that is not forbidden by Law may be hindered, and no one may be compelled to do what the law does not ordain.” Id. In addition, Article 6 states:

“The Law is the expression of the general will. All citizens have the right to take part, personally or through their representatives, in its making. It must be the same for all, whether it protects or punishes. All citizens, being equal in its eyes, shall be equally eligible to all high offices, public positions and employments, according to their ability, and without other distinction than that of their virtues and talents.” Id.

93. John D. Bessler, In the Spirit of Ubuntu: Enforcing the Rights of Orphans and Vulnerable Children Affected by HIV/AIDS in South Africa, 31 HASTINGS INT’L & COMP. L. REV. 33, 47 (2008) ("The Constitution of the Republic of South Africa, adopted in 1996, is ‘the supreme law of the Republic.’ It proclaims that ‘South Africa belongs to all who live in it,’ and it was specifically promulgated to ‘[h]eal the divisions of the past and establish a society based on democratic values, social justice and fundamental human rights.’ The Constitution’s very first section states that South Africa is founded upon the values of ‘[h]uman dignity, the achievement of equality and the advancement of human rights and freedoms’ and the ‘[s]upremacy of the constitution and the rule of law.’ All of South Africa’s citizens are ‘equally entitled to the rights, privileges and benefits of citizenship’ and ‘equally subject to the duties and responsibilities of citizenship.’").

94. Danie Brand, Introduction to Socio-Economic Rights in the South African Constitution, in SOCIO-ECONOMIC RIGHTS IN SOUTH AFRICA 1 (Danie Brand & Christof Heyns eds., 2005) ("The South African Constitution is known for its entrenchment of a range of socio-economic rights: environmental rights and rights to land, housing, health care, food, water, social assistance and education. These rights, together with various other features in the Constitution, indicate that the South African Constitution differs from a traditional liberal model in that it is transformative, as it does not simply place limits on the exercise of collective power (it does that also), but requires collective power to be used to advance ideals of freedom, equality, dignity and social justice."); Bessler, supra note 93, at 48-49 (discussing various socio-economic rights set forth in South Africa’s Constitution).
for popular sovereignty and totalitarian or authoritarian regimes and societies seeking liberty. Famously, Charles I—the King of England, Scotland, and Ireland who reigned from 1625 until his death in 1649—was put on trial for treason and then beheaded on January 30, 1649 in front of the Banqueting House at Whitehall. It was only after the Commonwealth of England, led by Oliver Cromwell, and for a short time, his son, Richard Cromwell, that the monarchy was restored in 1660 under King Charles II, who ruled until his death in 1685. And it was only after the reign of his successor, James II (a devout Catholic who inherited the throne from his elder brother), that the Glorious Revolution of 1688-1689 ushered in the Protestant rule of William and Mary, who, upon assuming power, agreed to abide by a declaration of rights protecting their subjects. In the following century, the American and French Revolutions were, themselves, seminal historical

---

95. The Tudor and Stuart monarchies were characterized by acts of immense cruelty, including many executions. See generally ST. GEORGE KIERAN HYLAND, A CENTURY OF PERSECUTION UNDER TUDOR AND STUART SOVEREIGNS FROM CONTEMPORARY RECORDS (1920); see also KRISTEN DEITER, THE TOWER OF LONDON IN ENGLISH RENAISSANCE DRAMA: ICON OF OPPOSITION 121 (Erica Wetter et al. eds., 2009) (“Tudor-Stuart executions were . . . theatrical, employing the scaffold as a stage of public spectacle that usually followed an established sequence of rituals designed to assert and strengthen the monarch’s power over subjects’ bodies and discourage criminal activity by spectators.”). The history of colonial powers exploiting indigenous peoples is likewise well documented in the scholarly literature. See generally ROBERT HARMS, LAND OF TEARS: THE EXPLORATION AND EXPLOITATION OF EQUATORIAL AFRICA (2019); WILLIAM G. MCLoughlin, AFTER THE TRAIL OF TEARS: THE CHEROKEES’ STRUGGLE FOR SOVEREIGNTY 1839–1880 (2014); FRANCIS JENNINGS, THE INVASION OF AMERICA: INDIANS, COLONIALISM, AND THE CANT OF CONQUEST (2010); see also Ewout Frankema & Frans Buelens, Introduction to Colonial Exploitation and Economic Development: The Belgian Congo and the Netherland Indies Compared 1 (Ewout Frankema & Frans Buelens eds., 2013) (“Ample historical literature has shown that particular practices of colonial exploitation have caused widespread impoverishment, not only because colonial powers prioritized their own economic, political, and military interests at the expense of the majority of subject peoples, but also because they bequeathed to their overseas possessions distorted institutions which have undermined political stability and the growth of prosperity in the post-colonial era.”).

96. E.g., JON ORMAN, LANGUAGE POLICY AND NATION-BUILDING IN POST-APARTHEID SOUTH AFRICA 91 (2008) (noting that “[t]he post-apartheid era in South Africa began officially in 1994 when the first multiracial all-party elections were held,” leading to Nelson Mandela’s election).

97. WILLCOMB E. WASHBURN, VIRGINIA UNDER CHARLES I AND CROMWELL, 1625-1660, at 42 (2009); AUSTIN WOLFRYCH, BRITAIN IN REVOLUTION: 1625-1660, at 433-34 (2002); PETER CUNNINGHAM, LONDON IN 1857, at 6 (1857).

100. JACKSON J. SPIELVOGEL, WESTERN CIVILIZATION, SINCE 1300, at 477 (8th ed. 2012) (discussing the accession of James II (1685-1688), the Glorious Revolution, and how William and Mary were offered the throne subject to the provisions of a declaration of rights).
events in the Rule of Law’s history. “After the English Revolution of 1688, the American Revolution of 1776, and the French Revolution of 1789,” one historian, Alexander Rosenthal, has observed, “the great principles of popular sovereignty, rule of law, and constitutional
government at long last were secure and established for posterity.”

The Rule of Law concept has been refined over time, including for use in the international development arena, with different cultures

101. ALEXANDER S. ROSENTHAL, CROWN UNDER LAW: RICHARD HOOKER, JOHN
LOCKE, AND THE ASCENT OF MODERN CONSTITUTIONALISM 245 (2008). The American and
French Revolutions, another source notes, introduced two different forms of rule of law: one which guarantees the supremacy
of the constitution through the right to constitutional review by the judiciary (the US model), and one which only guarantees the supremacy of the legislator over the executive through legislative judicial review (the French, or by extension European continental model).

Randall Lesaffer & Shavana Musa, The Emergence of the Rule of Law in Western
Constitutional History: Revising Traditional Narratives, in CONSTITUTIONALISM
AND THE RULE OF LAW: BRIDGING IDEALISM AND REALISM 96 (Maurice Adams, Anne Meuwese &
Ernst Hirsch Ballin eds., 2017). The French Revolution degenerated into the Reign of Terror
and grotesque beheadings. See generally PAUL FRIEDLAND, SEEING JUSTICE DONE: THE AGE
OF SPECTACULAR CAPITAL PUNISHMENT IN FRANCE (2012). But the French Revolution—
like the American Revolution before it—sought to create a government of laws. Even French
King Louis XVI, before he was guillotined in 1793, issued this proclamation in late 1791:

I have accepted the Constitution; I will use all my endeavours to maintain it, and
cause it to be executed . . . . And you, whom the people have chosen to watch over
their interests; you, also, on whom they have conferred the formidable power of
determining on the property, the honour, and the life of citizens; you, whom they
have instituted to adjust their differences, members of the different administrative
bodies, judges of tribunals, judges of peace, I recommend to you to be impressed
with the importance and dignity of your functions; fulfill them with zeal, with
courage, with impartiality;—labour with me to restore peace, and the government
of laws; and by thus securing the happiness of the nation, prepare for the return of
those whose absence has only proceeded from the fear of disorder and violence.

An accurate translation of the Proclamation of Louis XVI, the Patriot ‘King of the French’,
GEN. ADVERTISER, Dec. 24, 1791, at 3.

102. THE SAGE ENCYCLOPEDIA OF POLITICAL BEHAVIOR, supra note 62, at 721 (“Cicero
condemned sovereigns who refused to comply with the law and argued that public officials
should themselves be subject to the law. The Corpus Iuris Civilis developed under the Roman
Emperor Justinian and other legal works provided the foundation for much of medieval
jurisprudence produced a millennium later.”); 5 CHRISTOPH BLEIKER & MARC KRUPANSKI,
THE RULE OF LAW AND SECURITY SECTOR REFORM: CONCEPTUALISING A COMPLEX
RELATIONSHIP 21-22 (2012) (noting that Rule of Law discourse became “heavily policy
driven” in the twentieth century and that “[w]ithin the framework of international peace and
development work, it was not until the 1960s and early 1970s that a RoL-related framework
and discourse gained significant and central traction in policy”); “By the end of the twentieth
century the concept of RoL had become more defined in terms of the norms of ‘democracy’
and ‘human rights’. Over time, the convergence of international democracy and human rights
promotion under the umbrella of international development assistance led to an increasingly
articulated set of explicit standards whose implementation in transitioning and developing
countries was promoted in the form of substantive RoL programmes.”).

103. G.A. Res. 67/1, Declaration of the High-level Meeting of the General Assembly on
the Rule of Law at the National and International Levels (Nov. 30, 2012),
articulating it in different ways. A more nuanced understanding of the Rule of Law has thus emerged in the scholarly literature, even as the “Rule of Law” terminology has become widespread in popular culture.

https://www.un.org/ruleoflaw/files/A-RES-67-1.pdf (reciting in the preamble of this six-page declaration: “We, Heads of State and Government, and heads of delegation have gathered at United Nations Headquarters in New York on 24 September 2012 to reaffirm our commitment to the rule of law and its fundamental importance for political dialogue and cooperation among all States for the further development of the three main pillars upon which the United Nations is built: international peace and security, human rights and development. We agree that our collective response to the challenges and opportunities arising from the many complex political, social and economic transformations before us must be guided by the rule of law, as it is the foundation of friendly and equitable relations between States and the basis on which just and fair societies are built.”).

104. See, e.g., Laurent Pech, Rule of Law in France, in ASIAN DISCOURSES OF RULE OF LAW: THEORIES AND IMPLEMENTATION OF RULE OF LAW IN TWELVE ASIAN COUNTRIES, FRANCE AND THE U.S.  80 (Randall Peerenboom ed., 2004) (“The first French peculiarity is the lack of any French expression, until the beginning of the twentieth century, with a meaning similar to the concept of rule of law. It was only then that the term Etat de droit—usually used today to loosely translate the term rule of law—became familiar among scholars. However, originally, the French term was only conceived as the literal translation of the German term Rechtsstaat, first introduced into French legal doctrine by Professor Léon Duguit in 1907.”); id. (“The close relation of the French term Etat de droit to the concept of Rechtsstaat requires a brief account of what German legal doctrine understands under this concept. Although it is customary to consider Immanuel Kant as the spiritual father of the concept of Rechtsstaat, the term itself was apparently first used in 1798 by Johan Wilhelm Placidus in his Litteratur der Statstlehre. Ein Versuch. This neologism was then popularized by Robert von Mohl, who defined the main objective of a Rechtsstaat as ‘organiz[ing] the living together of the people in such a manner that each member of it will be supported and fostered, to the highest degree possible, in the free and comprehensive exercise and use of his strengths.’”).

105. See Robert A. Stein, The Rule of Law, in THE RULE OF LAW IN THE 21ST CENTURY: A WORLDWIDE PERSPECTIVE 19 (Robert A. Stein & Richard J. Goldstone eds., 2015) (noting that “several principles that are central to the meaning of the rule of law have emerged,” and listing the following: (1) “The law must be superior. All persons are subject to the law whatever their station in life.”; (2) “There must be separation of powers in the government. The lawmakers should enact the law in general terms. It should not be the body that decides on application of the law to specific situations.”; (3) “The law must be known and predictable so that persons will know the consequences of their actions. The law must be sufficiently defined and government discretion sufficiently limited to ensure the law is applied in a non-arbitrary manner.”; (4) “The law must be applied equally to all persons in like circumstances.”; (5) “Members of society must have the right to participate in the creation and refinement of laws that regulate their behaviour.”; (6) “The law must be just and protect the fundamental human rights of all members of society.”; (7) “Legal processes must be sufficiently robust and accessible to ensure the enforcement of those protections.”; and (8) “The judicial power must be exercised independently of either the executive or legislative powers, and individual judges must base their decisions solely on the laws and the facts of individual cases.”); see also Richard J. Goldstone, Independence of the Judiciary, in THE RULE OF LAW IN THE 21ST CENTURY: A WORLDWIDE PERSPECTIVE (Robert A. Stein & Richard J. Goldstone eds., 2015) (“The equal treatment of all under the law is not possible without independent and unbiased judges to interpret and apply the law.”).

106. See Pietro Costa & Danilo Zolo, Preface to THE RULE OF LAW: HISTORY, THEORY AND CRITICISM ix (Pietro Costa & Danilo Zolo, eds. 2007) (“Today the expression ‘rule of law’ is remarkably widespread, not only in political and legal literature but, most notably, in newspapers and political language. This expression is by no means a fresh lexical creation:

The definition of Rule of Law is still frequently debated,110 as it no doubt will continue to be,111 but Sullivan and Massaro observe that it has both procedural and substantive elements and “can usefully be reduced to the

the formula ‘rule of law’ has in fact a long history, deeply affecting its meaning and contemporary popularity.”).

107. E.g., COURTNEY TAYLOR HAMARA, THE CONCEPT OF THE RULE OF LAW, IN LAW, LIBERTY, AND THE RULE OF LAW 11 (Imer B. Flores & Kenneth E. Himma eds., 2013) (“It is undeniable that the ‘Rule of Law’ is an important political ideal. In fact, it has been called ‘the most important political ideal today’. The concept is frequently invoked by politicians, the media and scholars in attempts to justify or condemn state actions, political decisions, or whole legal systems. As Jeremy Waldron writes: ‘Open any newspaper and you will see the ‘Rule of Law’ cited and deployed—usually as a matter of reproach, occasionally as an affirmative aspiration, almost always as a benchmark of political legitimacy’. While it might be going too far to say the ‘Rule of Law is universally accepted, it has indisputably achieved unprecedented support.”); see also NADIA E. NeidzEL & NICHOLAS CAPALDI, THE ANGLO-AMERICAN CONCEPTION OF THE RULE OF LAW 118 (2019) (“One of the first modern authors to use the expression ‘rule of law’ was Samuel Rutherford in Lex, Rex (1644), meaning ‘the law is king’ as opposed to the traditional formulation rex lex (‘the king is law’). James Harrington, in his Oceana (1656), argued that an ‘Empire of Laws, and not of Men’ was preferable to an ‘Empire of Men, and not of Laws.’ The expression ‘rule of law’ appears in Samuel Johnson’s Dictionary (1755).”).

108. E.g., LINDA L. CARROLL, THOMAS JEFFERSON’S ITALIAN AND ITALIAN-RELATED BOOKS IN THE HISTORY OF UNIVERSAL PERSONAL RIGHTS 11 (2019) (“The earliest concepts of the equal rights of all human beings based on a common human nature developed in ancient Greece, in the philosophical works of the Stoics and in the literary-theatrical works of Lucian of Samosata and Euripides. As explicated by Marcia Colish, Stoic thought emphasized unity and nature: the unity of the human mind and body, the unity of all humans, and the unity of humans with the rest of nature, a unity from which human equality flows.”).

110. E.g., Richard H. Fallon, Jr., “The Rule of Law” as a Concept in Constitutional Discourse, 97 COLUM. L. REV. 1, 1 (1997) (“The Rule of Law is a historical ideal, and appeals to the Rule of Law remain rhetorically powerful. Yet the precise meaning of the Rule of Law is perhaps less clear than ever before.”).

111. The editors of a recently published compilation note the “breadth and diversity” of conceptions of the Rule of Law. Linda Hamid & Jan Wouters, Rule of Law and Areas of Limited Statehood: Introduction and Perspective, in RULE OF LAW AND AREAS OF LIMITED STATEHOOD: DOMESTIC AND INTERNATIONAL DIMENSIONS 12 (2021); cf. id. at 12-13 (“Notwithstanding this variety of approaches, what remains true is that the traditional conceptualization of the RoL, in both its national and international milieus, is very much State-based. Chapter 2 in this volume, for instance, tracks the history of the RoL–State nexus nearly four centuries back. To a large extent, this understanding remains prevalent today. For example, no farther than 2011, the Venice Commission indicated that, viewed in its historical context, the RoL ‘addresses the exercise of power and the relationship between the individual and the state.’”)}
principle that law should be known, just, and enforceable.”[112 “[T]he rule of law,” they note, harkening all the way back to Aristotle[113 and the Roman Republic,[114 “has been described as a distinctive characteristic of

112. SULLIVAN & MASSARO, supra note 109, at 3; see also id. at 38 (“Today, ‘due process’ has come to be understood as ensuring both procedural and substantive protections.”); see also id. at 55 (“In both procedural and substantive due process the overarching goal has been to protect individuals from arbitrary deprivations at the hands of the government. As the historical roots of both procedural and substantive due process illustrate, the challenge in these cases is to strike a sensible balance between the power and interests of the government on the one hand and the liberty or autonomy interests of the individual on the other.”).

113. See also THEODORE KONSTADINIDES, THE RULE OF LAW IN THE EUROPEAN UNION: THE INTERNAL DIMENSION 47 (2017) (“Aristotle’s much cited maxim ‘the rule of law not the rule of men’ sets the sails for the development of the rule of law as a basis for formal equality and as a restraint to governmental authority. It was an absolute theory of law whose traces can be found in the way states initially adopted the rule-of-law concept in their legal system.”); cf. id. (“The reduction of arbitrariness illustrates one of the important values that the rule of law serves . . . The reduction of arbitrariness has always been at the epicenter of the history of the rule of law. Arbitrariness explains the state of affairs where the will of the power wielders grows into the sole justification for the exercise of power.”); Susanna Frederick Fischer, Playing Poohsticks with the British Constitution? The Blair Government’s Proposal to Abolish the Lord Chancellor, 24 PENN. ST. INT’L L. REV. 257, 282 (2005) (“To [A.V.] Dicey, the rule of law consisted of three elements: limits on the arbitrary power of the State, equality before the law, and the supremacy of ordinary law. Many other political theorists, such as F.A. von Hayek and Joseph Raz, have offered further refinements on the doctrine of the rule of law, but these theorists have generally agreed that the rule of law helps to minimize the danger of arbitrary governmental power.”); MAKING PEOPLES HEARD: ESSAYS ON HUMAN RIGHTS IN HONOUR OF GUDMUNDUR ALFREDSSON 45 (Asbjørn Eide et al. eds., 2011) (“References to the rule of law can be found in Plato’s Republic, and Aristotle’s Politics which surveys the constitutions of more than 200 city-states in ancient Greece. Although ancient in origin, the rule of law began to operate as an important principle of constitutional law and practices in relation to the modern State only once the sovereign will of the people began to triumph over absolute monarchy in Europe.”).

114. LESLI J. FAVOR, ITALY: A PRIMARY SOURCE CULTURAL GUIDE 24 (2004) (“Beginning in 509 BC, after ousting their kings, the Roman nobility established a new system of rule, the republic. Two elected leaders called consuls ruled the republic and led the military. Later, a Senate was added to the government system to advise the consuls . . . The Roman Republic became the Roman Empire when, in 27 BC, Augustus Caesar (63 BC-AD 14) declared himself dictator.”); MICHAEL KERRIGAN, THE UNTOLD HISTORY OF THE ROMAN EMPERORS 10 (Caitlyn Christensen ed., 2017) (“For the first 480 years of its history, Rome’s citizens had ruled the city on the Tiber. A republic and proud of it, Rome had come into being in 510 BCE, when a group of tribes had banded together to drive out the Etruscan kings.”); BRIAN Z. TAMANAH, ON THE RULE OF LAW: HISTORY, POLITICS, THEORY 11 (2004) (“The Roman contribution to the rule of law tradition was negative as well as positive, with the negative being of much greater consequence. Cicero was the source of the positive. In The Republic, written in the first century BC, he condemned the king who does not abide by the law as a despot who ‘is the foulest and most repellant creature imaginable.’ ‘How can anyone be properly called a man who renounces every legal tie every civilized partnership with his own citizens and indeed with the entire human species.’ A contemporary of Julius Caesar, Cicero wrote during the dying stage of the Roman Republic, as it was giving way to autocratic rule. ‘Everyone of standing had realized that the republic’s rule of law and order had given place to the rule of the stronger.’ Cicero’s The Laws contains the following passage on the rule of law: ‘You appreciate, then, that a magistrate’s function is to take charge and to issue
English constitutional law” and “can be linked to chapters 39 and 40 of the Magna Carta.”

The Magna Carta (1215)—what William Pitt the Elder (1708-1778), the former Prime Minister of Great Britain, called “the Bible of the English Constitution”116 along with the Petition of Right (1628) and the English Bill of Rights (1689)—is a major landmark in the Rule of Law’s history.117 Chapter 39 of the Magna Carta recites:

No free man shall be seized or imprisoned or stripped of his rights or possessions, or outlawed or exiled, or deprived of his standing in any other way, nor will we proceed with force against him, or send others to do so, except by the lawful judgment of his equals or by the law of the land.118

Chapter 40 then states that “[t]o no one will we sell, to no one deny or delay right or justice.”119 The Magna Carta, or Great Charter, agreed to directives which are right, beneficial, and in accordance with the laws. As magistrates are subject to the laws, the people are subject to the magistrates. In fact, it is true to say that a magistrate is a speaking law, and law a silent magistrate.”

115. SULLIVAN & MASSARO, supra note 109, at 7; see also CARROLL, supra note 108, at 65 (“Sir John Baker describes the deep English history of the rule of law and human rights, concluding that ‘it is not so absurd to propose that the rule of law was an accepted constitutional principle in the Tudor and Stuart period, and that many—though certainly not quite all—of the rights now classified as ‘human rights’ would have been recognized without difficulty by English lawyers of that period.’ He notes that by 1628 or earlier taxation could only be imposed with the consent of Parliament. The separation of the three powers of government as a guarantor of liberty, according to Bernard Bailyn, ‘had been a popular doctrine among the extreme radicals during the Civil War’ and later was favored by Locke and Montesquieu.”).

117. LARRY MAX. BYSTANDERS, THE RULE OF LAW, AND CRIMINAL TRIALS, IN GETTING TO THE RULE OF LAW 245 (James E. Fleming ed., 2011) (“[The Magna Carta] was an agreement extracted from King John of England by feudal barons...[and]...was the result of negotiations to establish the rule of law out of a patchwork quilt of feudal rules and abuse at the hands of the king’s sheriffs.”); Beverley McLachlin, VALUES AND THE COURTS: MAINTAINING THE RULE OF LAW IN THE GLOBAL WORLD, 49 INT’L LAWYER 105, 106 (2015) (“It took a long time for modern societies to arrive at the tacit understanding that the rule of law is fundamental to nationhood. Eight hundred years ago, on a muddy field west of London, England, King John reluctantly affixed the Royal Seal to the Magna Carta, which proclaimed the revolutionary idea that even the King was subject to the law. Centuries later, Lord Coke took up the cause and used it to cement the principle of Parliamentary supremacy and the role of the courts as the ultimate arbiters of justice.”).

118. SULLIVAN & MASSARO, supra note 109, at 8; see also AKHIL REED AMAR, THE BILL OF RIGHTS: CREATION AND RECONSTRUCTION 282 (1998) (“[D]ue process of law connoted a suitably generally, evenhanded law. According to Cooley’s landmark treatise, perhaps “[n]o definition [of due process] is more often quoted’ than Daniel Webster’s in his famous Dartmouth College oral argument: ‘due process’ meant ‘law of the land’ by which ‘is most clearly intended the general law. . . . The meaning is, that every citizen shall hold his life, liberty, property, and immunities under the protection of general rules . . . .”

119. SULLIVAN & MASSARO, supra note 109, at 8.
at Runnymede near Windsor, made clear that land-owning barons were not subject to King John’s capricious whims, with Henry of Bracton (1210–c. 1268)—in his famous legal treatise, De Legibus et Consuetudinibus Angliae (On the Laws and Customs of England)—declaring: “Nothing is more fitting for a sovereign than to live by the laws, nor is there any greater sovereignty than to govern according to law, and he ought properly to yield to the law what the law has bestowed upon him, for the law makes him king.”

“The whole constitutional history of England is little more than a commentary on Magna Carta,” Dr. William Stubbs (1825-1901), the Bishop of Oxford and a scholar of medieval English history, once famously remarked.

Fidelity to the Rule of Law, a necessity for the protection of people’s fundamental human rights, stands in sharp contrast to an arbitrary or variable application of the law or the medieval concept of the “divine right of kings,” that now long-antiquated understanding of law that once gave monarchs legitimacy through the notion that they had God’s mandate and were pre-ordained to inherit the crown. In The Divine Right of Kings, Proved from the Principles of the Church of England (1683), John Burrell, the Rector of Euston, preached a sermon

---

120. Letter to the Editor, Bull-Baiting, WATERFORD MIRROR, Dec. 30, 1801, at 2 (“King John, it is well known, wished to rule without law or constitution.”).
122. DAVID ROLLISON, A COMMONWEALTH OF THE PEOPLE: POPULAR POLITICS AND ENGLAND’S LONG SOCIAL REVOLUTION, 1066-1649, at 83 (2010); HELEN LOADER, MRS HUMPHRY WARD AND GREENIAN PHILOSOPHY: RELIGION, SOCIETY AND POLITICS 64 n.27 (2019).
123. DEPT OF JUSTICE, OFFICE OF THE DEPUTY ATTORNEY GEN., INTRODUCTION TO THE DEPARTMENT OF JUSTICE JOURNAL OF FEDERAL LAW AND PRACTICE 1 (2019) (“In the late seventeenth century, political philosopher John Locke advocated for a rule-of-law system in which government was ‘directed to no other end but the peace, safety, and public good of the people’ and citizens were governed by ‘established standing laws, promulgated and known to the people, and not by extemporary decrees.’ The founders enshrined this principle in our constitutional system by creating ‘a government of laws, not of men.’ This commitment to the rule of law formed the foundation that has enabled our society to thrive.”); see also Jacob Reynolds, The Rule of Law and the Origins of the Bill of Attainder Clause, 18 ST. THOMAS L. REV. 177, 179 (2005) (noting that John Locke made this statement concerning the Rule of Law: “Freedom of men under government is to have a standing rule to live by, common to every one of that society, and made by the legislative power erected in it; a liberty to follow my own will in all things, where that rule prescribes not: and not to be subject to the inconstant, uncertain, arbitrary will of another man.”).
in which he declared that “Kings by virtue of their Descent . . . have a Divine Right to Govern us” and that “Rebellion against them” would not only “cut us off from the Church of England, but rescind us from Christianity itself.” That late seventeenth-century sentiment is a far cry from what America’s founders wrote in the Declaration of Independence less than one hundred years later: “The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States.”

IV. THE ROLE OF THE AMERICAN REVOLUTION

The American Revolution, in which a newly forged republic, the United States of America, broke away from George III and British tyranny after Parliament’s adoption of the Stamp Act (1765) and the Intolerable Acts (1774), was itself premised on a nascent version of what we think of today as the Rule of Law. In 1776, the same year that the Continental Congress issued the American Declaration of Independence, it was Thomas Paine, in his revolutionary pamphlet

126. DECLARATION OF INDEPENDENCE para. 2 (U.S. 1776).

127. Mottos and flags are a good indication of the motivations behind both the American and French Revolutions. See JAMES F. HARRIS, PHILOSOPHY AT 33 1/3 RPM: THEMES OF CLASSIC ROCK MUSIC 147 (1993) (“Liberté, Égalité, Fraternité” will forever be the cry of the French Revolution. ‘No taxation without representation’, attributed to James Otis (1763), is now identified with the American democratic struggle against the British monarchy. And ‘Don’t Tread on Me’ was the motto on the first ‘official’ American flag (1775).”).

128. See, e.g., Fred D. Miller, Jr., ARISTOTLE AND AMERICAN CLASSICAL REPUBLICANISM, in JUSTICE V. LAW IN GREEK POLITICAL THOUGHT 184 (Leslie G. Rubin ed., 1997) (observing that John Adams asserted that, “the justification of the American Revolution rested on ‘the principles of Aristotle and Plato, of Livy and Cicero, and Sidney, Harrington, and Locke,’” and that in his Defence of the Constitutions of the Government of the United States of America, “Adams endorsed in principle Aristotle’s understanding of the rule of law: ‘a government where the laws alone should prevail, would be the kingdom of God’; and ‘[o]rder is law, and it is more proper that law should govern, than any one of the citizens: upon the same principle, if it is advantageous to place the supreme power in some particular persons, they should be appointed to be only guardians, and the servants of the laws.’”); JOHN PHILLIP REID, THE CONCEPT OF LIBERTY IN THE AGE OF THE AMERICAN REVOLUTION 60 (1988) (“Arbitrary power, like slavery and licentiousness, was the opposite of liberty. It was also the opposite of law, and in that fact lies the first ingredient in the positive definition of liberty. For just as people thought the ‘rule of law’ the opposite of arbitrary power—‘Law and arbitrary power are at eternal hostility,’ Edmund Burke asserted—so they thought of law as the central pillar of liberty.”).

129. DECLARATION OF INDEPENDENCE (U.S. 1776). The Declaration of Independence, after reciting “that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness,” states:
Common Sense, who so forcefully declared: “[I]n America the law is king. For as in absolute governments the king is law, so in free countries the law ought to be king; and there ought to be no other.” 130

America’s founders carefully studied Greek philosophy, the Roman republic, and England’s constitutional history,131 with the 1783 list of books James Madison recommended “to be imported for the use of the

That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the government,—That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness.

Id. para. 2.

130. THOMAS Paine, COMMON SENSE 36 (Peter Eckler, N.Y. 1918); CHRISTOPHER L. TOMLINS, LAW, LABOR, AND IDEOLOGY IN THE EARLY AMERICAN REPUBLIC 35 (1993); see also THE OXFORD HANDBOOK OF GLOBAL LEGAL PLURALISM 15-16 (Paul Schiff Berman, ed. 2020) (noting that Lord Coke “refused to place the king beyond or above the domain of law” and that, as “part of the Enlightenment movement to limit the power of kings and assert a higher rule of law,” “one can see a direct line from Coke to Thomas Paine, who declared that in the new United States of America, ‘law is king’ “); O. John Rogge, The Rule of Law, 46 ABA J. 981, 981 (1960) (“Insculpted in stone over the portals of the main entrance of the Harvard Law School’s Langdell Hall are words which Edward Coke in his famous Sunday morning conference (1608) with James I of England quoted himself as saying, attributing them to Bracton, NON SUB HOMINE SED SUB DEO ET LEGE [not under man but under God and the law]. And the idea embodied in these words—which we express variously in such phrases as the supremacy of law, the law of the land, due process of law, and the rule of law; and in the statement, we are a government of laws and not of men—does have origins which go back to Bracton’s time, and even farther. Bracton was an English judge and writer who died in 1268.”).

131. See generally CARL J. RICHARD, GREEKS AND ROMANS BEARING GIFTS: HOW THE ANCIENTS INSPIRED THE FOUNDERING FATHERS (2008) (discussing the inspiration that America’s founders drew from ancient times); see also CLAY S. JENKINSON, REPAIRING JEFFERSON’S AMERICA: A GUIDE TO CIVILITY AND ENLIGHTENED CITIZENSHIP 8 (2020) (noting that Thomas Jefferson “knew seven languages, three ancient and four modern”). For example, in The Federalist No. 34, Alexander Hamilton—writing as “Publius”—made this observation “To the People of the State of New-York” in making the case for the ratification of the U.S. Constitution:

It is well known, that in the Roman Republic, the Legislative authority in the last resort, reided for ages in two different political bodies; not as branches of the same Legislature, but as distinct and independent Legislatures, in each of which an opposite interest prevailed; in one, the Patrician—in the other, the Plebeian. Many arguments might have been adduced to prove the unfitness of two such seemingly contradictory authorities, each having power to annul or repeal the acts of the other. But a man would have been regarded as frantic, who should have attempted at Rome, to disprove their existence. It will readily be understood, that I allude to the Comitia Centuriata, and Comitia Tributa. The former, in which the people voted by Centuries, was so arranged as to give a superiority to the Patrician interest: in the latter, in which numbers prevailed, the Plebeian interest had an entire predominancy. And yet, these two Legislatures co-existed for ages, and the Roman Republic attained to the utmost height of human greatness.

United States in Congress Assembled” including titles on topics such as the “Law of Nature and Nations”; “Law” and “Politics”; and English, French, Italian, Greek, Roman, Scottish and Spanish history. When Virginia plantation owner George Mason drafted the Virginia Declaration of Rights (1776), he looked to the English Bill of Rights and the Magna Carta for inspiration, with Mason’s biographer, William Hyland, observing that Mason “mastered the law, classics, and political philosophy” in his uncle John Mercer’s library. In drafting the Constitution and the U.S. Bill of Rights, James Madison, in turn, looked to historical precedents and the Virginia Declaration of Rights and other revolutionary state constitutions that were modeled in part on English constitutional protections. The U.S. Constitution’s Eighth Amendment—to give but one example—is derived from English law and Virginia’s 1776 Declaration of Rights. The phrase “cruel and unusual punishments,” long-time U.S. Supreme Court Justice Joseph Story observed in his time, was “an exact transcript” of a clause in the English Bill of Rights, with George Mason adopting the phrase for use in Virginia’s declaration before the drafters of the U.S. Bill of Rights borrowed the phrase, too.

135. Lewis F. Powell, Jr., Our Bill of Rights, 25 IND. L. REV. 937, 941 (1992) (“The Bill of Rights was written in a way that permitted the evolution I have highlighted. In drafting the Bill, Madison relied principally on Virginia’s Declaration of Rights. The Virginia Declaration, written by George Mason, itself invoked the language of earlier charters, such as the English Bill of Rights of 1689 and the Magna Carta, which was written in 1215. Drawing on these historic documents, Madison drafted broadly-worded, forward-looking guarantees . . . ”). 136. John D. Bessler, A Century in the Making: The Glorious Revolution, the American Revolution, and the Origins of the U.S. Constitution’s Eighth Amendment, 27 WM. & MARY BILL RTS. J. 989, 996-97 (2019).

137. H. Brent McKnight, How Shall We Then Reason? The Historical Setting of Equity, 45 MERCER L. REV. 919, 953 (1994). For a full history of the Eighth Amendment’s origins, see generally JOHN D. BESSLER, CRUEL AND UNUSUAL: THE AMERICAN DEATH PENALTY AND THE FOUNDERS’ EIGHTH AMENDMENT (2012); see also John D. Bessler, From the Founding to the Present: An Overview of Legal Thought and the Eighth Amendment’s
It was American revolutionary John Adams, who—in 1775, using the penname ‘Novanglus’¹³⁸ and echoing the words of the English political theorist James Harrington¹³⁹—wrote of “[a] government of laws, and not of men.”¹⁴⁰ Adams had carefully studied Roman history.¹⁴¹

138. John Adams, *To the Inhabitants of the Colony of Massachusetts-Bay*, Mar. 6, 1775, FOUNDERS ONLINE, Nat’l Archives, https://founders.archives.gov/documents/Adams/06-02-02-0072-0008; see also Jonathan I. Israel, *Democratic Enlightenment: Philosophy, Revolution, and Human Rights*, 1750-1790, 446 (2011) (“Typical of the intellectual make-up of American mainstream Enlightenment was the Novanglus, a series of letters penned in 1774-5, later republished many times, by John Adams (1735-1826), a young Massachusetts lawyer and future president with strong ‘classical republican’ and socially and politically conservative leanings, elected to the First Continental Congress in 1774. In this tract, Adams, while disavowing any intention of seeking American Independence, glories in ‘revolution principles’, meaning those of 1688 which he considers ‘are the principles of Aristotle and Plato, of Livy and Cicero, and Sidney, Harrington and Locke.’ He insists on Americans’ ‘attachment to their constitution’ (even though this was long before there was any written ‘constitution’), arguing in line with both Locke and Cato’s Letters that defence of this ‘constitution’ would justify armed rebellion against the British crown.”); cf. Steve Pincus, 1688: The First Modern Revolution 3 (2009) (“England’s Glorious Revolution of 1688-89 holds a special place in our understanding of the modern world and the revolutions that had a hand in shaping it.”); id. at 3-4 (noting that James II “ran roughshod over English law” and “insisted on his right to defy” Parliament, with the author, Steve Pincus, observing: “Men and women all over the English-speaking world once knew what happened in England’s Revolution of 1688-89. In 1685, the Catholic King James II inherited the crown of England. In 1689, the English people agreed to replace him with the Protestants King William III and Queen Mary II. In the intervening years, James II gradually and myopically alienated the moderate and sensible English people.”); The Rule of Law, STAN. ENCYCLOPEDIA OF PHIL. (June 22, 2016), https://plato.stanford.edu/entries/rule-of-law/ (noting that John Locke, “in the second of his Two Treatises of Government (1689) emphasized the importance of governance through ‘established standing Laws, promulgated and known to the People’” and “contrasted this with rule by ‘extemporary Arbitrary Decrees’”).

140. OXFORD TREASURY OF SAYINGS AND QUOTATIONS 194 (Susan Ratcliffe, ed., 4th ed. 2011); see also THE PUBLIC ADVERTISER, June 15, 1786, at 2 (a letter to the printer of the newspaper began: “True freedom consists in being governed, not by men, but by states, and known laws. Every deviation from the established rule of law leads to inextricable error and uncertainty.”).

141. See, e.g., *James MULDOON, JOHN ADAMS AND THE CONSTITUTIONAL HISTORY OF THE MEDIEVAL BRITISH EMPIRE* 227 (2018) (“Quoting from James Harrington (1611–1677), Adams pointed out that under the Republic the Romans had created colonies for discharged soldiers and surplus urban populations within the boundaries of Italy but not beyond.”); *June
and he voraciously read works of political philosophy.\footnote{Richard Alan Ryerson, John Adams’s Republic: The One, the Few, and the Many 401 (2016) (noting that John Adams became “interested in the republican tradition” and “his attention was drawn to certain earlier political writers: to England’s republican martyr, Algernon Sidney; to its leading commonwealth theorist, James Harrington”; “Nearly all of Adams’s favorite authorities were vitally concerned with the early modern history of western Europe, and several studied with care the ancient Roman Republic and the earliest republics of Greece. By 1774, his own provincial veneration for New England’s colonial past, so prominently displayed in his early Dissertation on the Canon and the Feudal Law (1765), and his revered authors’ memories of medieval and Renaissance England and Italy, and of ancient Rome and Greece, thoroughly dominated his reading and writing.”).} In his Thoughts on Government (1776), published the same year that the Continental Congress issued the Declaration of Independence, he repeated that “government of laws” mantra,\footnote{Richard B. Bernstein, John Adams’s Thoughts on Government, 1776, in Roots of the Republic: American Founding Documents Interpreted 118, 122-23 (Stephen L. Schechter ed., 1990) (“Of all the advice and suggestions produced for writing constitutions in the early years of the Revolution, perhaps the most important and influential was John Adams’s Thoughts on Government. Adams long had been fascinated by the intricacies of constitutional issues and had acquired a reputation for his extensive study of the subject.”); id. at 124 (“Thoughts on Government: Applicable to the Present State of the American Colonies. In a Letter from a Gentleman to his Friend appeared in Philadelphia in late April of 1776 and was published several months later in Boston.”).} one that made a deep impression on him from a young age.\footnote{John Adams, I. To William Hooper, 27 March 1776, FOUNDERS ONLINE, Nat’l Archives, https://founders.archives.gov/documents/Adams/06-04-02-0026-0002 (last visited Mar. 10, 2021) (“In my early Youth, the Works of Sidney, Harrington, Lock, Milton, Nedham, Neville, Burnet, Hoadley, were put into my Hands; and the miserable Situation of our Country, for fifteen Years past, has frequently reminded me of their Principles and Reasonings. They have convinced me that there is no good Government but what is Republican. This British Constitution itself is Republican, for I know of no better Definition of a Republic than this, that it is an Empire of Laws and not of Men: and therefore, as I look upon Republics to be the best of Governments So I think, that particular Form of Government, or in other Words, that particular Arrangement, and Combination of the Powers of Society, which is best calculated to Secure an exact and impartial Execution of the Laws, is the best Republic.”); John Adams, II. To John Penn, 27 March 1776, FOUNDERS ONLINE, Nat’l Archives, https://founders.archives.gov/documents/Adams/06-04-02-0026-0003 (last visited Mar. 10, 2021) (“A Man must be indifferent to Snee and Ridicule, in Some Companies to mention the Names of Sidney, Harrington, Lock, Milton, Nedham, Neville, Burnet, Hoadley . . . . These great Writers however, will convince any Man who has the Fortitude to read them, that all good Government is Republican: that the only valuable Part of the British Constitution is so; for the true Idea of a Republic, is ‘An Empire of Laws and not of Men’: and therefore as a Republic is the best of Governments so, that particular Combination of Power, which is best contrived for a faithfull Execution of the Laws, is the best of Republics.”).} In that political pamphlet, an anonymous reply to Thomas Paine’s Common Sense, John Adams specifically identified some of the English philosophers—among them, James Harrington, John Locke and Algernon Sidney—who had inspired
his thinking. 145 James Harrington’s The Commonwealth of Oceana (1656) had captivated Adams, and Adams expressed the view that “good government is an empire of laws.” 146

Like Adams, George Washington—the first President of the United States—embraced the notion of a government of laws. In September 1789, not long after the U.S. Constitution’s ratification, 147 Washington

145. PHYLLIS LEE LEVIN, ABIGAIL ADAMS: A BIOGRAPHY 78 (2001) (noting that John Adams “was stirred to write an anonymous reply, called Thoughts on Government, to what he thought were Paine’s naïve notions about prospective new governments in America” and that Thoughts on Government, “(published in Philadelphia by John Dunlap on April 22, 1776), synthesized John’s lengthy studies of British law, of the principles of Aristotle and Plato, of Livy and Cicero, of Sidney, Harrington, and Locke”; Bernstein, supra note 143, at 129, 130-31 (“A man must be indifferent to the sneers of modern Englishmen to mention in their company, the names of Sidney, Harrington, Locke, Milton, Nedarham, Neville, Burnet, and Hoadley.—No small fortitude is necessary to confess that one has read them. The wretched condition of this country, however, for ten or fifteen years past, has frequently reminded me of their principles and reasonings. They will convince any candid mind, that there is no good government but what is Republican. That the only valuable part of the British constitution is so; because the very definition of a Republic, is ‘an Empire of Laws, and not men.’ That, as a Republic is the best of governments, so that particular arrangement of the powers of society, or in other words that form of government, which is best contrived to secure an impartial and exact execution of the laws, is the best of Republicans.”); see also id. at 130 n.3 (an editorial note of historian Richard B. Bernstein to John Adams’s Thoughts on Government observes: “The historical figures cited here by Adams are all heroes of the seventeenth-century English struggles against the tyranny, real or feared, of the Stuart kings. They include the martyr Algernon Sidney (1622-1683), executed by the government of Charles II for the manuscript of his posthumously published Discourses concerning Government; [James] Harrington (1611-1677), whose utopian work Oceana was a landmark in the history of English republican thought; John Locke (1634-1704), the renowned author of the Essay Concerning Human Understanding and the Two Treatises of Government; Marchamont Nedham (1620-1678), whose The Excellency of a Free State and other works on republican government John Adams reviewed and commented on in his three-volume A Defence of the Constitutions of the United States (1787-1788); Henry Neville (1620-1694), a contemporary and intellectual ally of Harrington, and the author of Plato Redivivus; the prominent Whig historian and bishop of Salisbury Gilbert Burnet (1643-1715), who preached the coronation sermon at the coronation of William and Mary in 1689; and Benjamin Hoadly (1675-1761), bishop of Bangor, Hereford, Salisbury, and Winchester, and another noted Whig controversialist. The best study of these figures and their intellectual and political context is Caroline Robbins, The Eighteenth-Century Commonwealthman: Studies in the Transmission, Development and Circumstance of English Liberal Thought from the Restoration of Charles II until the War with the Thirteen Colonies (Cambridge, Mass., 1959; paperback, with new preface, New York, 1968).”).

147. The ratification of the U.S. Constitution, which created three branches of government, was marred by the abject failure of the Framers to abolish slavery and to afford every person the right to vote and to participate equally in America’s newly forged republic. See, e.g., DAVID WALDSTREICHER, SLAVERY’S CONSTITUTION: FROM REVOLUTION TO RATIFICATION 3 (2009) (“The Constitution never mentions slavery. The word does not appear. And yet slavery is all over the document. Of its eighty-four clauses, six are directly concerned with slaves and their owners. Five others had implications for slavery that were
wrote a telling letter to Pennsylvania’s legislature.148 “It should be the highest ambition of every American,” he wrote, “to extend his views beyond himself, and to bear in mind that his conduct will not only affect himself, his country, and his immediate posterity; but that its influence may be co-extensive with the world, and stamp political happiness or misery on ages yet unborn.” To obtain that end, “to establish the government of laws,” he observed, “the union of these States is absolutely necessary.” As Washington’s letter emphasized:

In every proceeding, this great, this important object should ever be kept in view; and so long as our measures tend to this; and are marked with the wisdom of a well informed and enlightened people, we may reasonably hope, under the smiles of Heaven, to convince the world that the happiness of nations can be accomplished by pacific revolutions in their political systems, without the destructive intervention of the sword.149

Also referring to the government of laws concept in another letter written shortly thereafter to Catharine Sawbridge Macaulay Graham, a prominent English historian known for her eight-volume *The History of England from the Accession of James I to the Revolution*,150 George

considered and debated by the delegates to the 1787 Constitutional Convention and the citizens of the states during ratification.”); FERGUS M. BORDEWICH, THE FIRST CONGRESS: HOW JAMES MADISON, GEORGE WASHINGTON, AND A GROUP OF EXTRAORDINARY MEN INVENTED THE GOVERNMENT 6 (2016) (“To secure ratification of the Constitution in the South, Yankee delegates agreed that each slave would count as three-fifths of a person for the purpose of apportioning the size of a state’s delegation in the House of Representatives.”).

149. Washington’s letter also read:

The virtue, moderation, and patriotism which marked the steps of the American People in framing, adopting, and thus far carrying into effect our present system of Government, has excited the admiration of Nations; and it only now remains for us to act up to those principles, which should characterize a free and enlightened People, that we may gain respect abroad and ensure happiness and safety to ourselves and to our posterity.

Id.

150. See Margaret Kritzberg & Emily Yankowitz, *Catharine Sawbridge Macaulay Graham 1731-1791*, GEORGE WASHINGTON’S MT. VERNON, https://www.mountvernon.org/library/digitalhistory/digital-encyclopedia/article/catharine-sawbridge-macaulay-graham-1731-1791/ (last visited Mar. 10, 2021) (“Catharine Sawbridge Macaulay Graham was a prominent English historian and writer at the forefront of radical transatlantic politics in the eighteenth century. She is widely acknowledged as England’s first major female historian and pamphleteer. Graham rose to international prominence for her scholarship and support of the American and French Revolutions. Her commitment to republican ideals endeared her to men such as George Washington and John Adams, while bringing her into conflict with conservative politicians like Edmund Burke.”). In a letter written from New York on January 9, 1790, George Washington had this to say on the subject to Catharine Sawbridge Macaulay Graham:
Washington—on the Fourth of July in 1793, having just taken the presidential oath of office for a second time a few months earlier—likewise wrote to the residents of Alexandria, Virginia:

To complete the American character, it remains for the citizens of the United States to shew to the world, that the reproach heretofore cast on republican Governments for their want of stability, is without foundation, when that government is the deliberate choice of an enlightened people. And I am fully persuaded, that every well-wisher to the happiness and prosperity of this country will evince by his conduct that we live under a government of laws . . . .

Washington—like other founders—thus had an abiding commitment to the Rule of Law as he understood it, though he, too, failed to live up to its promise as he, among other things, kept people enslaved at his Mount Vernon plantation throughout his life. In his will, George Washington (1732-1799)—the military leader turned President and statesman—only agreed to emancipate those he held in human bondage upon the death of his wife, Martha Washington (1731-1802).

---

The establishment of our new Government seemed to be the last great experiment, for promoting human happiness, by reasonable compact, in civil Society. It was to be, in the first instance, in a considerable degree, a government of accommodation as well as a government of Laws. Much was to be done by prudence, much by conciliation, much by firmness.

154. Id. (noting that George Washington “wrote his will several months before his death in December 1799” and, in it, “left directions for the eventual emancipation of his slaves after the passing of Martha Washington”); see also FRITZ HIRSCHFELD, GEORGE WASHINGTON AND SLAVERY: A DOCUMENTARY PORTRAYAL 3 (1997) (“Washington could have done much more during his lifetime to bring about the emancipation of slaves, had he wanted to. If, for instance, he had harnessed the momentum of his immense popularity and great authority at the peak of his career to support actively the aggressive and well-organized late-eighteenth-century abolitionist movement, he might well have been instrumental in helping the abolitionists to prevail in the South. If so, the country might well have been spared the bitter agony of four years of civil war in 1861–1865.”).
The government-of-laws idea was repeated by other early Americans, including Thomas Jefferson, John Quincy Adams, Alexander Hamilton, and the members of the U.S. Supreme Court in Marbury v. Madison. John Adams, the idea’s most famous proponent

155. James D. Heiple, Introduction, 28 Loy. U. Chi. L.J. 661, 662 (1997) (“Among this country’s founders were many who had experienced firsthand the oppression of arbitrary rulers. These earliest Americans desired to create a regime which would be at once strong enough to govern effectively and yet restrained in its powers. Simply put, they sought to implement the rule of law—and to do so more fully and completely than ever before in human history.”); James R. Maxeiner, Building a Government of Laws: Adams and Jefferson 1776-1779, at 267, 273 (Univ. of Balt. Law, Legal Studies Research Paper No. 2013-12, 2014) (“In the eighteenth century, founders of the American republic, such as John Adams and Thomas Jefferson, sought a ‘government of laws and not of men.’ Their nineteenth century successors, Justice Joseph Story, President Abraham Lincoln and codifier David Dudley Field, looked to written law to govern.”).

158. See Alexander Hamilton, Remarks on the Repeal of the Judiciary Act, First Version [11 February 1802], NAT’L ARCHIVES, FOUNDERS ONLINE, https://founders.archives.gov/documents/Hamilton/01-25-02-0292-0001 (last visited Mar. 10, 2021) (“Gen. Hamilton again rose . . . . He declared in the most emphatic manner, that if the bill for the repeal passed, and the independence of the Judiciary was destroyed, the constitution was but a shadow, and we should, e’er long, be divided into separate confederacies, turning our arms against each. He solemnly called heaven to witness his devout desire that the system of government adopted among us might prosper; but his hope in their prosperity was much weakened, when he perceived them becoming the spoil of popular intrigue, and one after another ‘crumbling beneath him.’ Between a government of laws, administered by an independent Judiciary, or a despotism supported by an army, there was no medium. If we relinquish one, we must submit to the other.”).

159. Marbury v. Madison, 5 U.S. 137, 163 (1803) (“The government of the United States has been emphatically termed a government of laws, and not of men. It will certainly cease to deserve this high appellation, if the laws furnish no remedy for the violation of a vested legal right.”); see also United States v. Dickson, 40 U.S. 141, 162 (1841) (Story, J.) (“[I]t is not to be forgotten, that ours is a government of laws, and not of men; and that the judicial department has imposed upon it by the constitution, the solemn duty to interpret the laws, in the last resort; and however disagreeable that duty may be, in cases where its own judgment shall differ from that of other high functionaries, it is not at liberty to surrender, or to waive it.”); United States v. United Mine Workers of Am., 330 U.S. 258, 307-08 (1947) (Frankfurter, J., concurring) (“The historic phrase ‘a government of laws and not of men’ epitomized the distinguishing character of our political society. When John Adams put that phrase into the Massachusetts Declaration of Rights, pt. 1, art. 30, he was not indulging in a rhetorical flourish. He was expressing the aim of those who, with him, framed the Declaration of Independence and founded the Republic. ‘A government of laws and not of men’ was the rejection in positive terms of rule by fiat, whether by the fiat of governmental or private power. Every act of government may be challenged by an appeal to law, as finally pronounced by this Court. Even this Court has the last say only for a time. Being composed of fallible men,
in America, himself incorporated the concept into the Massachusetts Constitution of 1780, the written instrument that is one of the world’s oldest, continuously existing constitutions. And he, like so

it may err. But revision of its errors must be by orderly process of law. The Court may be asked to reconsider its decisions, and this has been done successfully again and again throughout our history. Or, what this Court has deemed its duty to decide may be changed by legislation, as it often has been, and, on occasion, by constitutional amendment.

160. See MASS CONST. of 1780, art. XXX, https://press-pubs.uchicago.edu/founders/documents/bill_of_rights6.html (“In the government of this Commonwealth, the legislative department shall never exercise the executive and judicial powers, or either of them: The executive shall never exercise the legislative and judicial powers, or either of them: The judicial shall never exercise the legislative and executive powers, or either of them: to the end it may be a government of laws and not of men.”); Jonathan Israel, The Radical Enlightenment’s Critique of the American Revolution, in RESISTANCE TO TYRANTS, OBEDIENCE TO GOD: REASON, RELIGION, AND REPUBLICANISM AT THE AMERICAN FOUNDING 43 (Dustin Gish & Daniel Klinghard, eds. 2013) (“Adams, a follower of Montesquieu in several respects, especially sought a firm separation of powers, rendering the legislature quite separate from his strong executive and both separate from the ‘judicial power.’”); JOHN ADAMS, THE REPORT OF A CONSTITUTION OR FORM OF GOVERNMENT FOR THE COMMONWEALTH OF MASSACHUSETTS, 28-31 OCTOBER, 1779, https://founders.archives.gov/documents/Adams/06-08-02-0161-0002 (last visited Mar. 10, 2021) (“In the government of the Commonwealth of Massachusetts, the legislative, executive, and judicial power, shall be placed in separate departments, to the end that it might be a government of laws and not of men.”).

161. Bernstein, supra note 143, at 118, 122 (“The Americans’ emphasis on written constitutions was rooted in American colonial history and the circumstances of the Revolution. The term constitution in English usage denoted the whole complex of laws, common-law rules, customs, usages, and traditions that shape the political relations, rights, and responsibilities of the polity and its members. As part of the founding of colonies in North America, the Crown granted—or the colonists wrote—colonial charters setting forth the guidelines under which political power would be exercised; these new societies were at the same time extensions of England and distinct political communities with their own concerns and unique local conditions. Disputes between the colonists and representatives of the Crown over the extent of Crown authority and colonial self-government often focused on these written instruments of government; this mode of constitutional and political argument was still fresh in American memories at the outbreak of the constitutional crisis of the 1760s and 1770s. With the drift toward independence, the Americans again recognized the need to specify the basis for their new, independent political organizations in written instruments of government. This perceived necessity accorded with their sense that principles of government were immutable laws of nature, and thus had to be fixed in writing in a form distinct from and superior to mere statutes; by contrast, the unwritten English constitution, subject to the shifts and convulsions of ordinary politics, was not a sufficient bulwark against oppression.”).

162. JOHN WITTE, JR. & JOEL A. NICHOLS, RELIGION AND THE AMERICAN CONSTITUTIONAL EXPERIMENT 39 (4th ed. 2016) (noting that the 1780 Massachusetts Constitution, “amply amended, is the oldest continuously operating constitution in the world”); George C. Homans, John Adams and the Constitution of Massachusetts, 125 PROC. OF THE AM. PHIL. SOC’Y 286 (1981) (“On October 25, 1780, two hundred years ago, went into effect what is now the oldest written constitution in the world that has remained in continuous operation, the Constitution of the Commonwealth of Massachusetts. It was largely the work of John Adams, later second president of the United States.”); cf. 1 GLOB. INV. & BUS. CTR., SAN MARINO: BUSINESS LAW HANDBOOK 8 (2012) (“The constitution of San Marino, enacted in 1600, is the world’s oldest constitution still in effect.”); DUNCAN WATTS, BRITISH GOVERNMENT AND POLITICS: A COMPARATIVE GUIDE 26 (2d ed. 2012) (noting
many others, would continue to speak of a “government of laws” in the years and decades to come. The concept would show up in everything from newspaper articles to grand jury instructions delivered by U.S. Supreme Court Chief Justice John Jay, the second

“constitution of San Marino” was “enacted in 1600, but its contents are distributed over a number of legislative instruments.”).

163. Philadelphia, PA. Packet, Jan. 12, 1782, at 2 (expressing the concern that “the government of Pennsylvania” would be reduced “from being a government of laws, to a government of men”); Mr. Printer, FREEMAN’S J.: OR, NORTH-AM. INTELLIGENCER, Feb. 26, 1783, at 2 (“Remember our’s is a government of laws not of men”); For the Pennsylvania Packet, Apr. 6, 1786, at 2 (“It is a distinguishing mark of a free government, that the people shall know before had the penalty of every offence, and therefore such a system is called a government of laws and not of men . . . .”); Philadelphia, September 23, PA. GAZETTE, Sept. 23, 1789, at 3 (“With hearts expanded beyond the limits of our own country, we most ardently hope that the influence of this novel, but bright, example may be extended, till freedom, under governments of laws, not of men, shall bless the oppressed of every climate and country.”); William Paterson, Answer, Gen. ADVERTISER & POL., COM., AGRIC. & LITERARY J., Nov. 12, 1790, at 3 (“We live under a government of laws and not of men; it has freedom for its basis, and the happiness of the people for its object.”).

164. John Adams, TO THE GRAND JURY OF MORRIS COUNTY, IN NEW JERSEY 3 APRIL 1799, in 9 THE WORKS OF JOHN ADAMS, SECOND PRESIDENT OF THE UNITED STATES 231 (Charles Francis Adams, ed. 1854) (“That the laws must be obeyed in a government of laws, is an all important lesson. For what can be more destructive of liberty and property than government without law, whether in one, few, or many?”); New-York, April 22, 1789, PHILA. INQUIRER, Apr. 22, 1789, at 3 (noting that John Adams, the Vice President of the United States, “addressed the Senate to the following purport”: “It is with satisfaction, that I congratulate the people of America on the formation of a National Constitution, and the fair prospect of a consistent administration of a government of laws.”); see also JOHN RAWLS, A THEORY OF JUSTICE 207, 207-10 (rev. ed. 1999) (“the rule of law is obviously closely related to liberty,” “one legal order is more justly administered than another if it more perfectly fulfills the precepts of the rule of law,” “the rule of law requires some form of due process,” and “[t]he rule of law also implies the precept that similar cases be treated similarly”)

165. E.g., PHILA. INQUIRER, Dec. 31, 1791, at 3 (“There is no liberty without government—and surely there is no government where men govern the laws . . . . With so much good sense as our countrymen are known to possess; and after so much as they have done and suffered to establish an equal government, by laws and not by men, it is impossible to conceive that any men, unless in a fit of mad passion, can be found so wicked and foolish as to fly in the fact of authority, and to oppose those very laws which they, by their representatives, have had part in framing.”).

166. Eastern Circuit Court – The Charge of Chief Justice Jay, to the Grand Juries on the Eastern Circuit, PA. PACKET, June 15, 1790, at 3 (“It cannot be too strongly impressed on the minds of us all, how greatly our individual prosperity depends on our national prosperity; and how greatly our national prosperity depends on a well organized, vigorous government, ruling by wise and equal laws, faithfully executed, nor is such a government unfriendly to liberty—to that liberty which is really inestimable. On the contrary, nothing but a strong government of laws, irrefutably bearing down arbitrary power and licentiousness, can defend it against those two formidable enemies. Let it be remembered, that civil liberty consists, not in a right to every man to do just what he pleases—but it consists in equal right to all the citizens to have, enjoy, and to do in peace, security, and without molestation, whatever the equal and constitutional laws of the country admit, to be consistent with the public good. It is the duty and the interest, therefore of all good citizens, in their several stations to support the laws and government, which thus protect their rights and liberties.”).
governor of New York, a former U.S. Secretary of Foreign Affairs, and the author of some of The Federalist Papers.\footnote{See generally THE FEDERALIST (Alexander Hamilton, James Madison & John Jay) \((\text{the Federalist Papers, serialized in New York newspapers between October 1787 and August 1788, and published in book form as The Federalist, were prepared by Alexander Hamilton, James Madison and John Jay and appeared under the pseudonym “Publius”})\).}

The Massachusetts Constitution of 1780 contains a detailed declaration of rights and lays out the framework for the separation of powers between the legislative, executive and judicial branches. Among other things, its declaration of rights recites that “[a]ll men are born free and equal, have certain natural, essential, and unalienable rights”; “[t]he people of this commonwealth have the sole and exclusive right of governing themselves as a free, sovereign, and independent State”; “Government is instituted for the common good, for the protection, safety, prosperity, and happiness of the people, and not for the profit, honor, or private interest of any one man, family, or class men”; “[a]ll elections ought to be free”; “[e]very individual . . . has a right to be protected . . . in the enjoyment of his life, liberty, and property, according to standing laws”; “[e]very subject of the commonwealth ought to find a certain remedy, by having recourse to the laws, for all injuries or wrongs which he may receive in his person, property, or character”; “[h]e ought to obtain right and justice freely, and without being obliged to purchase it; completely, and without any denial; promptly, and without delay, conformably to the laws”; and “[l]aws made to punish for actions done before the existence of such laws, and which have not been declared crimes by preceding laws, are unjust, oppressive, and inconsistent with the fundamental principles of a free government.”\footnote{MASS. CONST., pt. 1, arts. I, IV, VII, IX, X, XI, XXIV (1780).}

Article XXIX of the Massachusetts Constitution of 1780 further declared:

> It is essential to the preservation of the rights of every individual, his life, liberty, property, and character, that there be an impartial interpretation of the laws, and administration of justice. It is the right of every citizen to be tried by judges as free, impartial, and independent as the lot of humanity will admit.\footnote{\textit{Id.}, pt. 1, art. XXIX.}

V. FROM THE ENLIGHTENMENT TO MODERN CONCEPTIONS OF THE RULE OF LAW

The Enlightenment—and prominent writers of that era, from Montesquieu and Rousseau to Beccaria and Voltaire to Olympe de Gouges and Mary Wollstonecraft—ushered in a new way of thinking
about the Rule of Law and human rights.\footnote{See, e.g., M. A. Thomas, Govern Like Us: U.S. Expectations of Poor Countries 25-26 (2015) ("The Enlightenment was an intellectual revolution in Western Europe during the seventeenth and eighteenth centuries, as the modern nation-state was forming . . . . A literate urban elite challenged the absolutism of the monarchy and the authority of the church, revived the diffused ancient Greek and Roman political ideas, embraced science and rationality, questioned the foundations of the political and social order, and argued for equality, including women’s rights, the abolition of slavery, and freedom of speech and thought. The idea that kings were divinely ordained, answerable only to God, was gradually overturned in favor of republican ideals in which the people are sovereign and delegate power to the government to be used for their own benefit."); see also id. at 34 ("What were daring arguments during the Enlightenment are for us today nonnegotiable articles of faith. The conflict that followed the Enlightenment left us with absolute moral convictions about human rights, the proper nature of government, and the proper use of governmental power. If we feel passionately about these notions of governance perhaps it is because a price was paid in blood to replace the older strategies of government, which were rejected and condemned. We represent the winning side. We are the inheritors of the victors of the political struggles of the Enlightenment."); Dorinda Outram, Panorama of the Enlightenment 24 (2006) (noting the difficulty of pinning down “a beginning date” for the Enlightenment, pointing out that the “image of the sun was the favourite metaphor of the Enlightenment,” and observing: “ ‘Enlightenment’ was a word of power in the eighteenth century, but two people placed in the same room would have produced three opinions about what it actually meant. There was never a stable, universally accepted definition of ‘Enlightenment’ during the Enlightenment. Even the word itself varied from one region to another. A man in Paris would have spoken of les lumières, in Berlin of Aufklärung, in Milan of illuminismo.”).} The seventeenth-century’s Glorious Revolution of 1688-89,\footnote{See generally Pincus, supra note 138; see also Richard S. Kay, The Glorious Revolution and the Continen\-tuality of Law 131 (2014) (noting that William and Mary, who replaced James II, took an oath to rule “according to the statutes in parliament agreed on and the laws and customs of the same”).} in which King James II was forced to abdicate the throne, led to the English Bill of Rights (1689),\footnote{Bessler, A Century in the Making, supra note 136, at 996-97.} which, in turn, served as a model for the Virginia Declaration of Rights (1776),\footnote{The Bill of Rights and the States: The Colonial and Revolutionary Origins of American Liberties 13 (Patrick T. Conley & John P. Kaminski eds., 1992) (discussing how the Virginia Declaration of Rights, drafted by George Mason, was influenced by English principles laid down in the Magna Charta, the Petition of Right, the Commonwealth Parliament and the English Bill of Rights that followed the Glorious Revolution of 1688).} other early American declarations of rights and state
constitutions, and the U.S. Bill of Rights (1791). The revolutionary state constitutions guaranteed a host of individual rights, including in the arenas of public affairs and the criminal law, with the U.S. Constitution’s Bill of Rights doing the same after its ratification. “The American Revolution was creative and significant,” Pulitzer Prize-winning historian Gordon Wood has written, “because of the revolutionary state constitutions that preceded the Constitution by more than a decade.”

“Not only did the formation of the new state constitutions in 1776,” he observed in 1993, “establish the basic structures of our political institution, their creation also brought forth the primacy conceptions of America’s political and constitutional culture that have persisted to the present.”

174. 8 Papers of John Adams, http://www.masshist.org/publications/adams-papers/index.php/view/ADMS-06-08-02-0161-0001 (last visited Feb. 19, 2021) (editorial note) (“Of the eleven states that adopted constitutions during the Revolutionary period, Massachusetts, ratifying its document in 1780, was the last.”); “Formal bills of rights had been written for the constitutions of five of the original states in 1776—Virginia, Pennsylvania, Delaware, Maryland, and North Carolina—and for Vermont in 1777, and several states without such formal bills included similar rights in their descriptions of governmental agents and their powers.”); JOHN V. ORTH, THE NORTH CAROLINA STATE CONSTITUTION xvii (2013) (“State constitutions generally and North Carolina’s constitution in particular are rich sources of fundamental principles of democratic government and guarantees of individual liberties. The North Carolina Constitution begins with a Declaration of Rights, which comprises thirty-six sections of Article I. Some of these provisions have origins in the Magna Carta; others, in the 1689 English Bill of Rights.”).

175. THE BILL OF RIGHTS AND THE STATES, supra note 173, at 13-15; see also BESSLER, CRUEL AND UNUSUAL, supra note 137, at 11-16 (discussing the history of the “cruel and unusual punishments” prohibition, and its inclusion in the English Bill of Rights and American constitutions).

177. 1 ENCYCLOPEDIA OF JOURNALISM 1475 (Christopher H. Sterling ed., 2009) (“The Bill of Rights, the first ten amendments to the Constitution of the United States, established a collection of basic human prerogatives on a federal level that mirrored many of the rights already guaranteed by individual states.”); see also AMAR, supra note 118, at 8 (“The First Congress proposed a Bill of Rights that contained twelve amendments, but only the last ten were ratified by the requisite three-fourths of state legislatures in 1791, thereby becoming ‘valid to all Intents and Purposes, as Part of [the] Constitution.’

179. Id. (“The office of our governors, the bicameral legislatures, tripartite separation of powers, bills of rights, and the unique use of constitutional conventions were all born during the state constitution-making period between 1775 and the early 1780s, well before the federal constitution of 1787 was created. In fact, the structure and form of the new federal government of 1787 was the direct product of what had taken place in the making of the state governments during the previous decade. In the first crucial years of independence, the states, not the federal government, were the focus of interest for most Americans.”).
Because they lived more than 200 years ago, Enlightenment-era figures were not necessarily enlightened by modern standards, with a number of America’s own founders actually buying and selling and enslaving human beings throughout their lives, a total affront to the modern-day conception of the Rule of Law. But Enlightenment thinkers did wrestle, in their own time and in their own ways, with critically important subjects such as how to frame and organize a government to prevent abuses of power—and how to protect individual rights (at least in ways that they, then, thought of human rights and the social compact). The Enlightenment—also known as the Age of Reason—has been variously defined as the eighteenth-century

180. MARIE JENKINS SCHWARTZ, TIES THAT BOUND: FOUNDING FIRST LADIES AND SLAVES 61 (2017) (noting that George Washington “took deliberate steps to increase his slaveholding” when he “purchased thirteen slaves in 1759” and “bought ten more” two years later, with Washington continuing “to purchase slaves with some regularity until 1772”); id. at 63 (noting that George Washington tried to “deter runaways” and sold enslaved persons, including for transport to Maryland and the West Indies, who “proved recalcitrant” or attempted to escape human bondage); see also HENRY WIENCEK, MASTER OF THE MOUNTAIN: THOMAS JEFFERSON AND HIS SLAVES (2012) (discussing Thomas Jefferson’s views on slavery); see also Stephen E. Ambrose, Founding Fathers and Slaveholders, SMITHSONIAN MAG. (Nov. 2002), https://www.smithsonianmag.com/history/founding-fathers-and-slaveholders-72262393/ (discussing the views of George Washington and Thomas Jefferson on slavery).

181. See, e.g., HIRSCHFELD, supra note 154, at 1 (“Until he left Mount Vernon in the spring of 1775, at the age of forty-three, to take command of the Continental army at Cambridge, Massachusetts, Washington had shown few visible qualms about the institution of slavery. Not only did he and his wife own numerous slaves, but he bought and sold them and conformed in most respects with the slaveholding practices of his period and region.”); PAUL FINKELMAN, SLAVERY AND THE FOUNDERS: RACE AND LIBERTY IN THE AGE OF JEFFERSON ix, 210 (3d ed. 2014) (noting that Thomas Jefferson, of Virginia, “owned more than 150 slaves” when he wrote the Declaration of Independence and observing that “it is clear that Jefferson was not seriously interested in either allowing for private manumission or ending slavery” and “was far more concerned with ridding the state of free blacks and creating a criminal code to keep slaves in line”); DAVID O. STEWART, MADISON’S GIFT 311 (2015) (“When a slave owned by his father ran off, Madison bought an advertisement in a Richmond newspaper offering a reward for his return. When a mentor, Edmund Pendleton, asked for help in retrieving a runaway, Madison investigated Pennsylvania law on runaways, then asked a French diplomat to help recover the man from French troops. In instructions for his overseer and ‘labourers’ (one of many euphemisms employed by slaveowners), Madison directed that the slaves be treated humanely, ‘consistent with their necessary subordination and work.’ ”).
philosophy, emphasizing reason and individualism over tradition, as the search for ‘freedom’ and ‘progress’ achieved by a critical use of reason to change man’s relationship with himself and society, and as a period during which superstition and ignorance receded in the face of an evolving body of scientific knowledge that gave order and harmony to a universe that could now be explained in the light of reason and rules.

America’s “Framers and Founders,” it has been noted, “were the products of that period, and for many of them science and scientific ways of thinking were defining characteristics.”

The figures of the Enlightenment were oftentimes deeply flawed, even resorting to extreme violence and brutality against enslaved persons. Their ideas on topics such as the division of powers and the importance of an independent judiciary, though, continue to shape the

182. ANTHONY PAGDEN, THE ENLIGHTENMENT AND WHY IT STILL MATTERS 9 (2013) (“The modern use of the term ‘the Enlightenment’... suggests a discrete moment in time—the ‘long’ eighteenth century, as it is sometimes called—marked off by the quite distinct intellectual concerns we associate with the nineteenth century, and above all with Romanticism.”); cf. id. at 5-6 (“The struggle over the identity of the Enlightenment was also a part of the Enlightenment itself. In December 1783 the Berlinische Monatsschrift, a widely read and generally progressive journal, published an article by a theologian and educational reformer named Johann Friedrich Zöllner... It might have passed unnoticed, and probably unread, if it had not been for a single footnote. ‘What is enlightenment?’ Zöllner asked. ‘This question, which is almost as important as what is truth, should indeed be answered before one begins enlightening. And still I have never found it answered!’ It was perhaps the most significant footnote in the entire history of western thought—and certainly the most widely discussed.”).

187. Id. at 41-42. The American Philosophical Society, founded in 1743 by Benjamin Franklin, was dedicated to the pursuit of “useful knowledge.”

188. In Virginia, for example, “[s]tocks, pillories, whipping posts, and gallows were constructed of wood with a few pieces of ironwork to secure braces, crossbars, and locks and to constrain individuals.” CARL R. LOUNSBURY, THE COURTHOUSES OF EARLY VIRGINIA: AN ARCHITECTURAL HISTORY 225 (2005), see also id. at 221 (“Accused slaves enjoyed few rights and rarely had a sympathetic ear from the presiding justices, who were not their peers but often masters, owners of other slaves who had an inherent interest in preserving their subservience.”); id. (“[W]hen slaves were convicted of murdering their masters, mere hanging was not enough. Peter, a slave in Orange County, pleaded guilty in 1737 to murdering his master, John Riddle. The justices ordered that he be hanged at the next court day between the hours of ten and noon; his head was then to be cut off and stuck ‘on a pole near the courthouse to deter others from doing the like.’ The brutality of the punishment reflected slave owners’ fear of losing control over their servile labor force, which in some counties amounted to more than half the population by the late colonial period.”).
modern world.\textsuperscript{189} James Madison, the Virginia slave owner who played a major role in the drafting of the U.S. Constitution and its Bill of Rights,\textsuperscript{190} called Montesquieu—the French jurist who protested against torture\textsuperscript{191} but who nonetheless approved torturous punishments as part of his work within France’s civil law system\textsuperscript{192}—“[t]he oracle who is always consulted and cited” on separation of powers.\textsuperscript{193} Jean-Jacques Rousseau, the Genevan philosopher, gained much celebrity for writing about the social contract,\textsuperscript{194} although his conception of equality did not include equal rights for women.\textsuperscript{195} Beccaria—an aristocrat from Milan

\textsuperscript{189} Scott L. Montgomery & Daniel Chirot, The Shape of the New: Four Big Ideas and How They Made the Modern World 6 (2015) (“The Enlightenment was a critical period for the birth of modernity, an era of deep separation from all that had gone before, a period of enormous creativity and destruction, most of all in the realm of thought.”).

\textsuperscript{190} Mary Sarah Bilder, Madison’s Hand: Revising the Constitutional Convention 10 (2015) (noting that James Madison has been called the “Father of the Constitution” and describing his role in the U.S. Bill of Rights).

\textsuperscript{191} Charles de Secondat Baron de Montesquieu, Montesquieu’s Science of Politics: Essay on The Spirit of Laws 309 (David W. Carrithers, Michael A. Mosher & Paul A. Rahe eds., 2001) (“Montesquieu’s protest against the use of legal torture in criminal trials is contained in Book VI, chapter 17 of The Spirit of Laws. His comments are quite brief. Rather than engaging in an extended argument against the use of legal torture, he simply suggests that so many others have spoken eloquently on the subject that extended commentary is not required. There can be no mistaking his strong opinion however, ‘The voice of nature,’ he asserts, ‘cries out against the use of legal torture even in despotic governments.’”).

\textsuperscript{192} The Enlightenment: A Sourcebook and Reader 212 (Paul Hyland, Olga Gomez & Francesca Greensides eds., 2003) (noting that, even though as a judge, Montesquieu “must have authorised the torture and execution of many people, he evidently believed that the innocent needed to be protected, that torture was cruel and useless, and that the death penalty was used far too freely.”).

\textsuperscript{193} Melvyn Richter, The Political Theory of Montesquieu 3 (1977). John Adams, in the Massachusetts Constitution of 1780, clearly connected the Rule of Law concept with separation of powers. See MASS CONST. art. of 1780 XXX, https://press-pubs.uchicago.edu/founders/documents/bill_of_rights66.html (“In the government of this Commonwealth, the legislative department shall never exercise the executive and judicial powers, or either of them: The executive shall never exercise the legislative and judicial powers, or either of them: The judicial shall never exercise the legislative and executive powers, or either of them: to the end it may be a government of laws and not of men.”); see also Donald B. Verrilli, Jr., The Rule of Law: More Than Just a Law of Rules, 97 Neb. L. Rev. 925, 930 (2019) ("When we talk about the rule of law, what we mean above all is that, in the words of the Massachusetts Constitution written by John Adams, we are a government of laws and not men."); William N. Drake, Jr., The Common Law and the Rule of Law: An “Uncomfortable Relationship”, 45 Stetson L. Rev. 439, 461 (2016) (“The phrase ‘the rule of law’ implies that no one is above the law but that everyone is subject to it, a popular concept in revolutionary times. John Adams is credited with enshrining the rule of law in the Massachusetts Constitution.”).

\textsuperscript{195} Jean-Jacques Rousseau, Rousseau on Women, Love, and Family xiv (Christopher Kelly & Eve Grace eds., 2009) ("Rousseau’s failure to demand the same equality and freedom for women as he does for men is in striking contrast to a number of his predecessors and contemporaries, who carried the torch of Enlightenment into this sphere as
who, in his mid-20s, wrote about the dividing line between liberty and tyranny[^196] and explored the contours and subject of the criminal law—advocated for proportionate punishments, a scale of crimes and punishments, and the abolition of both torture and the death penalty[^197] even though his publicly offered alternative to executions—"perpetual slavery"[^198]—is one rightfully shunned by modern-day lawmakers[^199]. Voltaire, Jefferson, Madison and others championed freedom of expression, religious toleration, and a separation of church and state[^200].

[^197]: For example, Beccaria repeated the maxim laid down by Montesquieu that any punishment that is not necessary is "tyrannical." See generally John D. Bessler, *The Baron and the Marquis: Liberty, Tyranny, and the Enlightenment Maxim That Can Remake American Criminal Justice* (2019) (tracing the history of that maxim from the Enlightenment to the present).

[^199]: See, e.g., Peter Garnsey, *Against the Death Penalty: Writings from the First Abolitionists*—Giuseppe Pelli and Cesare Beccaria 105-06 (2020) (discussing Beccaria’s view that, for the most serious offenses, the punishment he sought was “perpetual slavery (schiaività perpetua),” with Beccaria also envisaging slavery for shorter periods (schiaività per un tempo) for lesser offenses; see also Barbara Esposito & Lee Wood, *Prison Slavery* 37 (Kathryn Bardsley ed., 1982). Notably, the U.S. Constitution’s Thirteenth Amendment reads: “Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction.” U.S. Const., amend. XIII (1865) (emphasis added).

[^200]: See generally Voltaire, *A Treatise on Religious Toleration; Occasioned by the Execution of the Unfortunate John Calas; Unjustly Condemned and Broken upon the Wheel at Touloufe, for the Supposed Murder of His Own Son* (Eloisa Emilius trans., 1764); see also Thomas Kselman, *Conscience and Conversion: Religious Liberty in Post-Revolutionary France* 27 (2018) (“For Voltaire, religious liberty centered on the right of Protestants to worship publicly and to be protected against state violence, with individual freedom of conscience a prior but unexamined assumption.”); Lance Banning, James Madison, the Statute for Religious Freedom, and the Crisis of Republican Convictions, in *The Virginia Statute for Religious Freedom: Its Evolution and Consequences in American History* 109 (1988) (“The Virginia Statute for Religious Freedom was an early fruit of the most famous partnership in American political history. Thomas Jefferson prepared it, as part of the proposed revision of the code of laws that his Committee of Revisors reported to the General Assembly in 1779. James Madison secured
but sadly, slavery, overt gender discrimination, other forms of extreme prejudice, and virulent anti-Semitism stubbornly persisted.201

At a time when women were systematically denied the right to vote and to participate in public life (e.g., as lawyers, judges or jurors),202 Mary Wollstonecraft—a talented English writer whose second daughter,

E.g., Lyombe Eko, New Medium, Old Free Speech Regimes: The Historical and Ideological Foundations of French & American Regulation of Bias-Motivated Speech and Symbolic Expression on the Internet, 28 LOY. L.A. INT’L & COMP. L. REV. 69, 89 (2006) (“During the Renaissance in France, the rebirth of learning also saw a rebirth of anti-Semitism. Some philosophers like Voltaire, who championed human rights and freedom from the shackles of dogmatic religion, were often hostile towards Jews who refused to renounce their religion and culture, and worship at the altar of secularism, rationalism, and humanism.”); cf. Perez Zagarin, How the Idea of Religious Toleration Came to the West 293 (2013) (“There were many noted advocates of toleration during the Enlightenment . . . . In France Montesquieu, Voltaire, Turgot, Diderot, Rousseau, Condorcet, and other prominent thinkers were in favor of tolerance and pluralism in religion. A great blot on the tolerant outlook of some of them, however, which must not be overlooked, was their anti-Semitism. One of these, unhappily, was Voltaire . . . .”). France’s Nicolas de Condorcet—a philosopher, scientist and mathematician—advocated for human rights such as free and equal education, including for women and people of all races. Lisa Murphy et al., Education Studies: An Introduction 58 (2008); Kenneth Allan, Explorations in Classical Sociological Theory: Seeing the Social World 215 (3d ed. 2012).

202. See, e.g., Linda K. Kerber, Women of the Republic: Intellect and Ideology in Revolutionary America 153 (1980) (noting that one of the features of the early “Anglo-American legal system” was that “the courtroom remained a male domain”); id. (“The exclusion of women from formal legal training meant that women were absent from the courtroom as attorneys, judges, or clerks. Because women were not thought to be political beings, they did not serve on juries; their absence meant that accused women did not receive a trial before their peers. Women were present in the courtroom only as plaintiffs, defendants, or witnesses—as recipients, rather than dispensers, of justice.”).
the novelist Mary Shelley, famously wrote *Frankenstein* (1818)—called for the education of women and gender equality in *A Vindication of the Rights of Woman* (1792). Her French counterpart, Olympe de Gouges—a playwright executed by guillotine in 1793 during the French Revolution’s Reign of Terror—published her own *Declaration of the Rights of Woman and the Female Citizen* (1791) shortly after France’s National Constituent Assembly issued its Declaration of the Rights of Man and the Citizen (1789). “By moving from the masculine language of the ‘rights of men’ to a specifically feminine pronoun,” historian Eileen Hunt Botting writes, “Wollstonecraft underscored the special and urgent need for civic recognition of women’s human rights, especially to education.” “Using a similar rhetorical technique,” Botting observes, “de Gouges’s 1791 Parisian pamphlet ‘Declaration of the Rights of Woman and Citizen’ uncovered the patriarchal bias of the 1789 Declaration, by rewriting the list of French republican rights with the female sex included.”

Words, with all their nuance of meaning, played a critical role in eighteenth-century debates and political discourse. During the

206. EILEEN HUNT BOTTING, WOLLSTONECRAFT, MILL, AND WOMEN’S HUMAN RIGHTS 43 (2016).

Enlightenment, the law’s language, as expressed in bills of rights, constitutions and legal codes, came to be seen as an indispensable tool for protecting people’s natural and human rights. Clarity in drafting constitutions and laws came to be highly valued, with lawmakers insisting—in what has come to be known as the principle of legality—

(“Diderot’s skepticism about the incongruity between linguistic meaning and use, his fear that language did not reflect reality but rather contributed to skewing its perception, was to resonate throughout the Enlightenment.”).

208. LYNN HUNT, INVENTING HUMAN RIGHTS: A HISTORY 121 (2007) (“Even before Congress declared independence, the colonists called state conventions to replace British rule, send instructions with their delegates to demand independence, and began drafting state constitutions that often included bills of rights. The Virginia Declaration of Rights of June 12, 1776, proclaimed that ‘all men are by nature equally free and independent and have certain inherent rights,’ which were defined as ‘the enjoyment of life and liberty, with the means of acquiring and possessing property, and pursuing and obtaining happiness and safety.’”); id. at 122 (“Even in Great Britain, a more universalistic notion of rights began to creep into discourse in the 1760s. Talk of rights had quieted down with the restoration of stability after the 1688 revolution that had resulted in the Bill of Rights. The number of book titles that included some mention of ‘rights’ steadily declined in Britain from the early 1700s to the 1750s. As international discussion of natural law and natural rights intensified, the numbers then began to rise again in the 1760s and continued to grow thereafter. In a long pamphlet of 1768 denouncing aristocratic patronage of clerical positions in the Church of Scotland, the author called on both ‘the natural rights of mankind’ and ‘the natural and civil rights of Free Britons.’”).

209. Michel Troper, What Is Interpretation of the Law for the French Judge?, in INTERPRETATION OF LAW IN THE AGE OF ENLIGHTENMENT: FROM THE RULE OF THE KING TO THE RULE OF LAW 141 (Yasutomo Morigiwa et al. eds., 2011) (“For the revolutionaries, clarity was an ideal that they wished to achieve for two main reasons. First, clarity was prized, as it was considered to be a prerequisite to the citizen’s freedom. If the law is clear, then everyone knows what the consequences of his actions will be. Thus, he will be able to proceed or refrain from acting. The second reason was the idea that the power to interpret a law amounts to the power to legislate.”); see also VINCENZO FERRONE, THE POLITICS OF ENLIGHTENMENT: CONSTITUTIONALISM, REPUBLICANISM, AND THE RIGHTS OF MAN IN GAETANO FILANGIERI 140-41 (Sophus A. Reinert trans., 2012) (noting that in his multi-volume work, The Science of Legislation, Gaetano Filangieri attempted to give “a complete and reasoned system of legislation” and to reduce the subject “to a safe and ordered science, uniting means to rules, theory to practice”); 5 ENCYCLOPÆDIA AMERICANA: A POPULAR DICTIONARY OF ARTS, SCIENCES, LITERATURE, HISTORY, POLITICS AND BIOGRAPHY 117 (1851) (discussing the influence of La Scienza della Legislazione (The Science of Legislation)).

210. Deena Mohammad El-Rashed, Derogation in Time of Emergency: An Analysis of Counter-Terrorism Measures in France and Their Impact on Human Rights, 30 FLA. J. INT’L L. 1, 10-11 (2018) (“The principle of legality is a reflection of the maxim of nullum crimen sine lege—no crime without law—and is a fundamental aspect of human rights law and the rule of law in general. Its absolute and non-derogable nature has been explicitly recognized by a number of human rights treaties and international human rights bodies. It is closely linked with the right to ‘security of person’ as it ‘safeguards people’s right to know which acts will result in criminal liability and which will not,’ thus protecting against an overreaching or arbitrary exercise of power on behalf of the state. The principle of legality demands that all limitations on rights and freedoms, particularly in the context of proscribing that which has been deemed a ‘criminal’ offense, be prescribed by law. Furthermore, it demands that any criminal conviction resultant of such law comply with the principles of non-retroactivity and
that citizens be given advance notice of the laws.\textsuperscript{211} In \textit{Del delitti e delle pene} (1764), translated into French by economist and \textit{philosophe} André Morellet and then into English as \textit{An Essay on Crimes and Punishments} (1767),\textsuperscript{212} Beccaria specifically took up the topics of lawmaking and interpretation of the laws.\textsuperscript{213} “Where the laws are clear and precise,” Beccaria observed, “the judge’s task is merely to discover the facts.”\textsuperscript{214}

\textsuperscript{211} GABRIEL HALLEVV, A MODERN TREATISE ON THE PRINCIPLE OF LEGALITY IN CRIMINAL LAW 8 (2010) (‘Despite the Latin maxim \textit{nullum crimen sine lege} (there is no crime without a law), the origin of the principle of legality in its modern meaning is not in Roman law but in the age of Enlightenment in the eighteenth century.’); MARC RIBEIRO, LIMITING ARBITRARY POWER: THE VAGUENESS DOCTRINE IN CANADIAN CONSTITUTIONAL LAW 10 (2004) (noting that the legality principle “was first stated in a significant manner in Article 8 of the French Declaration of the Rights of Man, 1789: ‘no one may be punished except by virtue of a law established and promulgated before the crime and legally applied’”); 3 GIDEON BOAS ET AL., INTERNATIONAL CRIMINAL PROCEEDING 429 (2011) (‘At the core of criminal law, both national and international, is the principle of legality—that is, the accused’s right not to be punished for an act that was not criminal when it was performed.’); Rupa Bhattacharyya, Establishing a Rule-of-Law International Criminal Justice System, 31 TEX. INT’L L.J. 57, 64 (1996) (‘At the heart of a legal order predicated on the rule of law are the maxims of \textit{nullum crimen sine lege} and \textit{nulla poena sine lege}, that is, that there can be neither crime nor punishment unless there is a law that so declares.’); Brad R. Roth, Coming to Terms with Ruthlessness: Sovereign Equality, Global Pluralism, and the Limits of International Criminal Justice, 8 SANTA CLARA J. INT’L L. 231, 249 (2010) (‘[\textit{N}ullum crimen sine lege] lies at the core, rather than the periphery, of the rule of law. Criminal prosecutions are exercises of power not merely tolerated by law, but undertaken in the name of law.’).

\textsuperscript{213} CESARE BECCARIA, ON CRIMES AND PUNISHMENTS AND OTHER WRITINGS (Aaron Thomas ed. & Jeremy Parzen trans., 2009) (translating chapter IV of Beccaria’s \textit{On Crimes and Punishments}). In On Crimes and Punishments, Beccaria wrote: “Nothing could be more dangerous than following the popular maxim whereby it is the spirit of the law that must be consulted.” As Beccaria warned:

The spirit of the law would thus be the product of a judge’s good or bad logic, of his effortless or unhealthy digestion; it would depend upon the violence of his passions, upon the weaknesses he might suffer, on the judge’s relations with the plaintiff, and on all those minute factors that alter the appearance of an object in the fluctuating mind of man.

\textit{Id.}

\textsuperscript{214} CESARE BECCARIA, ON CRIMES AND PUNISHMENTS AND OTHER WRITINGS 35 (Richard Bellamy, ed. & Richard Davies, trans. 2003).
Judges, he wrote, “should reason syllogistically” from a law’s text, warning about the adverse implications of the “common axiom” that “the spirit of the laws is to be considered.” In an era still peppered with capital and corporal punishments and sentences of exile, slavery or “penal servitude” for life, Beccaria emphasized: “it is the greatest of evils if the laws be written in a language which is not understood by the people and which makes them dependent upon a few individuals because they cannot judge for themselves what will become of their freedom or their life and limbs.”

In his own time, Beccaria was celebrated as the first Enlightenment writer to make a comprehensive case against capital punishment, and his book was read and cited by an array of European and American lawmakers. The more people understand the sacred code of the laws

215. Bernard E. Harcourt, Beccaria’s On Crimes and Punishments: A Mirror on the History of the Foundations of Modern Criminal Law, in FOUNDATIONAL TEXTS IN MODERN CRIMINAL LAW (Markus D. Dubber ed., 2014), ch. 2, § 3.f (“Beccaria was wedded to the rule of law and advocated strongly in favor of judging by syllogism. ‘The judge should construct a perfect syllogism about every criminal case,’ Beccaria emphasized; ‘the major premise should be the general law; the minor, the conformity or otherwise of the action with the law; and the conclusion, freedom or punishment.’”).

217. See generally John D. Bessler, The Anomaly of Executions: The Cruel and Unusual Punishments Clause in the 21st Century, 2 BRIT. J. AM. LEGAL STUD. 297 (2013) (discussing the prevalence of non-lethal corporal punishments in prior ages and documenting their abolition or abandonment, and noting the anomaly of the law continuing to permit lethal, state-sanctioned executions in the modern era); CAPTIVATING SUBJECTS: WRITING CONFINEMENT, Citizenship, and Nationhood in the Nineteenth Century 8 (Jason Haslam & Julia M. Wright, eds., 2005) (noting that “[p]enal servitude” was “significant in British carceral practice in the eighteenth and nineteenth centuries” and pointing out that even the U.S. Constitution’s Thirteenth Amendment, which abolished slavery and involuntary servitude, provided “a loophole for the use of slavery”).

218. BESSLER, THE BIRTH OF AMERICAN LAW, supra note 197, at 55. In 2005, at his U.S. Senate Judiciary Committee confirmation hearing, now-Chief Justice John Roberts famously called judges “umpires” who “don’t make the rules; they apply them.” “I will remember that it’s my job to call balls and strikes and not to pitch or bat.” MARK TUSHNET, IN THE BALANCE: LAW AND POLITICS ON THE ROBERTS COURT ix (2013).

219. WILLIAM A. SCHABAS, THE ABOLITION OF THE DEATH PENALTY IN INTERNATIONAL LAW 5 (3d ed. 2002) (“The modern abolitionist movement establishes its paternity with the great Italian criminologist, Cesare Beccaria. His work . . . convinced such statesmen as Voltaire, Jefferson, Paine, Lafayette and Robespierre of the uselessness and inhumanity of capital punishment and even led to ephemeral measures abolishing the death penalty in Austria and Tuscany.”). Another Italian aristocrat, Giuseppe Pelli of Florence, wrote a critique of the death penalty three years before Beccaria’s On Crimes and Punishments first appeared, but it was lost for more than two centuries in the Pelli family archives and only translated into English for the first time in 2020. AGAINST THE DEATH PENALTY: WRITINGS FROM THE FIRST ABOLITIONISTS—GIUSEPPE PELLI AND CESARE BECCARIA 3-5 (Peter Garnsey trans., 2020).

220. In 1770, a few years before Americans declared their independence, John Adams effectively quoted from Cesare Beccaria’s book at the Boston Massacre trial in his defense of
and get used to handling it, the fewer will be the crimes,” Beccaria observed.221 With the fourth chapter of Beccaria’s On Crimes and Punishments devoted to the interpretation of the laws, one modern translator of the book observes that the whole chapter was “a reaction against the unbridled judicial discretion characteristic of Beccaria’s day.”222 The English physician and philosopher John Locke had, in his own time, warned against “arbitrary power” and “[a]bsolute arbitrary power, of governing without settled standing laws,” contending that “[t]he liberty of man, in society, is to be under no other legislative power, but that established, by consent, in the common-wealth.”223 “Wherever law ends, tyranny begins,” Locke wrote.224 Beccaria, like Locke and others, opposed tyrannical practices, and America’s founders similarly railed against arbitrary government,225 embracing the use of written constitutions to protect delineated rights.226 In addition to On Crimes and Punishments, Beccaria also published Ricerche intorno alla natura

British soldiers charged with murder. “May it please your Honors, and you, Gentlemen of the Jury,” he said,

I am for the prisoners at the bar, and shall apologize for it only in the words of Marquis Beccaria: ‘If I can be but the instrument of preserving one life, his blessing and tears of transport shall be a sufficient consolation to me for the contempt of all mankind.’

71 THE NORTH AMERICAN REVIEW 407, 440 (OCT. 1850) (REVIEWING 2 THE WORKS OF JOHN ADAMS, SECOND PRESIDENT OF THE UNITED STATES: WITH A LIFE OF THE AUTHOR, NOTES, AND ILLUSTRATIONS (CHARLES FRANCIS ADAMS ED., 1850)).

222. Id.
224. John Locke, Two Treatises on Government 362 (John Bumpus 1821).
225. The Declaration of Independence itself observed that “the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States,” with one of its recitals that followed emphasizing:

For abolishing the free System of English Laws in a neighbouring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies . . . .

226. Saul Cornell, The Other Founders: Anti-Federalism and the Dissenting Tradition in America, 1788–1828, at 271 (1999) (“Written constitutions and bills of rights . . . served multiple functions within a republican polity. These texts not only were ‘intended to give law, and assign limits to a government,’ but also instructed the people so that ‘by reducing speculative truths to fundamental laws, every man of the meanest capacity and understanding may learn his own rights, and know when they are violated.’ . . . Constitutional texts had to be crafted in clear, precise language. When properly drafted, written constitutions served as important checks and instilled republican values in the people. By linking a culture of constitutionalism to the public sphere itself, written constitutions provided a powerful check against government tyranny. A culture of constitutionalism would create an active citizenry who would sound the alarm at the first threat to their liberty.”).
dello stile (Research on the Nature of Style, 1770), which itself focused on the use and nuance of language.\footnote{227}{Casell Dictionary of Italian Literature 38-39 (Peter Bondanella & Julia Conaway Bondanella eds., 2d ed. 1996). The Enlightenment also saw the publication of a number of dictionaries. See generally Peter Martin, The Dictionary Wars: The American Fight over the English Language (2019).}

Beccaria’s writings—on tyranny, the need for penal reform, and interpretation of the laws—had a major influence throughout Europe and the Americas.\footnote{228}{See generally John D. Bessler, The Marquis Beccaria: An Italian Penal Reformer’s Meteoric Rise in the British Isles in the Transatlantic Republic of Letters, 4 Dicottesimo Secolo 107 (2019); see also John D. Bessler, The Economist and the Enlightenment: How Cesare Beccaria Changed Western Civilization, 46 EUR. J. L. & ECON. 275 (2018).} For example, Thomas Jefferson expressed the view, in line with Beccaria’s, that punishments should be “proportionate” and “mild” and that judges, in doing their work, should closely adhere to the text of laws as written by legislators.\footnote{229}{Jefferson: Political Writings 337 (Joyce Appleby & Terence Ball eds., 1999).} As Jefferson once said: “Let mercy be the character of the law-giver, but let the judge be a mere machine.”\footnote{230}{Id.} Jefferson copied multiple passages from Beccaria’s On Crimes and Punishments into his commonplace book in the original Italian,\footnote{231}{America’s founders were fascinated by Italian culture, and there were many connections between American and Italian thinkers. See, e.g., Bessler, The Birth of American Law, supra note 197 (describing in detail the influence of the Italian Enlightenment on the American Revolution); see generally Ralph G. Giordano, Italian Culture in America: How a Founding Father Introduced Italian Art, Architecture, Food, Wine, and Liberty to the American People (2020); The Italian American Experience: An Encyclopedia 305 (Salvatore J. LaGumina et al. eds., 2000) (“Perhaps the most famous American with a formidable knowledge of Italian was Benjamin Franklin, who studied the language in 1733 and who seemed to enjoy speaking it with other colonists . . . . The study of Italian, beginning in the mid-eighteenth century, was also influenced by noted Italophiles, among them Thomas Jefferson, John Adams, John Quincy Adams, Ralph Waldo Emerson, Nathaniel Hawthorne, William Prescott, George Bancroft, Margaret Fuller, Harriet Beccher Stowe, Julia Ward Howe, Washington Irving, William Cullen Bryant, and Edgar Allan Poe.”). For an Italian language source, see Barbara Faella, Elite: Cultura italiana e statunitense tra settecento e novecento (2020).} taking note of Beccaria’s cautionary warning about judicial discretion: “si apre la porta all’incertezza,” the door is opened to uncertainty.\footnote{232}{Jefferson’s Legal Commonplace Book 491 (David Thomas Konig & Michael P. Zuckert, eds. 2019); The Many Legalities of Early America 116 (Christopher L. Tomlins & Bruce H. Mann, eds. 2001).} As Beccaria, wanting more certainty and less severity and discretion in the law’s application, himself wrote:

Each man has his point of view, each man in different times has a different one. The spirit of the law would thus be the result of good, or wicked logic of a judge of an easy, or indisposed digestion; it
would depend on the violence of his passions, of the infirmity of which he suffers.  

In a passage of Beccaria’s book that John Adams would copy by hand from the original Italian text, Beccaria had observed of the impulse that led to so many abuses of power: “Ogni uomo si fa centro di tutte le combinazioni del globo.” The translation: “Every man makes himself the center of his whole world.”

In accord with the notion that people must be given notice of a penal law before its application, the U.S. Constitution expressly abolished ex post facto laws—laws passed after the commission of an act that retrospectively changed its legal consequences. The Constitution also explicitly outlawed bills of attainder, legislative acts whereby one or more persons were declared to be attainted, to have their property confiscated, and to be sentenced to death without a judicial trial. In The Federalist No. 44, signed “Publius,” James Madison wrote:

Bills of attainder, ex post facto laws, and laws impairing the obligation of contracts, are contrary to the first principles of the social compact, and to every principle of sound legislation. The two former are expressly prohibited by the declarations prefixed to some of the State constitutions, and all of them are prohibited by the spirit and scope of these fundamental charters. Our own experience has taught us, nevertheless, that additional fences against these dangers ought not to be omitted.

In *The Federalist No. 78*, Alexander Hamilton—also writing as “Publius”—had this to say about those legal protections: “The complete independence of the courts of justice is peculiarly essential in a limited Constitution. By a limited Constitution, I understand one which contains certain specified exceptions to the legislative authority; such, for instance, as that it shall pass no bills of attainder, no ex-post-facto laws, and the like.” As Hamilton stressed:

> Limitations of this kind can be preserved in practice no other way than through the medium of courts of justice, whose duty it must be to declare all acts contrary to the manifest tenor of the Constitution void. Without this, all the reservations of particular rights or privileges would amount to nothing.

VI. THE UNIVERSAL DECLARATION OF HUMAN RIGHTS AND EQUAL PROTECTION OF THE LAWS

Today, the Rule of Law—as a concept—is as important as it was after World War II, when war, genocide, and countless Nazi atrocities led to the creation of the United Nations in 1945 and the promulgation of the Universal Declaration of Human Rights (1948). The Universal

240. See generally Stephen C. Schlesinger, *Act of Creation: The Founding of the United Nations – A Story of Superpowers, Secret Agents, Wartime Allies and Enemies, and Their Quest for a Peaceful World* (2003) (describing the founding conference of the United Nations in San Francisco in 1945); see also Sellers, An Introduction to the Rule of Law in Comparative Perspective, supra note 80, at 1 (“The rule of law has a long history in the aspirations of oppressed peoples everywhere. Developing societies seek to establish the rule of law, well-regulated societies seek to preserve it, and most governments claim to maintain it, whatever the nature of their actual practices. This makes the rule of law a nearly universal value, endorsed by the United Nations General Assembly, for example, which has repeatedly identified ‘human rights, the rule of law and democracy’ as ‘universal and indivisible core values and principles of the United Nations.’”).

241. See Johannes Morsink, The Universal Declaration of Human Rights: Origins, Drafting and Intent 1 (1999); see also Mireille Delmas-Marty, Ordering Pluralism: A Conceptual Framework for Understanding the Transnational Legal World 97 (Naomi Norberg trans., 2009) (“The global order as we know it was set out in the San Francisco Charter establishing the United Nations in June 1945 and the Universal Declaration of Human Rights, adopted in Paris in 1948. Designed according to principles the drafters thought clear (peace through collective security, human rights that are universal because indivisible) and an architecture they thought simple (General Assembly, Security Council, Economic and Social Council, Trusteeship Council, Secretariat and International Court of Justice), the United Nations has been enriched by the adoption of legal instruments in areas as diverse as human rights, trade, health and the environment.”); Micheline R. Ishay, *The History of Human Rights: From Ancient Times to the Globalization Era* 218 (2004) (discussing the Universal Declaration of Human Rights and observing, “‘Never again!’ was the rallying cry of Jews and human rights activists after World War II.”).
Declaration, the work product of John Peters Humphrey, René Cassin, Eleanor Roosevelt, and many others from delegations around the world, explicitly tied the Rule of Law to the protection of universal human rights, declaring in its preamble that “it is essential, if man is not to be compelled to have recourse, as a last resort, to rebellion against tyranny and oppression, that human rights should be protected by the rule of law.” The concept of the Rule of Law—as one source notes—

244. Mary Ann Glendon, The Rule of Law in the Universal Declaration of Human Rights, 2 NW. J. INT’L. HUM. RTS. 1, 19 (2004) (“Roosevelt and her colleagues believed that the best protections for freedom and dignity were in the habits and opinions of ordinary citizens and statespersons, reflected in appropriate laws and institutions. They saw the relation between law and culture as a dynamic one: the rule of law is a product of culture, but good laws and institutions set the conditions that foster the habits and attitudes that support good laws and institutions.”). Adherence to the Rule of Law is closely associated with, and absolutely critical to, the protection of basic human rights. Danilo Zolo, The Rule of Law: A Critical Reappraisal, in THE RULE OF LAW: HISTORY, THEORY AND CRITICISM 4 (Pietro Costa & Danilo Zolo eds., 2007) (“[T]he rule of law has been brought back to life in Western culture in close connection with the doctrine of individual rights (or ‘human rights’): one need only think of authors such as Ronald Dworkin, Ralf Dahrendorf, Jürgen Habermas, Norberto Bobbio, and Luigi Ferrajoli. Thus, the rule of law has been revived as a political and legal theory that gives pre-eminence to the protection of human rights, i.e., rights which have been defined by a great number of nineteenth- and twentieth-century national constitutions and international conventions, in particular the rights to life, personal security, freedom, private property, and contractual autonomy, as well as political rights.”); Elizabeth Burleson, Tribal, State, and Federal Cooperation to Achieve Good Governance, 40 AKRON L. REV. 207, 218 (2007) (“Commitment to the rule of law and protection of human rights requires institutions that are representative, legitimate and accountable.”); compare Comment, Nicholas (Cole) Fegen, Thick or Thin? Defining Rule of Law: Why the “Arab Spring” Calls for a Thin Rule of Law Theory, 80 UMKC L. REV. 1187, 1197 (2012) (“One way of defining rule of law is to focus on the broad, formal aspects of a system of government. These types of definitions are typically referred to as ‘minimalist’ or ‘thin’ theories. ‘Thin theorists’ tend to approach defining rule of law in a way that focuses on the instrumental aspects of rule of law that a state must possess in order to effectively function as a system of law.”) with id. at 1199-1200 (“[S]ome scholars prefer a ‘thick,’ substantive approach to defining rule of law that attempts to provide specific content to the formal aspects of the rule of law, especially by emphasizing commitments to human rights. As one thick theorist has written, ‘a state which savagely represses or persecutes sections of its people [does not genuinely follow the rule of law simply because it undertakes those heinous acts according to] detailed laws duly enacted and scrupulously observed.’ Therefore, to thick theorists, rule of law as a concept must include at least some substantive criteria, including, at a minimum, protection of human rights and gender equality.”).

245. UNIVERSAL DECLARATION OF HUMAN RIGHTS, pmbl. (1948). The very first article of the Universal Declaration recites that “[a]ll human beings are born free and equal in dignity and rights,” with the next article declaring that “[e]veryone is entitled to all the rights and freedoms set forth in this Declaration, without distinction of any kind, such as race, colour,
thus played a “central role” in the Universal Declaration’s genesis, with Sir Hersch Lauterpacht—a prominent British lawyer who served on the International Court of Justice—writing in 1950 that “the most effective way of giving reality to it is through the normal activity of national courts and other organs applying the law of the land.”

short, the stronger a society’s Rule of Law tradition and ethic, the better human rights will be protected.

The Universal Declaration was a major advance in legal thought because lawmakers in the eighteenth and nineteenth centuries—and, it must be said, for so many who came thereafter—abjectly failed to address the scourges of slavery and racism, misogyny and sexism, and homophobia and xenophobia. That failure, which denied equality to all, has necessitated the human rights advocacy of scores of pioneering leaders to rectify and remedy the prejudices and errors of the past. Change may be inevitable, but only through determination, grit, and collective action does lasting, positive change come. As anthropologist Margaret Mead is widely reported to have once expressed her belief in the potential for human beings to bring about constructive change: “Never doubt that a small group of thoughtful people can change the world; indeed, it’s the only thing that ever has.”

Over the centuries, many such civic and political leaders have tirelessly fought for different causes. William Wilberforce, Frederick Douglass, Sojourner Truth, and Harriet Tubman fought against slavery. Charles Hamilton Houston, Thurgood Marshall, Martin

Fischer & David L. de Lorenzo eds., 1983); see also 2 ENCYCLOPEDIA OF DISABILITY: A HISTORY IN PRIMARY SOURCES 756 (Sharon L. Snyder & David T. Mitchell eds., 2006) (“Edward Miner Gallaudet, an influential nineteenth-century educator, was the founder of the world’s first institution of higher education for deaf people.”); see also id. at 756-57 (noting that Thomas Hopkins Gallaudet, the father of Edward Miner Gallaudet, had traveled to Europe in 1815 to learn how to teach deaf children, received training there from Jean Massieu and Laurent Clerc, and then established “the first permanent school for the deaf in the United States in 1817”).

277. TIM MCNEEESE, DISABILITY RIGHTS MOVEMENT 90 (2014) (noting that Patrisha A. Wright, in her fight for the Americans with Disabilities Act, was known as “the general” and that Wright “joined the ranks of the disability rights activists in 1977 when she participated in a demonstration in San Francisco” and was “instrumental in passing much of the important disability-related legislation in the 1980s and 1990s”). The Americans with Disabilities Act (“ADA”) became a template for legislation around the world and, in time, led to the U.N. Convention on the Rights of Persons with Disabilities. LENNARD J. DAVIS, Author’s Note in ENABLING ACTS: THE HIDDEN STORY OF HOW THE AMERICANS WITH DISABILITIES ACT GAVE THE LARGEST US MINORITY ITS RIGHTS (2015).

278. Mike Hanks, PACER Center director receives award, SUN CURRENT (Jan. 16, 2018), https://www.hometownsource.com/sun_current/community/bloomington/pacer-center-director-receives-award/article_c9d51a2-fa9b-11e7-88df-673ac739da1f.html (“In 1978, [Paula] Goldberg co-founded PACER Center to help parents of children with a disability know their rights and expand opportunities for their sons and daughters. PACER supports families of youth with disabilities using a ‘parents helping parents’ model. Today, PACER has more than 70 staff members and more than 35 programs, including the National Bullying Preventing Center, which was founded in 2006. Other programs offer advocacy resources for youth, workshops and leadership training for parents, independent housing information and an assistive technology center.”).

280. THE DEATH PENALTY TODAY vii (Robert M. Bohm ed., 2008) (“In the late eighteenth century, Dr. Benjamin Rush (1747–1813), a Philadelphia physician and signer of the Declaration of Independence, was among the most vocal opponents of the death penalty in the United States.”).

283. Elwood R. McIntyre, A Farmer Halts the Hangman: The Story of Marvin Bovee, 42 WIS. MAG. Hist. 3, 3 (1958) (“A single term in the legislature of 1853, as leader of a hard-fought but successful drive to abolish capital punishment in Wisconsin, turned Senator Marvin H. Bovee, Waukesha County farmer, into a zealous and resourceful penal reformer. Brought suddenly into prominence, his aid was sought in many antigallows campaigns across the nation during the ensuring thirty-five years.”).
A man, Bryan Stevenson, Robert Badinter, Diann Rust-Tierney, and Sister Helen Prejean. Of course, through the centuries scores of other activists, civic leaders, and human rights defenders have participated in social movements and civil rights and environmental justice campaigns to address gross violations of human rights.

Ironically, in the political context, the American revolutionaries who fought for liberty and independence from England’s monarchy themselves denied liberty—en masse, to borrow a French term—to minorities and women. Early American presidents—George Washington, Thomas Jefferson, James Madison, James Monroe and Andrew Jackson, among them—kept scores of people in human bondage, including while they served as head of state. Jefferson wrote

292. See, e.g., Jesse J. Holland, The Invisibles: The Untold Story of African American Slaves in the White House 5-6 (2016) (noting that twelve U.S. presidents—George Washington, Thomas Jefferson, James Madison, James Monroe, Andrew Jackson, Martin Van Buren, William Henry Harrison, John Tyler, James K. Polk, Zachary Taylor, Andrew Johnson, and Ulysses S. Grant—enslaved people at one point or another in their lives, and that “eight of those twelve slave-holding presidents brought their slaves along to work with them inside the presidential mansions in which they resided: Washington, Jefferson, Madison, Monroe, Jackson, Tyler, Polk, and Taylor.”); see also Kenneth C. Davis, In the Shadow of Liberty: The Hidden History of Slavery, Four Presidents, and Five
the Declaration of Independence (1776), declaring “that all Men are created equal,” but—in the hypocrisy of hypocrisies—during his lifetime he kept more than six hundred human beings enslaved at Monticello, his Virginia plantation, and in his fields or mills or at his nailery. The U.S. Constitution, drafted in Philadelphia and ratified in 1788, itself prohibited the slave trade’s abolition until 1808, with Jefferson and Monroe exchanging letters—in the wake of Gabriel’s Rebellion (1800), in which enslaved people in Virginia sought their

BLACK LIVES xvi (2016) (“To say that people were enslaved means this condition was forced on them; it does not define who they were.”); DOUGLAS R. EGERTON, GABRIEL’S REBELLION: THE CONSPIRACIES OF 1800 AND 1802, at 186 (1992) (noting that more than two dozen people were hanged in the fall of 1800 after Gabriel, an enslaved man, led a rebellion in Virginia); see TIM McGrath, JAMES MONROE: A LIFE (2020), ch. 9 (discussing Gabriel’s Rebellion).

293. ALLEN JAYNE, JEFFERSON’S DECLARATION OF INDEPENDENCE: ORIGINS, PHILOSOPHY AND THEOLOGY 109 (1998); see also STEPHEN J. SPIGNESI, THE ITALIAN 100: A RANKING OF THE MOST INFLUENTIAL CULTURAL, SCIENTIFIC, AND POLITICAL FIGURE, AND PAST AND PRESENT 27-28 (2003) (noting that Jefferson translated the writings of Filippo Mazzei, an Italian thinker who settled on a farm near Charlottesville adjoining Jefferson’s estate, Monticello, and that Mazzei—writing under the pseudonym “Furioso,” Italian for furious—observed: “All men are by nature equally free and independent . . . each equality is necessary in order to create a free government. All men must be equal to each other in natural law.”); UNIVERSAL DICTIONARY OF THE ENGLISH LANGUAGE: A NEW AND ORIGINAL WORK PRESENTING FOR CONVENIENT REFERENCE THE ORTHOGRAPHY, PRONUNCIATION, MEANING, USE, ORIGIN AND DEVELOPMENT OF EVERY WORD IN THE ENGLISH LANGUAGE 2235 (Robert Hunter & Charles Morris, eds. 1897) (noting the Italian translation for “furioso”).

296. JOHN R. VILE, ENCYCLOPEDIA OF CONSTITUTIONAL AMENDMENTS, PROPOSED AMENDMENTS, AND AMENDING ISSUES, 1789-2002, at 414 (2d ed. 2003) (“Article I, Section 9 granted Congress the power to limit the foreign slave trade after 1808, but it did not directly address congressional control of the interstate slave trade.”); see also JONATHAN ISRAEL, THE EXPANDING BLAZE: HOW THE AMERICAN REVOLUTION IGNITED THE WORLD, 1775-1848, at 156 (2017) (noting of the Constitutional Convention in Philadelphia and its failure to address the issue of slavery: “In the end, Northern as well as Southern delegates colluded in burying the whole issue and excluding direct reference to ‘slavery’ in the Constitution’s final wording so as to avoid offending the sensibilities of those unwilling to include the word ‘slavery’ in the nation’s foundation text. The result was that the United States Federal Constitution, utilizing respectable circumlocutions, condoned slavery indefinitely, precluded Congress from prohibiting the slave trade for two decades . . . , and required all states, under strict rules, to return fugitive slaves to bondage and their owners.”).
freedom—about how to punish those who participated in it. The principal subject of their exchange: about the use of capital punishment and whether or not “to stay the hand of the executioner.” Slavery itself was not abolished in the U.S. until December 6, 1865, after the Civil War had claimed hundreds of thousands of lives and John Wilkes Booth, a white supremacist, assassinated President Abraham Lincoln at Ford’s Theatre.

297. MARTIN A. KLEIN, HISTORICAL DICTIONARY OF SLAVERY AND ABOLITION 185 (2d ed. 2014) (“Gabriel’s Rebellion was an effort to overthrow slavery in Virginia.”); CARYN E. NEUMANN, TERM PAPER RESOURCE GUIDE TO AFRICAN AMERICAN HISTORY 43 (2009) (“Gabriel’s Rebellion took place in Richmond, Virginia in 1800. Gabriel Prosser, a 24-year-old enslaved blacksmith, led the largest slave plot in the early years of the new nation. The conspiracy reputedly involved most of the slaves in the Richmond area and many throughout the rest of Virginia. It taught slaveowners that they could never count on the submission of the slaves around them.”).

298. James Monroe, Governor, Virginia, to Thomas Jefferson, Vice President, U.S. (Sept. 15, 1800) (“We have had much trouble with the negroes here. The plan of an insurrection has been clearly proved, & appears to have been of considerable extent. [Ten] have been condemned & executed, and there are at least twenty perhaps 40 more to be tried, of whose guilt no doubt is entertained. It is unquestionably the most serious and formidable conspiracy we have ever known of the kind: tho’ indeed to call it so is to give no idea of the thing itself . . . . Where to arrest the hand of the Executioner, is a question of great importance.”); Thomas Jefferson, Vice President, U.S. to James Monroe, Governor, Virginia (Sept. 20, 1800) (“Where to stay the hand of the executioner is an important question. [T]those who have escaped from immediate danger, must have feelings which would dispose them to extend the executions. [E]ven here, where every thing has been perfectly tranquil, but where a familiarity with slavery, and a possibility of danger from that quarter prepare the general mind for some severities, there is a strong sentiment that there has been hanging enough. [T]he other states & the world at large will for ever condemn us if we indulge a principle of revenge, or go one step beyond absolute necessity.”). Other rebellions by enslaved persons would be met by executions, too. See, e.g., NAT TURNER, A SLAVE REBELLION IN HISTORY AND MEMORY 18 (Kenneth S. Greenberg ed., 2003) (noting that Nat Turner was hanged in Jerusalem, Virginia in 1831).

299. Sandra L. Rierson, The Thirteenth Amendment as a Model for Revolution, 35 VT. L. REV. 765, 861 (2011) (“In voting to end slavery via the Thirteenth Amendment, Congress recognized that public sentiment had evolved sharply from where it stood during the years leading up to the Civil War . . . . Less than a year after the House of Representatives approved the Amendment, on December 6, 1865, the Thirteenth Amendment was ratified by the necessary margin of two-thirds of the States, abolishing the institution of slavery throughout the United States immediately and permanently.”).

300. E.g., Arthur H. Garrison, Disproportionate Incarceration of African Americans: What History and the First Decade of the Twenty-First Century Have Brought, 2011 J. INST. JUST. INT’L STUD. 87, 109 (noting that the Civil War led to the loss of “more than 600,000 lives”); see also Shannon Moeck, The Lost Generation, in Robert M. Dunkerly, TO THE BITTER END: APPOMATTOX, BENNETT PLACE, AND THE SURRENDERS OF THE CONFEDERACY 163 (2015) (“In total, more than 620,000 deaths—perhaps as many as 750,000—and more than one million total casualties occurred during the Civil War, for both the North and South.”).

In early America, women and Native Americans were likewise systematically subjugated and oppressed. In a 1776 letter, Abigail Adams—the wife of the prominent Massachusetts lawyer who would later become America’s second president—had implored her husband, John Adams, to “Remember the Ladies.” But America’s founders utterly failed to do so, even though some from that era (and others prior to their time) had advocated for the recognition of women’s

302. WOODY HOLTEN, ABIGAIL ADAMS: A LIFE 99 (2009). In her letter, written from Braintree, Massachusetts on March 31, 1776, Abigail Adams wrote to her husband:

I long to hear that you have declared an independency—and by the way in the new Code of Laws which I suppose it will be necessary for you to make I desire you would Remember the Ladies, and be more generous and favourable to them than your ancestors. Do not put such unlimited power into the hands of the Husbands. Remember all Men would be tyrants if they could. If particular care and attention is not paid to the Laidies we are determined to foment a Rebelion, and will not hold ourselves bound by any Laws in which we have no voice, or Representation. That your Sex are Naturally Tyrannical is a Truth so thoroughly established as to admit of no dispute, but such of you as wish to be happy willingly give up the harsh title of Master for the more tender and endearing one of Friend. Why then, not put it out of the power of the vicious and the Lawless to use us with cruelty and indignity.

303. COKE ROBERTS, FOUNDING MOTHERS: THE WOMEN WHO RAISED OUR NATION 12 (2004) (“Though many of the marriages of the Founders, like that of Abigail and John Adams, were true partnerships, the women had no legal rights. Under a system called ‘couverture,’ their husbands essentially owned women. They had some rights to inheritance, either to the property they brought into a marriage or to a portion of their husband’s property, but in the context of the marriage itself they owned nothing, not even their own jewelry.”); see also BEYOND THE FOUNDERS: NEW APPROACHES TO THE POLITICAL HISTORY OF THE EARLY AMERICAN REPUBLIC 60 (Jeffrey L. Pasley, Andrew W. Robertson & David Waldstreicher eds., 2004) (noting that “[i]n colonial America . . . husbands had the right to wield complete authority over their wives’ property by virtue of the laws of coverture”). For a history of coverture, see generally MARRIED WOMEN AND THE LAW: COVERTURE IN ENGLAND AND THE COMMON LAW WORLD (Tim Stretton & Krista Kesselring eds., 2013).

304. FEMINIST HISTORY OF PHILOSOPHY: THE RECOVERY AND EVALUATION OF WOMEN’S PHILOSOPHICAL THOUGHT 5 (Eileen O’Neill & Marcy P. Lascano eds., 2019) (“‘Claims for the equality of the sexes, grounded in the Christian doctrine of equality of souls and in appeals to reason, were a long-standing feature of European intellectual debate since the early fifteenth century, when, by invoking Lady Reason, Christine de Pizan first challenged French male writers who demeaned women in print. By the seventeenth century, this argument for sexual equality had been explicitly stated by writers such as Marie Le Jars de Gournay, in her treatise De l’égalité des hommes et des femmes [On the Equality of Men and Women, 1622].’” ) (quoting KAREN OFFEN, EUROPEAN FEMINISMS, 1700-1950: A POLITICAL HISTORY 31 (2000); 3 SISTER PRUDENCE ALLEN, THE CONCEPT OF WOMAN: THE SEARCH FOR COMMUNION OF PERSONS, 1500-2015, at 308 (2016) (noting that François Poullain de la Barre (1647-1723) was “[t]he first philosopher to write lengthy and detailed works incorporating Cartesian philosophy to defend women’s identity as equal to men,” with Poullain—in the 1670s using a pseudonym—publishing “three works on women’s equality with men and on women’s rights to have access to all levels of higher education,” including one work titled De l’égalité des deux sex (The equality of the two sexes), “published in 1673, to highlight the Cartesian-based arguments for physical, mental, and moral equality of women and man.”).
Women were not guaranteed the right to vote until much later—in the case of federal elections, not until the Nineteenth Amendment was ratified in 1920. Also, a large number of Native Americans were killed (e.g., in Mankato, Minnesota, on December 26, 1862, a mass hanging took the lives of thirty-eight Dakota Indians) and they were driven off and exiled from their ancestral lands, with...

305. Condorcet: Writings on the United States 135 n.20 (Guillaume Ansart ed. & trans., 2012) (noting that "Condorcet was a fervent advocate of women’s rights") (citing Marie-Jean-Antoine-Nicolas Caritat & Marquis de Condorcet, On the Admission of Women to the Rights of Citizenship (Alice Drysdale Vickers transl., 1790) [So; l’admission des femmes au droit de cité]); Linda K. Kerber, Women of the Republic: Intellect and Ideology in Revolutionary America 21-22 (1980) ("Condorcet pointed out that although women had not exercised the right of citizenship in any "constitution called free," the right to political voice in a republic was generally claimed by men on grounds that might equally well be claimed by women—that they were ‘sensible beings, capable of reason, having moral ideas’ . . . . He concluded what is perhaps his generation’s most detailed statement of the political rights and responsibilities of women with the comment: ‘Perhaps you will find this discussion too long; but think that it is about the rights of half of human beings, rights forgotten by all the legislators . . . . ’"); The Italian American Experience: An Encyclopedia 362 (Salvatore J. La Gumina et al. eds., 2005) (noting that Philip Mazzei, Thomas Jefferson’s Italian-born neighbor at Monticello, “was a thinker before his time,” promoted “equal rights for all people” and the “education of slaves before their emancipation,” and “opposed the idea of men as the stronger sex and held that women have rights, too”).

306. See Susan Zimet & Todd Hasak-Lowy, Roses and Radicals: The Epic Story of How American Women Won the Right to Vote 147 (2018); see also Kenneth Janda et al., The Challenge of Democracy: American Government in Global Politics 181 (14th ed. 2018) (“Until 1869, women could not vote anywhere in the world. American women began to organize to obtain suffrage in the mid-1800s . . . . Their first major victory did not come until 1869, when Wyoming, still a territory, granted women the right to vote.”); see also History.com Editors, Wyoming legislators write the first state constitution to grant women the vote, History, https://www.history.com/this-day-in-history/wyoming-legislators-write-the-first-state-constitution-to-grant-women-the-vote (last updated Sept. 28, 2020) (noting that “[i]n 1848, the legislature in Washington Territory became the first to introduce a women’s suffrage bill” but that bill “was narrowly defeated,” and that “[o]n September 30, 1889, the Wyoming state convention approve[d] a constitution that includes a provision granting women the right to vote”).

308. Merrill D. Smith, Women’s Roles in Eighteenth-Century America 92 (2010) (“The demand for land pushed white settlers into frontier areas. The constant westward movement forced Native Americans to move, too, or to adjust their lifestyles to changes in their environment as colonists built homes and towns. Throughout much of the eighteenth century, there was conflict between Native Americans and white settlers in frontier areas.”); Julia Coates, Trail of Tears XIII (2014) (“The removal of tribes whose homelands were in the eastern and mid-western regions of an expanding United States was first promoted as federal policy after the 1803 Louisiana Purchase, during the administration of President Thomas Jefferson. In the two decades immediately following, tribes from the Ohio Valley and Great Lakes regions were forcibly removed to lands west of the Mississippi River—areas in present-day Kansas, Nebraska, and Iowa—apparently without much awareness on the part of the American public.”).
treaties—the foundation of dealings between sovereign peoples—frequently broken.\textsuperscript{309} President Andrew Jackson signed the so-called Indian Removal Act into law in 1830,\textsuperscript{311} with modern-day scholars documenting what has been called the unprecedented “state-administered mass expulsion of indigenous people.”\textsuperscript{312}

In 1868, the ratification of the U.S. Constitution’s Fourteenth Amendment enshrined the concept of “equal protection of the laws” into the nation’s fabric of life.\textsuperscript{313} That constitutional amendment was, unfortunately, not immediately read to protect the rights of those it was intended to protect.\textsuperscript{314} But gradually, through the application of the U.S.

\begin{itemize}
  \item \textsuperscript{309} Nation to Nation: Treaties Between the United States and American Indian Nations xi (Suzan Shown Harjo ed., 2014) (“Repeatedly recognized by the courts as sources of rights for Indian people and their Indian Nations, treaties carry the weight of the past and test the strength of our nation’s commitment to honesty, good faith, and the rule of law. Promises between the leaders of nations, treaties inscribe solemn vows that cannot lightly be broken or ignored—a verity that Supreme Court justice Hugo Black recognized in 1960 when he declared, ‘Great nations, like great men, should keep their word.’”).
  \item \textsuperscript{310} E.g., Kimbra Cutlip, In 1868, Two Nations Made a Treaty, the U.S. Broke It and Plains Indian Tribes are Still Seeking Justice, SMITHSONIAN MAG. (Nov. 7, 2018), https://www.smithsonianmag.com/smithsonian-institution/1868-two-nations-made-treaty-us-broke-it-and-plains-indian-tribes-are-still-seeking-justice-180970741/; see also Indian Treaties in the United States: An Encyclopedia and Documents Collection ix (Donald L. Fixico ed., 2018) (“American Indians hold a unique status in having signed the most treaties of any Indigenous people in the world. After negotiating more than 400 treaties with American officials, a total of 374 were ratified by the U.S. Senate. After an act in 1871 stopped treaty making with the Indian nations, the U.S. government made an additional 97 agreements with American Indians from 1870 to 1904. Together, there are 471 American Indian treaties and agreements.”); id. at xi (“While the majority of Indian treaties were negotiated during the 1800s, they are still viable today. American Indians have certain legal rights such as water rights, hunting and fishing rights, land rights, religious rights, and other rights contained in treaties and agreements. More than a thousand court cases have been decided according to U.S.-Indian treaties, and American Indians have dual rights as members of their tribes and as citizens under the U.S. Constitution.”).
  \item \textsuperscript{312} See, e.g., Claudio Saunt, Introduction to Unworthy Republic: The Dispossession of Native Americans and the Road to Indian Territory (2020).
  \item \textsuperscript{313} U.S. Const. amend XIV. Some scholars have described the “Reconstruction Amendments,” of which the Fourteenth Amendment is a major part, as a “second Constitution.” Garrett Epps, American Epic: Reading the U.S. Constitution 159 (2013); see also id. at 163 (observing that “the Fourteenth Amendment marks such a change in the meaning, structure, and workings” of the original U.S. Constitution that “the thought is not outlandish” that the Fourteenth Amendment is “the second Constitution”); see generally Garrett Epps, Democracy Reborn: The Fourteenth Amendment and the Fight for Equal Rights in Post–Civil War America (2013) (describing the history of the drafting and ratification of the Fourteenth Amendment).
  \item \textsuperscript{314} Timothy P. O’Neill, New Law, Old Cases, Fair Outcomes: Why the Illinois Supreme Court Must Overrule People v. Flowers, 43 Loy. U. Chi. L.J. 727, 731-32 (2012) (“The first federal constitutional provision with significant relevance to state criminal prosecutions was the Due Process Clause of the Fourteenth Amendment. Although the Due Process Clause became effective against state action in 1868, the U.S. Supreme Court applied it only sparingly
Supreme Court’s “selective incorporation” doctrine, constitutional protections in the U.S. Bill of Rights have been interpreted by the courts and applied to the states in a transformative way. In addition, the Fourteenth Amendment’s equal protection guarantee has been applied to protect people’s rights (e.g., in the U.S. Supreme Court’s decisions in United States v. Virginia and Obergefell v. Hodges, protecting women’s rights and guaranteeing marriage equality, respectively). There are, of course, international covenants and multiple U.N. conventions that outlaw discrimination and that recognize the importance of equality and equal treatment under the law.

against state court criminal decisions for the next ninety years. It was not until the Warren Court revolution of the 1960’s that the U.S. Supreme Court became actively engaged in influencing state criminal law. The Court did this by ‘selectively incorporating’ most, though not all, of the guarantees of the federal Bill of Rights.”; see also Susan Schulten, Barack Obama, Abraham Lincoln, and John Dewey, 86 DENV. U. L. REV. 807, 814 (2009) (“The articulation of equal protection as a Constitutional principle would not occur until Reconstruction and the Fourteenth Amendment in 1868, and then lay dormant—at least for African-Americans—until Lyndon Johnson signed the nation’s most effective civil rights legislation into law nearly a century later.”).

315. David Sloss, Incorporation, Federalism, and International Human Rights, in HUMAN RIGHTS AND LEGAL JUDGMENTS: THE AMERICAN STORY 79 (Austin Sarat ed., 2017) (“The doctrine developed by the Warren Court in the 1960s is known as ‘selective incorporation.’ Selective incorporation doctrine is best understood as an uneasy compromise between two incompatible theories: the ‘total incorporation’ theory and the ‘fundamental rights’ theory. Total incorporation theory holds that the rights codified in the Bill of Rights bind the states because the Fourteenth Amendment ‘incorporates’ the first eight amendments and makes them applicable to the states. In contrast, fundamental rights theory rejects the proposition that the Bill of Rights binds the states. It holds that the Fourteenth Amendment due process clause prohibits state governments from infringing ‘fundamental rights.’”); AMAR, supra note 118, at xv (noting that the Fourteenth Amendment, “[i]n area after area,” has “altered the trajectory” of the original Bill.).

317. Obergefell v. Hodges, 576 U.S. 644 (2015) (holding that the Fourteenth Amendment requires a state to license a marriage between two people of the same sex and to recognize a marriage between two people of the same sex when their marriage is licensed and performed out-of-state).

318. THE OXFORD HANDBOOK OF UNITED NATIONS TREATIES 256 (Simon Chesterman et al. eds., 2019) (noting various nondiscrimination provisions in international instruments); id. at 254-57 (noting U.N. instruments relating to women and the equality provision in the Convention on the Elimination of all Forms of Discrimination Against Women); RHONA K. M. SMITH, INTERNATIONAL HUMAN RIGHTS LAW 203 (8th ed. 2018) (“The prohibition on race discrimination is entrenched in international law, indeed it is already considered by many scholars to be an example of ius cogens.”); THE UN CONVENTION ON THE RIGHTS OF PERSONS WITH DISABILITIES: A COMMENTARY 141 (Ilias Bantekas et al. eds., 2018) (“[E]quality is ‘the most important principle imbuing and inspiring the concept of human rights and achieving equality and non-discrimination is ‘the dominant and recurring theme of international human rights law.’”)}.
VII. TYRANNICAL RULE AND ABUSES OF POWER VS. THE RULE OF LAW

It is clear that those in power have—and frequently do—abuse their power. That was certainly true of ancient Rome and Roman emperors, with condemned criminals crucified, clubbed to death, burned alive, fed to wild animals, thrown from the Tarpeian Cliff, or bound in leather sacks with live animals and tossed into bodies of water.\(^319\) “In the Colosseum,” one historian notes of ancient Rome’s famous amphitheater, “a whole series of elaborate executions were staged” in “the guise of certain Greek dramas, whose subject matter entailed the deaths of the actors.”\(^320\) The “actors” were, in actuality, condemned criminals “dressed up as characters from Greek mythology” who “were forced to perform and, at the performance’s climax, were put to death” using “collapsible scaffolds placed above cages of wild beasts.”\(^321\) Rome’s Colosseum could hold tens of thousands of spectators,\(^322\) and it was the sight of innumerable public executions—ones carried out in a gruesome fashion through a variety of means,\(^323\) including burning alive

---

319. MITCHEL P. ROTH, A HISTORY OF CRIME AND THE AMERICAN CRIMINAL JUSTICE SYSTEM 19 (3d ed. 2018) (containing a section on “Roman crime and punishment”); Edward M. Peters, Prison Before the Prison: The Ancient and Medieval Worlds, in THE OXFORD HISTORY OF THE PRISON: THE PRACTICE OF PUNISHMENT IN WESTERN SOCIETY 3, 13-21 (Norval Morris & David J. Rothman eds., 1998) (discussing punishments under the laws of Rome); see also CHARLES ANThON, A DICTIONARY OF GREEK AND ROMAN ANTIQUITIES 308-09 (William Smith, ed., 3d Am. ed. 1857) ("[T]he murderer of a parent was sewed up in a sack (culleus or culeus) and thrown into a river"; “He who killed a father or mother, grandfather or grandmother, was punished . . . by being whipped till he bled, sewn up in a sack with a dog, cock, viper, and ape, and thrown into the sea if the sea was at hand, and if not, by a constitution of Hadrian, he was exposed to wild beasts, or, in the time of Paulus, to be burned.”); JOHN D. BESSLER, CRUEL AND UNUSUAL, supra note 137, at 267 (discussing the punishment for parricide).

321. Id.

322. NATHAN T. ELKINS, A MONUMENT TO DYNASTY AND DEATH: THE STORY OF ROME’S COLOSSEUM AND THE EMPERORS WHO BUILT IT 3 (2019) (“The Flavian Amphitheater, probably called simply the amphitheatrum by the Romans, became known as the Colosseum in the Middle Ages and still popularly bears that name. It was the largest and grandest of all amphitheaters in the Roman Empire, with some strikingly modern amenities that foreshadowed today’s sports stadiums. . . . The Colosseum also has elaborate substructures that would have allowed an army of slaves and servicemen to raise gladiators, animals, stage props, and scenery efficiently and dramatically to the arena floor above.”); id. ("According to modern estimates, the Colosseum could seat 50,000 to 55,000 spectators, although an ancient source, the Chronographer of 354 CE, states that it could accommodate 87,000.").

323. Id. at 97 (“E)xecutions took many different forms and were never monotonous. Condemned criminals could be shackled together and forced to fight to the death, covered in flammable substances and set alight, placed on an iron chair and fried, or dismembered by horses.”); id. at 95 (“Other forms of execution included forcing the condemned to fight in
and damnatio ad bestias, “condemnation to the beasts.” Humiliation and mocking of the offender were a regular part of such horrific Roman public spectacles.

Other political leaders, from Robespierre and Napoleon in France, to those involved in the Armenian genocide, to Joseph

mock naval battles in the naumachiae, crucifixion, and burning alive. Crucifixions, a punishment particularly favored for use on slaves, often took place in entertainment venues, including amphitheaters, as indicated by a painted advertisement at Pompeii that publicized games at Cumae: "twenty pairs of gladiators, crucifixions, a hunt, and awnings."

324. Id. at 95 (“[E]xecutions of condemned criminals took place at midday, the meridianum spectaculum. At this time, respectable citizens, prior to the gladiatorial combats in the afternoon, might retire from the amphitheater for a break and perhaps have lunch outside the arena. Nonetheless, many spectators stayed for the particularly gruesome events.”); see also id. (noting of damnatio ad bestias: “This Roman form of execution is familiar to many modern people through early Christian martyr tales, such as that of Perpetua and Felicitas, who are said to have been thrown to the beasts in the amphitheater at Carthage, located in modern Tunisia.”); id. (“In the Colosseum, executions incorporated damnatio ad bestias, damnatio ad flammatas, crucifixion, or some combination thereof; although they were often staged as mythological enactments, or what Coleman calls ‘fatal charades.’”). As Nathan Elkins writes in his history of the Colosseum:

In the Roman penal system, one could be condemned to a gladiator school or a hunting school (damnatio ad ludum gladiatorium or damnatio ad ludum venatorium). Condemnation to train as a gladiator or venator was a merciful punishment when compared with damnatio ad bestias, damnatio ad flammatas, or crucifixion, as it allowed a chance for survival and hope to buy or win one’s eventual freedom.

Id. “The worst punishments were the summa supplicia (highest punishments), brutal executions that included no hope for survival.” Id. at 96.

325. Compare id. at 96 (“Typically, citizens condemned to death would face swifter, less agonizing, and less humiliating deaths in a private setting. For a citizen, capital punishment was typically beheading (damnatio ad gladium, ‘condemnation to the sword’).”) with id. (“Noncitizens, usually slaves or foreigners, who were condemned to die in brutal and humiliating ways were called nosii (singular: noxius), ‘convicted criminals’; they might also be called damnati (singular: damnatus), ‘condemned.’ ”).

326. LIVES AND LEGACIES: AN ENCYCLOPEDIA OF PEOPLE WHO CHANGED THE WORLD – GOVERNMENT LEADERS, MILITARY RULERS, AND POLITICAL ACTIVISTS 156 (David W. Del Testa ed., 2001) (noting that nearly 20,000 people were executed by guillotine during the French Revolution’s Reign of Terror after Maximilien Robespierre, the leader of the Jacobins, gained control of the government in the fall of 1793, with Robespierre himself ultimately guillotined on July 28, 1794).

327. 363. See, e.g., Uri Friedman, The Real-World Consequences of ‘Fake News’, ATLANTIC (Dec. 23, 2017), https://www.theatlantic.com/international/archive/2017/12/trump-world-fake-news/548888/ ("The term ‘fake news’ emerged, in the context of the 2016 U.S. presidential election, as a reference to the deliberately false stories that Russian government propagandists and assorted troublemakers around the world were spreading on Facebook and other social-media platforms to help or harm a particular candidate, sow chaos, or simply make a quick buck. . . . [I]n specifically repurposing the term ‘fake news,’ and conflating unfavorable journalism with disinformation, Trump is arguing that journalists maliciously fabricate the sources and substance of their reporting—at least when what they report doesn’t reflect well on him. By persistently hurling the fake-news put-down at nearly all the country’s leading news organizations, he is refashioning a vital democratic institution—the independent press—as an enemy.").

misrepresentations are well documented,\textsuperscript{365} prompting one journalist, S.V. Dáte, to pointedly ask President Trump at a White House press briefing in August of 2020: “Mr. President, after three and a half years, do you regret at all, all the lying you’ve done to the American people?”\textsuperscript{366} “As long as the president embraces autocrats and dictators, expressing envy of their ability to silence or compromise the democratically essential checks and balances on their authority,” Kenneth Roth, the Human Rights Watch executive director, testified about Donald Trump on January 10, 2020 before the U.S. State Department’s Commission on Unalienable Rights, “the US government will have little credibility on human rights.”\textsuperscript{367}

Donald Trump’s repeated abuses of power included soliciting foreign interference in a U.S. presidential election,\textsuperscript{368} separating children from their parents at the U.S.-Mexico border,\textsuperscript{369} keeping immigrant kids the most vulnerable individuals and communities in the USA. At the national and international levels, the US government sought to narrow human rights protections for sexual and reproductive rights and protections against discrimination for lesbian, gay, bisexual, transgender and intersex (LGBTI) people and others. At the US-Mexico border, in violation of national and international laws, the US authorities detained, ill-treated and turned away tens of thousands of asylum-seekers who requested international protection. As a result, unaccompanied children, families, LGBTI people and others faced abuses once stranded in northern Mexico as well as in US immigration detention centres. The Trump administration also increasingly misused the criminal justice system to threaten and harass human rights defenders, political opponents, whistleblowers and others.”

\textsuperscript{365} See Chris Cillizza, \textit{Here’s the most incredible thing about Donald Trump’s problem with facts}, CNN POLITICS (July 21, 2020, 1:01 PM), https://www.cnn.com/2020/07/14/politics/donald-trump-fact-checker-lies-washington-post/index.html (“With six months left on his first term in office, President Donald Trump has said more than 20,000 things that aren’t true, according to the Washington Post’s Fact Checker team.”)

in cages,\textsuperscript{370} using the executive clemency power to pardon friends, political cronies and even war crimes,\textsuperscript{371} inciting and exalting violence,\textsuperscript{372} and misleading the American people about the true nature and danger of the COVID-19 pandemic,\textsuperscript{373} thus exponentially increasing sickness and death.\textsuperscript{374} In recounting a conversation with Chinese President Xi Jinping, Trump told Washington Post journalist Bob Woodward on February 7, 2020, that the coronavirus is “more deadly than your, you know, your—even your strenuous flus.” “[T]his is deadly

\textsuperscript{370} U.S. COMM’N ON CIVIL RIGHTS, TRAUMA AT THE BORDER: THE HUMAN COST OF INHUMANE IMMIGRATION POLICIES 57 (2019), https://www.usccr.gov/pubs/2019/10-24-Trauma-at-the-Border.pdf (“While the number of minors detained has reached a record high, the conditions in which they are housed has hit a disturbingly low standard. Thousands of children have been held by Department of Homeland Security in cages in former warehouses, in buildings with little if any natural light, forced to sleep on cement floors in cold temperatures, with only aluminum blankets issued to cover them.”).

\textsuperscript{374} Savannah Smith, Unmasked: How Trump’s mixed messaging on face-coverings hurt U.S. coronavirus response, NBC NEWS (Aug. 9, 2020, 7:28 PM), https://www.nbcnews.com/politics/donald-trump/calendar-confusion-february-august-trump-s-mixed-messages-masks-1236088 (“The Trump administration’s conflicting messaging about mask-wearing over the last four to five months has created widespread confusion, hampered the country’s response to the coronavirus pandemic and even led to preventable deaths, multiple health experts said.”); id. (“‘People have died because we haven’t had consistent messaging on mask-wearing,’ said Dr. Gregory Kirk, a professor of infectious disease epidemiology at Johns Hopkins University. ‘I don’t think that’s really up to debate.’”).
stuff,” Trump said at the time. Yet, Trump deliberately chose to downplay the seriousness of the virus. As Trump told Woodward on March 19, 2020: “I wanted to always play it down. I still like playing it down.”

Indeed, Trump inexplicably chose as a coronavirus advisor Dr. Scott Atlas, who—unlike renowned expert Dr. Anthony Fauci, the longtime director of the National Institute of Allergy and Infectious Diseases—had no background in epidemiology or infectious diseases. A group of Stanford University faculty members specifically rebuked Dr. Atlas because, through his statements, he “undermined and threatened public health even as countless lives have been lost.” Trump himself put his own Secret Service agents and staff at risk, including by taking a “joyride” outside of Walter Reed, after contracting the coronavirus and while still infectious. By December 2020, COVID-19 had killed more than 300,000 people in the United States, with hospital intensive care units around the country reaching or at their capacities.

The execution of the death penalty in the United States goes against the global trend.”); Cassandra Stubbs, Not Even a Global Pandemic Could Stop the Federal Government from Pursuing a String of Back-to-Back Executions This Summer, ACLU (Aug. 26, 2020), https://www.aclu.org/news/capital-punishment/not-even-a-global-pandemic-could-stop-the-federal-government-from-pursuing-a-string-of-back-to-back-executions-this-summer/ (“This raw abuse of federal power to end human life comes at a time when most of the nation is moving away from capital punishment. A Gallup poll conducted last year found that 60 percent of Americans today prefer life imprisonment over the death penalty. Since the last federal execution in 2003, 10 states have formally abolished the death penalty, including Colorado, New Hampshire, and Washington state in recent years. Numerous other states have issued moratoriums.”).  

remove postboxes shortly before the November 2020 election, all in a blatant attempt to curtail voting by mail. After losing the election, Donald Trump then blatant lied about the election results as the Trump legal team made fatally flawed and frivolous arguments in court. With Trump’s lawyers outrageously targeting counties with large minority populations and even promoting groundless, evidence-free conspiracy theories, Trump and his allies attempted to disenfranchise millions of American voters in an effort to overturn the election results. “Voters, not lawyers, choose the

391. See Paul P. Murphy, USPS will stop removing letter collection boxes in Western states until after the election, spokesman says, CNN (Aug. 14, 2020, 10:43 PM), https://www.cnn.com/2020/08/14/politics/usps-removes-letter-collection-boxes-reduces-post-office-operating-hours/index.html (“The US Postal Service will stop taking letter collection boxes off streets in Western states following accusations the removals would further limit some voters ability to send back mail-in ballots. The change came after CNN and others reported on Friday that the US Postal Service has started reducing post office operating hours across several states and removing letter collection boxes, according to union officials. In a statement Friday night, Rod Spurgeon—a USPS spokesperson . . . told CNN that the service will stop the removal of letter collection boxes in 16 states and parts of two others until after the election.”)

394. Mary Papenfuss, Lawsuit ‘Smacks of Racism’: Wisconsin Judge Shreds Trump Lawyer Over Vote Challenge, HUFFPOST (Dec. 12, 2020, 8:46 PM), https://www.huffpost.com/entry/wisconsin-state-supreme-court-trump-lawsuit-racism_n_5fd54981e5b6218b42e99e88. The Trump campaign’s lawsuit in Wisconsin singled out just two of Wisconsin’s 72 counties, with Wisconsin Supreme Court Justice Rebecca Dallet noting that those two counties are the “most urban, nonwhite, largest counties” in the state that had “voted overwhelmingly for Joe Biden.” Id. Justice Dallet’s colleague, Justice Jill Karofsky, added that those two counties were “targeted because of their diverse populations, because they’re urban, I presume, because they vote Democratic.” Id. “This lawsuit, Mr. Troupis, smacks of racism,” Justice Karofsky said when she confronted Donald Trump’s attorney, James Troupis, during a virtual hearing. Id. “What you want is for us to overturn this election so that your king can stay in power,” she said. Id. “That is so un-American.” Id.

395. Ann Gerhart, Election results under attack: here are the facts, WASH. POST (Mar. 11, 2020, 7:10 PM), https://www.washingtonpost.com/elections/interactive/2020-election-integrity/. As then President-Elect Joe Biden observed after the U.S. Supreme Court summarily rejected the Texas lawsuit attempting to invalidate the election results in battleground states and the Electoral College had voted:

This legal maneuver was an effort by elected officials and one group of states to try to get the Supreme Court to wipe out the votes of more than 20 million Americans in other states, and to hand the presidency to a candidate who lost the Electoral
President,” the U.S. Court of Appeals for the Third Circuit ruled in one case rejecting a Trump campaign lawsuit. Trump’s efforts to hold onto power at all costs were aimed at undermining democratic norms and institutions, with Donald Trump’s legal challenges to the election continuing long after his loss. One editorial in The Irish Times took stock of the “fragility” of American democracy after the mob had stormed the U.S. Capitol, but also, in the wake of the election of two Democratic U.S. senators in the run-off elections in the State of Georgia, saw “a more positive lesson: when democracy is fully mobilized, its enemies cannot win.”

Donald Trump’s frequently conspiratorial, false, dehumanizing and demeaning Tweets and rhetoric, whether directed at women, minorities, immigrants, journalists, people with disabilities, or political adversaries were offensive and disgraceful, taking political behavior—including online activity—to new lows, even prompting the social media companies to suspend Donald Trump’s accounts. Not only did then-

---

President Trump fail to attempt to quell or immediately condemn the rioting and violence at the U.S. Capitol on January 6, 2021 that he himself had plainly inspired with his baseless invective and rhetoric and his refusal to concede an election he lost, but the Trump Administration’s rush to execute so many death row inmates, including during the COVID-19 pandemic and the lame-duck period after the November 2020 election, illustrates what has been aptly called an almost “insatiable appetite for cruelty.”

\[402\] Marianne Dhenin, Opinion, Trump’s is ending his term with a spree of executions, once again revealing his appetite for cruelty, BUS. INSIDER (Dec. 20, 2020, 7:04 AM), https://www.businessinsider.com/trump-spree-federal-executions-administration-cruelty-brandon-bernard-2020-12; see also Jean Marbella, Amid pandemic and Trump’s final chaotic days, a Maryland man with COVID-19 fights his upcoming federal execution, BALT. Johnny Magdaleno, Terre Haute executions, including Lisa Montgomery’s, paused by judge until COVID-19 measures are instituted, MCPIERSON SENTINEL (Jan. 8, 2021, 1:39 PM), https://www.mcpipersontimes.com/story/news/2021/01/08/trumps-federal-execution-blitz-stalled-indiana-judge-order/6599459002/ (“The Trump administration’s blitz of federal executions hit a setback on Thursday after a federal judge in Indiana ruled that more measures had to be taken to prevent the spread of COVID-19 at the Terre Haute federal prison facility before executions could continue. The administration hopes to carry out three more executions, including the execution of Lisa Montgomery, who will be the first woman executed by the federal government in nearly seven decades if the injunction is lifted.”).
Abuses of power, of course, are nothing new. Throughout human history, the rich have exploited the poor, and the powerful have preyed upon the vulnerable. The grotesque ideology of white supremacy, in fact, has centuries’ old origins, and it has raised its ugly head throughout world history, including in Nazi Germany and South Africa.

403. *E.g., Larry Schweikart & Michael Allen, A Patriot’s History of the United States: From Columbus’s Great Discovery to America’s Age of Entitlement* 39 (2014) (“The story of abuses of power by Stuart kings was well known to Americans. Massachusetts Puritans, after all, had fled the regime of Charles I, leaving brethren in England to wage the English Civil War.”); *id.* at 39-40 (“When James II ascended to the throne in 1685, he decided to single-handedly reorganize colonial administration. He violated constitutionalism and sanctity of contract by recalling the charters of all of the New England and Middle colonies—Massachusetts Bay, Pennsylvania, New York, and New Jersey—and the compact colonies Plymouth, Rhode Island, and Connecticut . . . James II’s plans for restoring an all-powerful monarchy dissolved between 1685 and 1688. A fervent opposition had arisen among those calling themselves Whigs, a derogatory term meaning ‘outlaw’ that James’s foes embraced with pride. There began a second English civil war of the seventeenth century—between Whigs and Tories—but this time there was little bloodshed. James was exiled while Parliament made arrangements with his Protestant daughter, Mary, and her husband, William, of the Dutch house of Orange, to take the crown. William and Mary ascended the throne of England in 1689, but only after agreeing to a contract, the Declaration of Rights.”).

404. *Fraud on the Stock Exchange*, MORNING CHRON., June 15, 1814, at 3 (noting Lord Ellenborough’s concern “that we have one rule of law for the poor, and another for the rich”).

407. *E.g., Henry Louis Gates, Jr., Stony the Road: Reconstruction, White Supremacy, and the Rise of Jim Crow* 5 (2019) (discussing the racism on display in Abraham Lincoln’s 1864 presidential election, and taking note of the “desperate effort to reassert white supremacy and decimate the gains in black equality promised by Reconstruction” which “led to the effective disenfranchisement of black male voters in the former Confederate states and the imposition of ‘separate but equal’ as the law of the land”); *see generally Nancy L. Clark & William H. Worger, South Africa: The Rise and Fall of Apartheid* (3d ed. 2016) (discussing the history of racism and apartheid in South Africa).

408. *George M. Fredrickson, Racism: A Short History* 126 (2002) (“Nazi racism . . . applied to all non-Aryans and not simply the Jews. Proclamations implementing the Nuremberg Laws put Gypsies in the same pariah category as Jews, and a substantial portion of them were placed in concentration camps within Germany in 1936, from which some would eventually be sent East to die in the gas chambers of Auschwitz.”).
Africa’s apartheid era, with neo-Nazis and hate groups continuing to spew hatred and trying to sew division and social discord. In the U.S., after deadly violence broke out in Charlottesville, Virginia, at a “Unite the Right” rally with white supremacists carrying torches, President Trump infamously declared that “there is blame on both sides.”

Those in power sometimes try to desperately cling to that power, with now former President Trump, who reportedly heard arguments in the Oval Office about the possibility of invoking martial law to stay in office, being Exhibit A. Power-thirsty individuals who do not respect democratic norms will employ any means, however manipulative or nefarious in nature, to try to get what they want, including disinformation, violence and intimidation, and disenfranchising voters. Using Dark Money, gerrymandering, and voter

410. RACE AND RACISM IN THE UNITED STATES: AN ENCYCLOPEDIA OF THE AMERICAN MOSAIC 78 (Charles Gallagher & Cameron D. Lippard eds., 2014) (“The skinheads are an international movement of white, largely male youth gangs associated with neo-Nazi and white-power ideologies. Neo-Nazi skinhead groups are among the most militant advocates of white supremacy and are believed responsible for the commission of numerous hate crimes since the 1970s.”); see Fabian Virchow, Creating a European (neo-Nazi) Movement by Joint Political Action?, in VARIETIES OF RIGHT-WING EXTREMISM IN EUROPE 202-05, 209-10 (Andrea Mammone et al. eds., 2013) (discussing Neo-Nazis); Anya Kamenetz, Right-Wing Hate Groups Are Recruiting Video Gamers, NPR (Nov. 5, 2018, 10:37 AM), https://www.npr.org/2018/11/05/660642531/right-wing-hate-groups-are-recruiting-video-gamers.
415. E.g., STEVE BICKERSTAFF, ELECTION SYSTEMS AND GERRYMANDERING WORLDWIDE 9 (2020) (“A gerrymander is a manipulation of electoral districts such that an incumbent or a political party (usually the dominant one) attempts to use the reallocation of seats or redrawing of electoral district boundaries, or the failure to do so, for their own advantage. Essentially a gerrymander occurs when self-interest is substituted for the public’s interest.”); id. at 10 (“The practice of designing electoral districts for political advantage dates back to the earliest use of districts for elections. The practice as given a name (as Gommery in the Boston Gazette (USA) on March 26, 1812 when the word was first used to describe a redrawing of Massachusetts state senate election districts by the Massachusetts Legislature during the term of Governor Elbridge Gerry. One of the districts was claimed to
suppression targeted at racial minorities, they try to pick their voters, rather than allowing all eligible voters with easy access to ballot boxes to pick their elected leaders. “I felt a growing sadness as I listened to a recording of Donald Trump begging, bullying, cajoling, and threatening Georgia Secretary of State Brad Raffensperger in an attempt to make him do something he can’t—overturn Trump’s loss in the presidential race,” Solomon Jones wrote in an op-ed for The Philadelphia Inquirer.

VIII. THE RULE OF LAW’S IMPORTANCE TO SAFEGUARDING CIVIL LIBERTIES AND HUMAN RIGHTS

As history shows, shockingly horrific—even genocidal—consequences can flow from a societal breakdown of the Rule of Law. Just consider Nazi Germany and The Holocaust, the Rwandan

—

resemble the shape of a mythological salamander. The word ‘gerrymander’ is a combination of the governor’s last name and the word salamander.

416. See generally CAROL ANDERSON, ONE PERSON, NO VOTE: HOW VOTER SUPPRESSION IS DESTROYING OUR DEMOCRACY (2018).

417. E.g., Chad Vickery & Heather Szilagyi, America in Comparative Perspective, in ELECTORAL INTEGRITY IN AMERICA: SECURING DEMOCRACY 188 (Pippa Norris et al. eds., 2019) (“Courts have ruled that voter identification laws were implemented with the intent to discriminate in several cases, generally against African American voters. In striking down a North Carolina voter ID law, a federal court found that the provisions ‘target African Americans with almost surgical precision.’”).

420. As Tom Bingham (1933-2010), a British judge who served as the Lord Chief Justice of England and Wales from 1996 to 2000, wrote shortly before his death:

The hallmarks of regime which flouts the rule of law are alas, all too familiar: the midnight knock on the door, the sudden disappearance, the show trial, the subjection of prisoners to genetic experiment, the confession extracted by torture, the gulag and concentration camp, the gas chamber, the practice of genocide or ethnic cleansing, the waging of aggressive war. The list is endless.

HARRIS, THE RULE OF LAW IN ACTION IN DEMOCRATIC ATHENS 3 (2013); see also Martin Childs, Lord Bingham of Cornhill: Lawyer who fought for judicial independence and was widely recognized as the greatest judge of his time, INDEPENDENT (Oct. 23, 2011, 8:49 AM), https://www.independent.co.uk/news/obituaries/lord-bingham-cornhill-lawyer-who-fought-judicial-independence-and-was-widely-recognised-greatest-judge-his-time-2078393.html.

421. E.g., JACK R. FISCHEL, HISTORICAL DICTIONARY OF THE HOLOCAUST 10 (3d ed. 2020) (“The number of Jews killed by the Germans in the Holocaust cannot be precisely calculated. Various historians, however, have provided estimates that range between 4,204,000 and 7,000,000, with the use of the round figure of six million Jews murdered as the best estimate to describe the immensity of the Nazi genocide. The Germans exterminated
genocide,422 “ethnic cleansing” in Bosnia-Herzegovina,423 and all of the atrocities committed by the regimes in Turkey, Syrian and Iran.424 In

approximately 54 percent of the Jews within their reach, including almost two million children under the age of 18. Jews, however, were not the only target of the Nazis. During the war, an estimated 10,547,000 Eastern Europeans, including millions of Poles, Ukrainians, Byelorussians, Gypsies, and Soviet POWs, were also killed.”). During the Holocaust, Nazi concentration camps became killing centers, with more than one million Jews murdered in gas chambers at Auschwitz-Birkenau. SUSAN MEYER, NAZI CONCENTRATION CAMPS: A POLICY OF GENOCIDE 38-39 (2015); see also HUMAN MEDICAL EXPERIMENTATION: FROM SMALLPOX VACCINES TO SECRET GOVERNMENT PROGRAMS 128 (Frances R. Frankenbury ed., 2017) (noting that “Auschwitz was a group of concentration camps in southern Poland, situated some 37 miles west of Krakow” and that “[t]here were three separate concentration camps at the site: Auschwitz I (the main camp), Birkenau (Auschwitz II), and Monowitz (Auschwitz III); that “[p]risoners were killed with a gas derived from prussic acid, but known by its brand name Zyklon-B”; and that “[a]s many as 1 million people were exterminated at Birkenau between 1942 and late 1944”); cf. SCOTT CHRISTIANSON, THE LAST GASP: THE RISE AND FALL OF THE AMERICAN GAS CHAMBER 1 (2010) (noting that “[t]he earliest gas chamber for execution purposes was constructed in the Nevada State Penitentiary at Carson City and first employed on February 8, 1924, with the legislatively sanctioned and court-ordered punishment of Gee Jon, a Chinese immigrant who had been convicted of murdering another Chinese immigrant, amid a wave of anti-immigrant and racist hysteria that gripped the country at that time”).

422. ROMEO DALLAIRE & KISHAN MANOCHA, THE MAJOR POWERS AND THE GENOCIDE IN RWANDA, IN THE CRIMINAL LAW OF GENOCIDE: INTERNATIONAL, COMPARATIVE AND CONTEXTUAL ASPECTS 61 (Ralph Henham & Paul Behrens eds., 2007) (“The genocide in Rwanda, in which over 800,000 Rwandan men, women and children were brutally murdered in an orgy of violence almost beyond the capacity of the human heart to contemplate, was deliberately planned and ruthlessly executed by a powerful elite within a government that had gone out of control.”).

423. STEVEN L. BURG & PAUL S. SHOUP, THE WAR IN BOSNIA-HERZEGOVINA: ETHNIC CONFLICT AND INTERNATIONAL INTERVENTION 171 (2000) (“After only a month of fighting the UN estimated some 520,000 persons—12 percent of the population—had been displaced. The unclassified CIA memorandum of November 1995 estimated that 900,000 to 1.2 million refugees had fled Bosnia to other countries, and an additional 1.3 to 1.5 million individuals still inside the country had been displaced from their homes. This amounted to more than half the total pre-war population of the country.”); see also MICHAEL HUMPHREY, THE POLITICS OF ATROCITY AND RECONCILIATION: FROM TERROR TO TRAUMA 69 (2002) (“The popular understanding of the term ‘ethnic cleansing’ invokes the horror of trial hatreds and primordial allegiances. The term was coined in the 1990s to describe war in Bosnia-Herzegovina, a war over the disintegration of one nation-state, the former Yugoslavia, and the formation of others—Serbia, Bosnia and Croatia. In fact ‘ethnic cleansing’ describes a deliberate process of massacre and population displacement designed to ‘cleanse the ground’ (ciscenje terena).”); H. ZEYNEP BULUTGIL, THE ROOTS OF ETHNIC CLEANSING IN EUROPE 177 (2016) (“[E]thnic cleansing is defined and measured as an event in which a state forcefully and permanently deports or kills at least 20% of an ethnic group in its territory within three years.”).

424. Turkey – Events of 2019. HUM. RTS. WATCH, https://www.hrw.org/world-report/2020/country-chapters/turkey (last visited Mar. 7, 2021) (“Turkey has been experiencing a deepening human rights crisis over the past four years with a dramatic erosion of its rule of law and democracy framework.”); Susie Linfield, Syria’s Torture Photos: Witness to Atrocity, N.Y. REV. OF BOOKS (Feb. 9, 2019), https://www.nybooks.com/daily/2019/02/09/syrias-torture-photos-witness-to-atrocity/ (“For eight years, the world has watched as the forces of a criminal butcher, President Bashar al-Assad, have bombed, raped, tortured, displaced, and murdered millions of their countrymen,
sharp contrast, the ideal of the Rule of Law, one articulated long ago, is that everyone will be treated fairly and equally by the law.\textsuperscript{425} A Rule of Law system puts people front and center in their own governance, divides power to prevent its abuse,\textsuperscript{426} insists on equal application of the laws, and requires an independent judiciary and skilled lawyers\textsuperscript{427} to vigilantly safeguard individual rights.\textsuperscript{428} Before the onset of the Revolutionary War (1775-1783), the Continental Congress, in 1774, drew particular inspiration from Beccaria’s \textit{On Crimes and
Punishments—a book that opposed tyrannical practices—in articulating a core principle of the Enlightenment and of the American Revolution.429 As the Continental Congress wrote that year in a letter to the inhabitants of Quebec:

‘In every human Society,’ says the celebrated Marquis Beccaria, following the steps of the immortal Montesquieu in impressing sentiments of Humanity, ‘there is an Effort continually tending to confer on one Part the height of Power and Happiness, and to reduce the other to the extreme of Weakness & Misery. The intent of good Laws, is to oppose this Effort, and to diffuse their Influence, universally, & equally.’430

When corrupt politicians such as Donald Trump repeatedly lie, ignore or brazenly violate laws and norms, refuse to comply with subpoenas, excoriate journalists and judges to deflect their own wrongdoing, use hate speech and racially charged rhetoric, employ division and disinformation to manipulate, and seek to enrich themselves at the taxpayers’ expense, the Rule of Law is eroded and undermined,431 especially if there are no immediate consequences—or plainly insufficient pushback—for such behavior and misconduct. And that is the case even though the long-standing principle that “no one is above the law” might be occasionally invoked, whether rhetorically or by the courts,432 when it appears to the general public that nothing concrete is, in actuality, ever done to check the misconduct, illegality, or abuses of power. As Joyce Vance, a law professor at the University of Alabama

430. BESSLER, THE BIRTH OF AMERICAN LAW, supra note 197, at 147; see also John Dickinson’s Draft Letter to Quebec, supra note 429, at 236–44.
432. In Trump v. Vance, 140 S. Ct. 2412 (2020), in which the U.S. Supreme Court held Article II and the U.S. Constitution’s Supremacy Clause do not categorically preclude, or require a heightened standard for, the issuance of a state criminal subpoena to a sitting President, Chief Justice John Roberts began the majority opinion as follows:

In our judicial system, ‘the public has a right to every man’s evidence.’ Since the earliest days of the Republic, ‘every man’ has included the President of the United States. Beginning with Jefferson and carrying on through Clinton, Presidents have uniformly testified or produced documents in criminal proceedings when called upon by federal courts.

Id. at 2420; see also id. at 2431 (“Two hundred years ago, a great jurist of our Court established that no citizen, not even the President, is categorically above the common duty to produce evidence when called upon in a criminal proceeding. We reaffirm that principle today and hold that the President is neither absolutely immune from state criminal subpoenas seeking his private papers nor entitled to a heightened standard of need.”); id. at 2432 (Kavanaugh, J., concurring) (“In our system of government, as this Court has often stated, no one is above the law. That principle applies, of course, to a President.”).
and a former U.S. Attorney for the Northern District of Alabama, put it
nicely: “Accountability is essential to our system of government. The
Founding Fathers created checks and balances to keep any one branch
from growing too powerful.”433

In today’s world, there are many pressing problems that need to be
addressed, including global warming and the climate crisis,434 poverty
and hunger,435 a lack of affordable health care,436 discrimination437 and
unemployment,438 pollution439 and habitat destruction,440 the plight of
tens of millions of refugees and forcibly displaced persons,441 hate
crimes and the use of excessive force,442 and matters of peace and

international security. Consequently, respect for the Rule of Law must be restored post-haste in the post-Trump presidency, and there must be a much-needed renewal—indeed, an amplification—of the commitment to further it. The global future of the Rule of Law, in fact, must concentrate on better protecting human rights, combating corruption, eliminating poverty and hunger, reducing disease and other forms of human suffering, funding and fostering legal aid

444. Around the world, human rights activists and those seeking racial and social justice are increasingly active and well-organized. See generally MARGARET E. KECK & KATHRYN SIKKINK, ACTIVISTS BEYOND BORDERS: ADVOCACY NETWORKS IN INTERNATIONAL POLITICS (1998). The law itself must do a much better job of combating all forms of

445. Combatting Corruption, WORLD BANK, https://www.worldbank.org/en/topic/governance/brief/anti-corruption (last updated Dec. 14, 2020) (“The World Bank Group considers corruption a major challenge to its twin goals of ending extreme poverty by 2030 and boosting shared prosperity for the poorest 40 percent of people in developing countries. In addition, reducing corruption is at the heart of the Sustainable Development Goals and achieving the ambitious targets set for Financing for Development.”); Giulia Mugellini & Jean-Patrice Villeneuve, Monitoring the Risk of Corruption at International Levels: The Case of the United Nations Sustainable Development Goals, 10 EUR. J. RISK REG. 201, 202 (2019) (“The 2030 Agenda for Sustainable Development recognises corruption as an obstacle for sustainable development and devotes one specific target to this issue. In particular, under the umbrella of Goal 16 to ‘Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels’, Target 16.5 aims to ‘Substantially reduce corruption and bribery in all their forms’. The reduction of corruption is considered one of the most important steps to pave the way for sustainable development and to promote inclusive societies by building effective, accountable and inclusive institutions at all levels.’

446. BARRY B. HUGHES ET AL., REDUCING GLOBAL POVERTY: PATTERNS OF POTENTIAL HUMAN PROGRESS 10 (2009) (discussing the U.N.’s Millennium Development Goals and their targets for reducing poverty and hunger and the proportion of the world’s population living on less than $1.00 per day).

447. The World Justice Project, which seeks to advance the rule of law worldwide, has made this observation:

Effective rule of law reduces corruption, combats poverty and disease, and protects people from injustices large and small. It is the foundation for communities of equity, opportunity, and peace—underpinning development, accountable government, and respect for fundamental rights. Traditionally, the rule of law has been viewed as the domain of lawyers and judges. But everyday issues of safety,
IX. THE DEATH PENALTY AS THE ULTIMATE VIOLATION OF THE RULE OF LAW

There have always been injustices to fight, whether in the realm of racial or gender inequality or as regards barbaric punishments that violate human dignity. In the Dark Ages and Medieval times—indeed, throughout recorded human history—draconian codes of laws have existed, with early law codes (e.g., Urukagina’s Code, the Code of Hammurabi, Draco’s Code, the Massachusetts Body of Liberties) making an array of offenses punishable by death. A summary of independent judges.

448. Sellers, An Introduction to the Rule of Law in Comparative Perspective, supra note 80, at 5 (“The first necessary and inescapable desideratum of the rule of law is an independent judiciary. Judges must be secure and well-paid, so that they can apply the law without fear or favor.”); id. at 8-9 (“ ‘Rule of law’ states finally come into being with the emergence of constitutional government, provided that the constitution seeks justice and the common good through the checks and balances of divided governmental power, under the ultimate review of independent judges.”).

449. Id. at 6 (“This link between the rule of law and a ‘common good’ theory of justice is profound and essential. The ‘empire of laws and not of men’ seeks a world of ‘equal’ laws that serve all those subject to their control. This absence of partiality is what sets government ‘de jure’ apart from government ‘de facto’ (to use the old terminology) and distinguishes the ‘empire of laws’ from ‘the government of men.’ ”); id. at 7 (“The rule of law entails the impartial pursuit of justice, which requires an equal concern for the welfare of all members of society.”).

450. GREG ROENSCHE, FURMAN V. GEORGIA: CRUEL AND UNUSUAL PUNISHMENT 13 (2007) (noting that “[t]he death penalty has been part of legal systems, or codes, since the earliest times in human history”; that “[o]ne of the oldest known legal systems is Urukagina’s Code, which was written in 2350 B.C.,” and that although “[t]he actual text of this Mesopotamian code has never been found,” it is described in ancient sources and “indicated that the king received his authority straight from the gods,” that it “specified that certain crimes—including theft and adultery—were punishable by death,” and that stoning was the method of execution); ROBERT FRANCIS HARPER, THE CODE OF HAMMURABI, KING OF BABYLON ABOUT 2250 B.C. §§ 1-3, 6-11, 14-16, 19, 21-22, 26, 33-34, 108-10, 116, 129-30, 133, 143, 153, 155, 157, 210, 227, 229-30 (2d ed. 1999) (reprinting the Code of Hammurabi, which makes numerous offenses punishable by death); ALBERT JACK, BLACK SHEEP AND LAME DUCKS: THE ORIGINS OF EVEN MORE PHRASES WE USE EVERY DAY (2010) (noting in the unpaginated entry for “[a] Draconian measure” of Draco’s Code in Athens in the seventh century BC: “Dracon drew up a code of laws that were so severe that almost any crime at all was considered to be a capital offense, punishable by death. The orator Demandes

451. rights, justice, and governance affect us all; everyone is a stakeholder in the rule of law.

execution or the infliction of the death penalty, however, constitutes the total denial of another person’s humanity,\textsuperscript{452} not only because credible death threats (an immutable characteristic of any capital punishment regime) are torturous in nature,\textsuperscript{453} but because killings and state-

famously claimed that Draco’s code was actually ‘written in the blood of criminals.’ ‘’\textsuperscript{1}’’); John D. Bessler, \textit{Foreword: The Death Penalty in Decline: From Colonial America to the Present}, 50 CRIM. L. BULL. 245, 245 (2014) (noting that the “Massachusetts ‘Body of Liberties,’” adopted in 1641, contained twelve capital offenses and authorized the imposition of up to forty lashes,” and that the English “Bloody Code” made more than 150 offenses punishable by death).

452. The death penalty has long been administered in an arbitrary and racially discriminatory fashion. See generally John D. Bessler, \textit{The Concept of “Unusual Punishments” in Anglo-American Law: The Death Penalty as Arbitrary, Discriminatory, and Cruel and Unusual}, 13 NW. J. L. & SOC. POL’Y 307 (2018); Stephen B. Bright, \textit{Discrimination, Death and Denial: The Tolerance of Racial Discrimination in Infliction of the Death Penalty}, 35 SANTA CLARA L. REV. 433 (1995); accord Steven F. Shatz, Glenn L. Pierce & Michael L. Radelet, \textit{Race, Ethnicity, and the Death Penalty in San Diego County: The Predictable Consequences of Excessive Discretion}, 51 COLUM. HUM. RTS. L. REV. 1072, 1098 (2020) (“Beyond the risk of arbitrariness, the study documents discrimination. We found that, in murder prosecutions during the relevant time period—particularly in cases with white victims and black defendants—a substantial factor in prosecutors’ decision whether to charge special circumstances and in the District Attorney’s decision whether to seek the death penalty was the race/ethnicity of the victims and defendants.”). The Constitutional Court of South Africa declared that country’s death penalty to be unconstitutional way back in 1995, see \textit{S v. Makoanyane} 1995 (3) 391 (CC) at 200 (S. Afr.), and the continent of Europe (with the exception of Belarus) is now a death penalty-free zone. Robert A. Stein, \textit{The History and Future of Capital Punishment in the United States}, 54 SAN DIEGO L. REV. 1, 6-7 (2017) (noting that “[a] de facto prohibition on the death penalty became the norm in Europe,” and that “[t]oday, capital punishment has been abolished in every European country except Belarus”); John Quigley & S. Adele Shank, \textit{Why Europe Abolished Capital Punishment}, 17 OHO ST. J. CRIM. L. 95, 129 (2019) (documenting the death penalty’s abandonment in Europe and observing of European countries: “The death penalty has come to be seen as a sign of a lack of civilization, as a punishment fundamentally at odds with how a government should conduct itself. Europeans have come around to the belief of J.W. Pease that capital punishment is ‘no longer needed for the civilization of the age in which we live.’”’\textsuperscript{19}). Yet, the U.S. Supreme Court, the U.S. Government, and a number of American states still allow the death penalty’s use, as do several countries (e.g., China, Iran, Saudi Arabia, Iraq, Pakistan, Yemen, Sudan and Egypt) that are known for their totalitarian, authoritarianism or oligarchic rule and for their regular denial of basic human rights. See Kevin M. Barry, \textit{The Law of Abolition}, 107 J. CRIM. L. & CRIMINOLOGY 521, 521-24, 526 n.28 (2017). A ruling by the U.S. Supreme Court that the death penalty is unconstitutional would be a long-overdue recognition of the death penalty’s torturous character and inhumanity—and of its invidious and discriminatory use on the basis of race. See generally John D. Bessler, \textit{The Inequality of America’s Death Penalty: A Crossroads for Capital Punishment at the Intersection of the Eighth and Fourteenth Amendments}, 73 WASH. & LEE L. REV. ONLINE 487 (2016), https://scholarlycommons.law.wlu.edu/wlulr-online/vol73/iss1/22; see also Carol S. Steiker & Jordan M. Steiker, \textit{The American Death Penalty and the In(Visibility) of Race}, 82 U. CHI. L. REV. 243 (2015) (discussing the racial discrimination in the death penalty’s administration).

sanctioned executions extinguish what Hannah Arendt, in reflecting on the condition of statelessness, aptly called a person’s “right to have rights.”  

As the late U.N. Secretary-General Kofi Annan once said: “The forfeiture of life is too absolute, too irreversible, for one human being to inflict it on another, even when backed by legal process.”

Not only did Donald Trump advocate for the use of torture and regularly denigrate, demean, and dehumanize asylum seekers, refugees and immigrants, LGBTQ+ community members, and people of color,

\textsuperscript{476} Throughout American history, a number of states have abolished the death penalty. See generally JOHN F. GALLIHER ET AL., AMERICA WITHOUT THE DEATH PENALTY: STATES LEADING THE WAY (2002); LARRY W. KOCH ET AL., THE DEATH OF THE AMERICAN DEATH PENALTY: STATES STILL LEADING THE WAY (2012). Other states have put a halt to carrying out executions. Ivan Pereira, Virginia lawmakers introduce bill to abolish death penalty, ABC
exact opposite direction. As a CNN story reported on December 17, 2020 during the lame-duck period before Donald Trump left the White House: “For the first time in US history, the government has executed more people than all of the 50 states, and the number of federal prisoners put to death this year—10—is the highest since President Grover Cleveland’s second term in office, according to the Death Penalty Information Center.”

A total of thirteen federal death row inmates were put to death in rapid succession before Donald Trump left office.

The death penalty’s use, when objectively analyzed, must be seen as totally at odds with the Rule of Law and core human rights principles. Along with other horrific corporal punishments, the death penalty—the State’s ultimate sanction—must be abolished worldwide if, in fact, universal rights—as expressed in the Universal Declaration of Human Rights (1948)—are not just to be theorized but to be made into a reality. That is because if nations and government officials are permitted to needlessly inflict cruelty upon or torture a human being—even one who has committed a heinous crime—or otherwise subject a person to inhumanity or degradation, then the right to be free from torture and the right to be free from cruel, inhuman or degrading treatment or punishment (as expressed in the Universal Declaration, the International Covenant on Civil and Political Rights (“ICCPR”), the Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment, and other provisions of law such as the U.S.
Constitution’s Eighth Amendment are not, in fact, truly universal rights.

committed, or intimidating or coercing him or a third person, or for any reason based on discrimination of any kind, when such pain or suffering is inflicted by or at the instigation of or with the consent or acquiescence of a public official or other person acting in an official capacity.

id., art. 16 (“[e]ach State Party shall undertake to prevent in any territory under its jurisdiction other acts of cruel, inhuman or degrading treatment or punishment which do not amount to torture . . . .”).

483. U.S. CONST. amend. VIII.

484. John D. Bessler, What I Think About When I Think About the Death Penalty, 62 ST. LOUIS U. L. J. 781, 803 (2018) (noting that “[t]he Universal Declaration of Human Rights states: ‘[n]o one shall be subjected to torture or to cruel, inhuman or degrading treatment or punishment’” and observing that if nations are allowed to torture convicted offenders (or prisoners than rights are not truly universal). In Alabama, Missouri, North Carolina and Virginia, all death penalty states, psychological torture is already defined by courts in those states as an awareness of one’s impending death but being helpless to prevent that death. Shanklin v. State, 187 So. 3d 734, 808 (Ala. Crim. App. 2014) (citing Ex parte Key, 891 So. 2d 384, 390 (Ala. 2004)) (“Psychological torture can be inflicted where the victim is in intense fear and is aware of, but helpless to prevent impending death.”); State v. Sloan, 756 S.W.2d 503, 511 (Mo. 1988) (en banc) (finding “sufficient evidence of psychological torture” where the jury could have believed the victim had heard prior gunshots, was in a “hopeless” situation, and “had the opportunity to anticipate and reflect upon his impending death while his parents and brother were shot”); State v. McNeill, 624 S.E.2d 329, 339 (N.C. 2006) (noting that killings that involve the infliction of psychological torture leave the victim “in her last moments aware of, but helpless to prevent, impending death”); State v. Alston, 461 S.E.2d 687, 718-19 (N.C. 1995) (finding murder was “especially heinous, atrocious, or cruel” because of presence of “evidence of psychological terror” that including prior death threats and that left the victim, in the last moments of her life, struggling to breathe, making her “aware of, but unable to prevent, her impending death”); Lawlor v. Commonwealth, 738 S.E.2d 847, 887 (Va. 2013) (“The psychological aspect of torture may be established, for example, ‘where the victim is in intense fear and is aware of, but helpless to prevent, impending death . . . for an appreciable lapse of time.’”) (quoting Ex parte Key, 891 So. 2d at 390); see also Bessler, Taking Psychological Torture Seriously, supra note 444, at 72-73 (discussing the case law used in criminal cases to define psychological torture). Although the Convention Against Torture and U.S. law has a “lawful sanctions” carve-out to the definition of torture, see id. at 10 & n.30, 82 & n.360, 88-94, if state actors are allowed to engage in acts that, in another context, are already considered psychological torture because of their inherent characteristics, then the ideal of the Rule of Law—that no one is above the law and that there should be equality of treatment—is perverted. Id. at 86 n.369 (“In the death penalty context, a death row inmate is fully aware of his or her impending death—and is helpless to prevent that death—for substantially longer than a typical victim of torture-murder. The heinous actions of torture-murderers are inexcusable, but those actions do not justify the use of torture against already-incarcerated inmates. Acts of torture should be prohibited in all circumstances.”). Compare The United Nations Convention Against Torture and Its Optional Protocol: A Commentary 463 (Manfred Nowak, Mortiz Birk & Giuliana Monina, eds., 2d ed. 2019) (“One can . . . conclude that corporal punishment, as a judicial or disciplinary sanction, committed by the State or with its acquiescence is nowadays considered a form of ill-treatment prohibited by international law confirmed by the Committee against Torture, the Human Rights Committee, the Committee on the Rights of the Child, and the UN Special Rapporteur on Torture, as well as regional human rights mechanisms such as the Inter-American Court of Human Rights, the European Court of Human Rights, and European Committee of Social Rights. The lawful sanctions clause in Article 1 CAT [Convention Against Torture] cannot be invoked as a legal justification for corporal punishment. States that practise corporal punishment as a judicial or disciplinary measure or that do not take
The modern definition of torture clearly establishes that torture can be either physical or psychological in nature. Accounts of botched executions, resulting in physically torturous and excruciating inflictions of pain, are all too common. But death sentences and state-sanctioned executions also inflict severe psychological torment and trauma. Indeed, because of their severity, credible death threats have already been found to be torturous in nature in contexts outside of the realm of capital punishment. For example, mock executions—that is, simulated executions where a person or a person’s loved one is led to believe that an execution is about to occur—have already been outlawed and classified under the rubric of psychological torture. If using a fake execution or making credible threats of death are already considered to be totally unacceptable and illegal in the non-death penalty context, how is it that the law still permits the making of capital charges and the infliction of death sentences? Capital charges and death sentences are both, after all, nothing more than highly credible threats of death, especially since they are backed by the enormous power of the State. Of course, as a scheduled execution date approaches and an execution becomes imminent, the menacing nature of the state-administered death threat—and the accompanying psychological torment and terror associated with it—increases exponentially. Just as it is an act of torture to kill a helpless or defenseless victim in the non-state actor context where the individual is made aware of his or her death in advance and is utterly powerless to stop the killing, it should be considered an act of torture to deliberately kill an inmate who is already incarcerated and tied down on a gurney at the moment of his or her death.

In the twenty-first century, the concept of the Rule of Law must be employed to combat all forms of torture, cruelty, discrimination, and arbitrariness. Since the Enlightenment and Cesare Beccaria’s call in On Crimes and Punishments for the death penalty’s abolition, there has been effective measures to prohibit and prevent it in the private sphere thus violate the prohibition of ill-treatment.”), with id. at 464 (“[T]he ECtHR is the first international human rights court which clearly states that capital punishment is nothing but an aggravated form of corporal punishment and therefore, in any case, constitutes a cruel and inhuman punishment in violation of the right to dignity. On the other hand, the UN treaty bodies are still struggling with this issue.”).

a concerted effort to put to end to the death penalty’s use. That effort is still ongoing, with the United Nations adopting multiple resolutions calling for a moratorium on executions and international organizations having been formed to expose the death penalty’s inhumanity and fatal flaws. But if universal human rights and constitutional rights are to be actualized in practice, and not just put on paper, then people—and lawmakers, lawyers, and judges in particular—must insist upon change. Indeed, to better ensure that the brutality of the past is abandoned, the law—including international law through the recognition

493. European External Action Service Press Release, 201217_20, Death penalty: Statement by the Spokesperson on the UN General Assembly’s Resolution on a moratorium on the use of death penalty (Dec. 17, 2020), https://eeas.europa.eu/headquarters/headquarters-homepage_en/90793 (“The adoption of the Resolution ‘Moratorium on the use of death penalty’ at the UN General Assembly on 16 December is an important achievement for the abolitionist cause worldwide. The record number of 123 votes in favour, up from 104 when a Resolution was first adopted in 2007, is further confirmation of the growing consensus on this issue. The death penalty is a cruel and inhuman punishment that neither deters violent crime nor contributes to a safer society. On the contrary, killing as a punishment perpetuates a cycle of senseless violence.”).

495. See also LANCE BANNING, JEFFERSON AND MADISON: THREE CONVERSATIONS FROM THE FOUNDING 10 (1995) (noting that James Madison noted that “[r]epeated violations” of “parchment barriers” have been “committed by overbearing majorities in every state”; “In Virginia,” he observed, “I have seen the bill of rights violated in every instance where it has been opposed to a popular current.”); id. at 21 (“’Paper barriers’ or ‘parchment declarations,’ Madison insisted, would become substantial only in so far as they were manned by citizens who were informed enough, and vigilant enough, to stand behind these ramparts.”); THE QUOTABLE FOUNDING FATHERS: A TREASURY OF 2,500 WISE AND WITTY QUOTATIONS FROM THE MEN AND WOMEN WHO CREATED AMERICA 46 (Buckner F. Melton, Jr. ed., 2004) (Thomas Jefferson to Joseph Priestley (June 19, 1802)) (“Tho’ written constitutions may be violated in moments of passion or delusion, yet they furnish a text to which those who are watching may again rally & recall the people: they fix too for the people the principles for their political creed.”).

496. New York State Board of Elections v. López Torres, 552 U.S. 196, 213 (2008) (Kennedy, J., concurring) (“Rule of law is secured only by the principled exercise of political will.”).
of a *jus cogens* norm against capital punishment—must strictly forbid death sentences and executions.

In the past, the concept of torture was not thought to encompass corporal punishments such as the pillory, whipping, the stocks, or ear cropping or, for that matter, death sentences or executions (even though death sentences and executions, as I’ve pointed out at length elsewhere, carry all the characteristics or indicia of torturous practices). For example, the Massachusetts Body of Liberties (1641) contained a provision that, while generally forbidding torture to be used to extract confessions, explicitly allowed torture to be used in capital cases.
Notably, Beccaria himself wrote about his opposition to torture and capital punishment in separate chapters of his book. Although some locales abolished torture and capital punishment at the same time, many countries that outlawed torture during the Enlightenment did not simultaneously abolish capital punishment, showing that executions were not then viewed as torturous acts or a lethal subset of torture as then defined.

The law can be slow to change, just as it takes time for a country—or the international system—to build up a Rule of Law ethic and tradition. The non-binding Universal Declaration of Human Rights, while generically protecting the “right to life,” makes no reference to is, ‘punishment hard and long’ by loading weights on the spreadeagled defendant’s chest until he should consent” to enter a plea, and observing: “‘Pressing,’ in fact, was used as late as 1692 in Massachusetts during the Salem witch trials and was not legally abolished until 1772. Other forms of torture were permitted in the colonies as investigative methods. Although the common law courts traditionally did not employ torture, it was considered lawful for the Court of Star Chamber, which existed from 1487 to 1641, to use torture.”). Yet, another provision of the Massachusetts Body of Liberties also provided:

No man shall be forced by Torture to confess any Crime against himselfe nor any other unless it be in some Capitall case where he is first fully convicted by cleare and sufficient evidence to be guilty, After which if the cause be of that nature, That it is very apparent there be other conspirators, or confederates with him, Then he may be tortured, yet not with such Tortures as be Barbarous and inhumane.

MICHAEL TUGENDHAT, LIBERTY INTACT: HUMAN RIGHTS IN ENGLISH LAW 96 (2017).

502. THE ENLIGHTENMENT: A SOURCEBOOK AND READER 217 (Paul Hyland et al. eds., 2003) (“Beccaria’s work had a profound impact on Enlightenment thinking about jurisprudence, and helped pave the way for major penal reforms over the next two centuries. His ideas were adopted by the National Assembly of France in 1789 as Article VIII of its ‘Declaration of the Rights of Man and of the Citizen’, and his influence can be seen in many legal reforms, such as Catherine the Great’s Instruction (1767), and the Criminal Code of 1786 introduced by Grand Duke Leopold of Tuscany, which abolished capital punishment and torture.”).

503. Bessler, The Abolitionist Movement Comes of Age, supra note 453, at 9 (“The first jurisdictions to abolish torture were Sweden in 1734 and Prussia in the 1740s and 1750s, but it was only after the publication of Beccaria’s book that Western European nations began doing away with the punishment of death.”).

504. Universal Declaration of Human Rights, supra note 480, at art. 3 (“Everyone has the right to life, liberty and security of person.”); see also WILLIAM A. SCHABAS, THE DEATH PENALTY AS CRUEL TREATMENT AND TORTURE: CAPITAL PUNISHMENT CHALLENGED IN THE WORLD’S COURTS 202 (1996) (“Those who originally conceived the modern enumerations of fundamental rights and freedoms approached capital punishment from the standpoint of the right to life. Unlike the prohibition of cruel treatment and torture—which had been expressed as early as 1641 in the Massachusetts Body of Liberties, and reiterated in such instruments as the English Bill of Rights of 1689, the French Déclaration des droits de l’homme et du citoyen of 1789, and the American Bill of Rights of 1791—the right to life was very much a new idea. It was included in the Universal Declaration of Human Rights of 1948, although its scope was unclear and its eventual ramifications unknown. The drafters of the Universal Declaration believed the death penalty to be an implied limit on the right to life,
capital punishment; the widely ratified ICCPR also references the right to life while simply restricting the death penalty’s use, not absolutely demanding the death penalty’s immediate and complete abolition even as it contemplated the eventual demise of capital punishment, and when ratifying or acceding to the Convention one that was dictated by existing circumstances and one that would be only temporary. They envisaged its limitation and eventual abolition as interpretation of the Universal Declaration—humanity’s common standard of achievement—evolved over time.

505. See, e.g., William A. Schabas, The United Nations and Abolition of the Death Penalty, in AGAINST THE DEATH PENALTY: INTERNATIONAL INITIATIVES AND IMPLICATIONS 10-11 (2016) (“The issue of capital punishment was debated at considerable length by the Commission on Human Rights and the General Assembly in the course of adoption of the Universal Declaration of Human Rights, during 1947 and 1948. This was the first significant consideration of the death penalty within the United Nations. In its final version, article 3 of the Universal Declaration states: ‘Everyone has the right to life, liberty and security of person’. However, the original draft of this provision, prepared by John P. Humphrey in early 1947, recognised a right to life that ‘can be denied only to persons who have been convicted under general law of some crime to which the death penalty is attached’. Eleanor Roosevelt, who chaired the Drafting Committee of the Commission on Human Rights, cited movement underway in some states to abolish the death penalty, and suggested that it might be better not to make any explicit mention of capital punishment as an exception to the right to life. René Cassin reworked Humphrey’s draft and removed the reference to the death penalty.”).

506. ICCPR, supra note 481, art. 6(1) (“Every human being has the inherent right to life. This right shall be protected by law. No one shall be arbitrarily deprived of his life.”).

507. Id. art. 6(2) (“In countries which have not abolished the death penalty, sentence of death may be imposed only for the most serious crimes in accordance with the law in force at the time of the commission of the crime and not contrary to the provisions of the present Covenant and to the Convention on the Prevention and Punishment of the Crime of Genocide. This penalty can only be carried out pursuant to a final judgement rendered by a competent court.”); id. art. 6(4) (“Anyone sentenced to death shall have the right to seek pardon or commutation of the sentence. Amnesty, pardon or commutation of the sentence of death may be granted in all cases.”); id. art. 6(5) (“Sentence of death shall not be imposed for crimes committed by persons below eighteen years of age and shall not be carried out on pregnant women.”).

508. Id. art. 6(6) (“Nothing in this article shall be invoked to delay or to prevent the abolition of capital punishment by any State Party to the present Covenant.”); see also General Comment No. 36: Right to Life, ¶ 50, U.N. Doc. CCPR/C/GC/36 (Sept. 3, 2019) (“Article 6 (6) reaffirms the position that States parties that are not yet totally abolitionist should be on an irrevocable path towards complete eradication of the death penalty, de facto and de jure, in the foreseeable future. The death penalty cannot be reconciled with full respect for the right to life, and abolition of the death penalty is both desirable and necessary for the enhancement of human dignity and progressive development of human rights.”); id. at ¶ 51 (“Although the allusion to the conditions for application of the death penalty in article 6 (2) suggests that when drafting the Covenant, the States parties did not universally regard the death penalty as a cruel, inhuman or degrading punishment per se, subsequent agreements by the States parties or subsequent practice establishing such agreements may ultimately lead to the conclusion that the death penalty is contrary to article 7 of the Covenant under all circumstances. The increasing number of States parties to the Second Optional Protocol to the Covenant, aiming at the abolition of the death penalty, other international instruments prohibiting the imposition or carrying out of the death penalty, and the growing number of non-abolitionist States that have nonetheless introduced a de facto moratorium on the exercise of the death penalty, suggest that considerable progress may have been made towards establishing an agreement...”)
Against Torture, the United States, in its reservations, understandings and declarations ("RUDs"), purported to preserve its right to continue to use capital punishment\(^509\) even as other countries\(^510\) and Europe’s regional human rights system\(^511\) have abandoned the death penalty’s use, asserting that executions violate basic human rights and international law protections.\(^512\) In fact, decades ago, the Amnesty International-inspired Declaration of Stockholm (1977) specifically declared that

509. Among other things, the RUDs of the United States state: (1)
That the United States considers itself bound by the obligation under article 16 to prevent ‘cruel, inhuman or degrading treatment or punishment’, only insofar as the term ‘cruel, inhuman or degrading treatment or punishment’ means the cruel, unusual and inhumane treatment or punishment prohibited by the Fifth, Eighth, and/or Fourteenth Amendments to the Constitution of the United States.
and (2)
That the United States understands that international law does not prohibit the death penalty, and does not consider this Convention to restrict or prohibit the United States from applying the death penalty consistent with the Fifth, Eighth and/or Fourteenth Amendments to the Constitution of the United States, including any constitutional period of confinement prior to the imposition of the death penalty.

“[t]he death penalty is the ultimate cruel, inhuman and degrading punishment and violates the right to life.”

X. HINDSIGHT AND A CRYSTAL BALL: THE PAST AND FUTURE OF THE RULE OF LAW

Over the course of human history, constitutions and law codes have blatantly discriminated against minorities, women, and LGBTQ+ members or, as in colonial and early America, provided for horrific body punishments such as branding, ear cropping, whipping or the pillory. There have been “Jim Crow” laws, state-sponsored segregation, and other overt and highly discriminatory state practices throughout the world, with the State of Oregon’s 1857 constitution and its early

514. 1 HISTORY OF ALLEGHENY COUNTY, PENNSYLVANIA 244 (2008) (noting punishments included “whipping, standing in the pillory or stocks, cropping the ears and branding,” and that “[t]he whipping-post, which stood in front of the jail, was a stout sapling placed firmly in the ground, with a crosspiece above the head, to which the hands of the culprit were tied, while the lashes were inflicted by the sheriff on his bare back”); see also Emily Cock, Proportionate Maiming: The Origins of Thomas Jefferson’s Provisions for Facial Disfigurement in Bill 64, 27 TRANSACTIONS OF THE ROYAL HIST. SOC. 127, 129, 145 (2019) (describing Thomas Jefferson’s proposed use of maiming offenders and nose-cutting to punish women convicted of specific offenses and observing, “The use of disfiguring punishments was by no means unknown in either Europe or America, even if Jefferson was a lone voice for the lex talionis. Branding the hand for benefit of clergy remained a key form of both judicial discretion and physical marking employed by British and American courts, and Arthur Scott demonstrated its frequent use in pre-revolutionary Virginia.”).

515. REMEMBERING JIM CROW: AFRICAN AMERICANS TELL ABOUT LIFE IN THE SEGREGATED SOUTH 1 (William H. Chafe et al. eds., 2001); see also F. MICHAEL HIGGINBOTHAM, GHOSTS OF JIM CROW: ENDING RACISM IN POST-RACIAL AMERICA 87 (2013) (noting that “Jim Crow” was a character at minstrel shows attended by large audiences that “saturated the country with notions of black inferiority,” and observing: “While there are no historical references identifying who first applied the term ‘Jim Crow’ to segregation laws, the term caught on fast. By 1900, Jim Crow was widely used as the informal term to describe any law, custom, or practice that intentionally separated racial minorities from whites.”).

517. E.g., MICHELLE ALEXANDER, THE NEW JIM CROW: MASS INCARCERATION IN THE AGE OF COLORBLINDNESS 2 (10th anniversary ed. 2020) (discussing various forms of racial discrimination); see generally DISCRIMINATION IN AN UNEQUAL WORLD (Miguel Angel Centeno & Katherine S. Newman eds., 2010) (discussing racial and gender discrimination around the world); FRED E. JANDT, AN INTRODUCTION TO INTERCULTURAL
laws—as just one of many examples—expressly excluding African Americans from living in the state. Early American laws specifically governing enslaved persons, forbidding inter-racial marriage or voting or property ownership by women, and criminalizing homosexual acts or forbidding same-sex marriage exemplify the extreme brutality, abuse, and blatant discrimination that the law, in tyrannous hands, is—and always has been—capable of.

518. R. Gregory Nokes, Oregon’s Slave History, in JILL STRAUSS & DIONNE FORD, SLAVE REMEMBRANCES: CONTINUING LEGACIES OF RACE AND RECONCILIATION 47, 50 (2019) (noting that Oregon passed exclusion laws in the 1840s and 1850s to prohibit African Americans from settling in Oregon, and that Oregon’s 1857 constitution—in what constitutes “a scar on Oregon’s history”—contained an exclusion clause as well); OREGON BLUE BOOK CONTAINING OFFICIAL DIRECTORY OF STATE, DISTRICT AND COUNTY OFFICERS AND THE CONSTITUTION 49, 53 (Frank W. Benson & Ben W. Olcott comps. eds., 1911) (noting that Oregon’s 1857 constitution declared in section 35 that “No free negro or mulatto, not residing in this State at the time of the adoption of this Constitution, shall come, reside or be within this State, or hold any real estate, or make any contracts, or maintain any suit therein . . .”).

519. BESSLER, CRUEL AND UNUSUAL, supra note 137, 2 (2012) (noting that early American slave codes, on their face, “punished blacks more severely than whites” for crimes).

521. WOMEN IN THE AMERICAN POLITICAL SYSTEM: AN ENCYCLOPEDIA OF WOMEN AS VOTERS, CANDIDATES, AND OFFICE HOLDERS 157 (Dianne G. Bystrom & Barbara Burrell eds., 2018) (“At the beginning of the first feminist movement, women were legally barred from owning property, executing wills or signing legal documents, voting in elections, serving on juries (even if the defendant was a woman), refusing to have sex with their husbands, having legal custody of their children (both children and wives were legally owned by husbands), divorcing their husbands, and attending a college or university.”).

522. KATHLEEN J. FITZGERALD & KANDICE L. GROSSMAN, SOCIOLOGY OF SEXUALITIES 117 (2d ed. 2021) (“The first law outlawing male sodomy was known as the Buggery Act and was passed in England in 1533. At the time, it was considered both a sin and a crime. The original 13 colonies took their laws from English common law, including the criminalization of sodomy, which was punishable by death.”).

523. See generally DEBBIE CENZIPE & JIM OBERGEFELL, LOVE WINS: THE LOVERS AND LAWYERS WHO FOUGHT THE LANDMARK CASE FOR MARRIAGE EQUALITY (2016); see also FREDERICK HERTZ & EMILY DOSKOW, MAKING IT LEGAL: A GUIDE TO SAME-SEX MARRIAGE, DOMESTIC PARTNERSHIPS AND CIVIL UNIONS 8 (5th ed. 2018) (“In 1969, the historic Stonewall riots took place in New York City—the first time in the United States that the LGBT community fought back visibly and powerfully against oppression and homophobia. It was a time of enormous social change and agitation, with liberation movements breaking out in the women’s community and other marginalized communities everywhere.”).

524. The brutality of state-sanctioned executions, long associated with racial prejudice, is another example of how the law has been misused throughout history, including to oppress racial minorities. See, e.g., CAROL S. STEIKER & JORDAN M. STEIKER, COURTING DEATH: THE SUPREME COURT AND CAPITAL PUNISHMENT 19 (2016) (“The use of torturous execution
Nation-states and their political subdivisions are constantly debating and adopting new rules of law to govern members of society. In those debates, whether on tax or health care policy, voting rights, immigration, criminal justice or policing reform, income inequality, or racial justice or gender equity, the ideal of the Rule of Law—one focused on equality, fair treatment, inclusive participation, separation of powers, an independent judiciary, and the protection of human rights—should always weigh heavily into the calculus. The U.S. Constitution’s Fourteenth Amendment already guarantees “equal protection of the laws,” with a variety of international conventions and treaties not only ensuring equality of treatment, but insisting upon the protection of many other fundamental rights, including the rights to be free from torture and cruel, inhuman and degrading treatment or punishment and to be free from discrimination. Written codes, however, must be methods such as burning at the stake, as well as the public display of corpses or body parts of those executed for slave revolt, were clearly meant as dire warnings to slaves about the harsh consequences of insurrection or violence against slave owners.

525. Muhamad Mugraby, Some Impediments to the Rule of Law in the Middle East and Beyond, 26 FORDHAM INT’L L.J. 771, 771 (2003) (“In democracies, the rule of law is essential for safeguarding the ability and right of citizens to participate in the process of government. It provides security from and against unlawful interference by the government such as arbitrary arrest, curtailment of free speech and freedom of association, and similar abuses. . . Without the rule of law, there is little or no possibility for a defense by the individual against the power of the State. Hence, the accent of the rule of law, like human rights, is on the individual. Thus, the rule of law is also about equality before the law and equal protection under the law.”).

526. HOWARD BALL, A DEFiant LIFE: THURGOOD MARSHALL AND THE PERSISTENCE OF RACISM IN AMERICA 3 (1998) (“The Fourteenth Amendment, ratified in 1868, was a direct response to Black Codes enacted in localities across the South after 1865 to control and limit the legal and political status—and conduct—of their recently freed slaves. In some cases, these codes ‘amounted to a virtual re-enslavement of blacks.’ They deprived African Americans of their basic individual rights.”). For a snapshot of the legal landscape as regards individual rights under state constitutions in 1868, see generally Steven G. Calabresi & Sarah E. Agudo, Individual Rights Under State Constitutions when the Fourteenth Amendment Was Ratified in 1868: What Rights Are Deeply Rooted in American History and Tradition?, 87 TEX. L. REV. 7 (2008).

528. E.g., Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment, G.A. Res. 39/46, U.N. Doc. A/39/51 (June 26, 1987); ICCPR supra note 481, art. 7 (“No one shall be subjected to torture or to cruel, inhuman or degrading treatment or punishment. In particular, no one shall be subjected without his free consent to medical or scientific experimentation.”).

529. See generally MPOKI MWAKAGALI, INTERNATIONAL HUMAN RIGHTS LAW AND DISCRIMINATION PROTECTIONS: A COMPARISON OF REGIONAL AND NATIONAL RESPONSES (2018). The United States has ratified a number of international human rights treaties,
combined with vigorous activism and continual demands for equality of treatment, including for the most marginalized members of a society. The failure to pass comprehensive immigration reform and the DREAM Act,\(^{530}\) as well as the despicable violence against transgender people, including the spate of horrific murders that America has witnessed, illustrates just how far societies have yet to go to achieve true equality.\(^{531}\)

The importance of the Rule of Law has long been emphasized, including by civic and political leaders of different political persuasions including the International Convention on the Elimination of All Forms of Racial Discrimination and the Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment, but its obligations under those treaties have not been fully implemented. John Quigley, *Toward More Effective Judicial Implementation of Treaty-Based Rights*, 29 FORDHAM INT’L L.J. 552, 574-75 (2006) (“When the Senate gave consent to ratification of the International Covenant on Civil and Political Rights (‘ICCPR’), the Convention Against Torture, and the International Convention on the Elimination of All Forms of Racial Discrimination, it declared that their rights-guarantee provisions were not to be self-executing.”).

\(^{530}\) Elizabeth Keyes, *Defining American: The DREAM Act, Immigration Reform and Citizenship*, 14 NEV. L. REV. 101, 103 (2013) (“DREAMers take their name from the DREAM Act, legislation which has been introduced in Congress every year since 2001 without ever passing both chambers. Specifically, the bill creates a path to citizenship for youth who came to the United States before the age of sixteen . . . .”).

around the globe. But the law’s discriminatory past, including a series of blatantly discriminatory U.S. Supreme Court decisions, must

532. For example, President Dwight D. Eisenhower once observed: “In a very real sense, the world no longer has a choice between force and law. If civilization is to survive, it must choose the rule of law.” James Taylor Ranney, World Peace Through Law: Replacing War with the Global Rule of Law 28 (2018). Likewise, at an address at Vanderbilt University on May 18, 1963, President John F. Kennedy took note of the obligation of citizens “to uphold the law.” He called law “the adhesive force in the cement of society, creating order out of chaos and coherence in place of anarchy,” and he made this observation: “Certain other societies may respect the rule of force—we respect the rule of law.” John F. Kennedy, Public Papers of the Presidents of the United States: John F. Kennedy—Containing the Public Messages, Speeches, and Statements of the President (January 20, 1963–December 22, 1963) 406, 408 (1964). During his time in office, President Barack Obama had this to say on the subject in 2016: “[O]ne of the challenges of a democratic government is making sure that even in the midst of emergencies and passions, we make sure that rule of law and the basic precepts of justice and liberty prevail.” Press Release, White House Office of the Press Sec’y, Remarks by President Obama and President Pena Nieto of Mexico in Joint Press Conference, (July 22, 2016), https://obamawhitehouse.archives.gov/the-press-office/2016/07/22/remarks-president-obama-and-president-pena-nieto-mexico-joint-press. The late U.N. Secretary-General Kofi Annan also once put it this way: “Good, healthy democratic societies are built on three pillars: there’s peace and stability, economic development, and respect for rule of law and human rights. And where all three are present, you stand a very good chance of making a go of it.” “[T]he third and important pillar of rule of law and respect for human rights,” he stressed in an interview with the Financial Times, must not be forgotten “because no country can long remain prosperous without that third pillar.” Alec Russell, Kofi Annan interview: the full transcript, Fin. Times (May 16, 2011), https://www.ft.com/content/c2d31f14-7caa-11e0-b9e3-00144feabd0c.

533. Scott W. Howe, Atoning for Dred Scott and Plessy While Substantially Abolishing the Death Penalty, 95 Wash. L. Rev. 737, 739 (2020) (“From early in the nineteenth century through well into the twentieth, the United States Supreme Court issued a series of opinions that undermined the efforts of African Americans to secure their physical protection, their dignity, and their progress. The Court decisions enabled the violent degradation of black persons and branded them as deeply inferior in a racial hierarchy favoring white supremacy. Primary examples include Dred Scott v. Sanford and Plessy v. Ferguson, which are widely viewed by historians and Supreme Court scholars as topping the list of the worst Supreme Court decisions ever rendered.”).

534. E.g., Scott v. Sanford, 60 U.S. (19 How.) 393 (1857) (holding African Americans are not U.S. citizens), abrogated by U.S. Const. amend. XIV (1868) (“[a]ll persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside”); Bradwell v. Illinois, 83 U.S. (16 Wall.) 130, 141 (1872) (denying a woman, Myra Bradwell, the right to practice law in spite of her Fourteenth Amendment challenge to a state supreme court’s decision to refuse to allow her to practice law because of her gender, with Justice Bradley’s concurring opinion stating that “[t]he natural and proper timidity and delicacy which belongs to the female sex evidently unfit[s] it for many of the occupations of civil life,” that “[t]he paramount destiny and mission of women are to fulfill the noble and benign offices of wife and mother,” and that “[t]his is the law of the Creator”), abrogation recognized by Mueller v. Auker, 576 F.3d 979, 998-99 (9th Cir. 2009) (quoting Frontier v. Richardson, 411 U.S. 677, 684 (1973)) (noting that “we emerged long ago from Justice Bradley’s legal dark ages” and that Reed v. Reed, 404 U.S. 71 (1971), “which embraced women within the Fourteenth Amendment’s guarantee of equal protection of the laws” meant that, “[f]inally, the law had shed its pretense of ‘romantic paternalism,’ which put women ‘not on a pedestal, but in a cage’ ”); Minor v. Happersett, 88 U.S. 162 (1874) (confining the right to vote to men, and holding that a provision of a state
be confronted head-on, with both American lawmakers and judges—as well as lawyers and the public—taking responsibility to ensure that the laws (including in their administration) truly provide “EQUAL JUSTICE UNDER LAW,” as the words engraved on the U.S. Supreme Court

citation limiting the vote to “male citizens” was not a violation of the U.S. Constitution),
abrogated by U.S. Const. amend. XIX (1920) (“The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any state on account of sex.”); Pace v. Alabama, 106 U.S. 583 (1883) (upholding the constitutionality of an Alabama law barring inter-racial couples from marrying, living together, or having sexual relations), overruled by McLaughlin v. Florida, 379 U.S. 184, 187-96 (1964) (holding that a Florida criminal statute prohibiting an unmarried interracial couple from living together violated the equal protection of the laws guaranteed by the U.S. Constitution’s Fourteenth Amendment and stating that “Pace . . . has not withstood analysis in the subsequent decisions of this Court”) and Loving v. Virginia, 388 U.S. 1 (1967) (holding that laws banning interracial marriage violate the Equal Protection and Due Process Clauses of the U.S. Constitution’s Fourteenth Amendment); Plessy v. Ferguson, 163 U.S. 537 (1896) (upholding state segregation laws on a “separate but equal” basis), overruled by Brown v. Board of Education, 347 U.S. 483, 494-95 (1954); Buck v. Bell, 274 U.S. 200, 207 (1927) (upholding the forced sterilization of those with intellectual disabilities, with the ruling stating that “society can prevent those who are manifestly unfit from continuing their kind” and declaring that “three generations of imbeciles are enough”), abrogation recognized by Chamul v. Amerisure Mutual Ins. Co., 486 S.W.3d 116, 121-22 (Tex. App. 2016) (noting that “[e]ugenics was a social movement that sought to control human heredity,” and that it was a “government-mandated involuntary sterilization program that led to the infamous 1927 case of Buck v. Bell,” where the U.S. Supreme Court “held that a ‘feeble-minded’ woman, who was said to have been born to a ‘feeble-minded’ mother and to have had a ‘feeble-minded’ child out of wedlock, did not have constitutional protection against involuntary sterilization”); Korematsu v. United States, 323 U.S. 214 (1944) (upholding the internment of Japanese Americans during World War II), overruled by Trump v. Hawaii, 138 S. Ct. 2392, 2423 (2018) (quoting Korematsu, 323 U.S. at 248 (Jackson, J., dissenting)) (observing that “[t]he forcible relocation of U.S. citizens to concentration camps, solely and explicitly on the basis of race, is objectively unlawful and outside the scope of Presidential authority” and that “Korematsu was gravely wrong the day it was decided, has been overruled in the court of history, and—to be clear—‘has no place in law under the Constitution’”; Baker v. Nelson, 409 U.S. 810 (1972) (a one-line summary decision dismissing an appeal “for want of a substantial federal question,” the result of which was to exclude same-sex couples from marrying), overruled by Obergefell v. Hodges, 135 S. Ct. 2584, 2585 (2015) (holding that same-sex couples may not be deprived of the fundamental right to marry); Bowers v. Hardwick, 478 U.S. 186 (1986) (upholding the constitutionality of Georgia’s sodomy statute criminalizing homosexual activity), overruled by Lawrence v. Texas, 539 U.S. 558, 578 (2003) (“Bowers was not correct when it was decided, and it is not correct today. It ought not to remain binding precedent. Bowers v. Hardwick should be and now is overruled.”).  

535. Elizabeth Garrett, New Voices in Politics: Justice Marshall’s Jurisprudence on Law and Politics, 52 HOW. L.J. 655, 690 (2009) (“Thurgood Marshall’s life—as a litigator and a jurist—is a testament to his commitment to the words engraved above the entrance to the Supreme Court building: Equal Justice Under Law. His jurisprudence relating to law and politics—elections, campaigns, and political parties—provides his vision of a well-functioning democracy where all citizens have the equal opportunity to participate, and change occurs in a somewhat orderly, but also somewhat chaotic, process through political institutions, overseen by an active independent judiciary.”); Harris Wofford, The Legal Lion of Civil Rights, 2 TEMP. POL. & CIV. RTS. L. REV. 161, 163 (1993) (“As the legal lion of the civil rights struggle, Thurgood Marshall died knowing how far the nation still has to go. We know it too. In recent years, we’ve seen incidents of racial intolerance in many areas of our
governments try to get the Rule of Law itself.

own state that remind us of the distance we have to travel before ‘Equal Justice Under Law’ is engraved not only on a building, but in our hearts.”).

536. LEAH CARSON & JANE COFFE, DOING SOCIAL STUDIES IN MORNING MEETING: 150 QUICK ACTIVITIES THAT CONNECT TO YOUR CURRICULUM 117 (2017).

537. Through the centuries, the recognition and protection of human rights has only come about through collective action and struggle. George Ulrich, Epilogue: Widening the Perspective on the Local Relevance of Human Rights, in THE LOCAL RELEVANCE OF HUMAN RIGHTS 355 (Koen De Feyter et al. eds., 2011) (“In his struggle theory of human rights Christof Heyns develops a comprehensive account of both the historical origins and contemporary functions of human rights based on the notion of a direct symmetry between human rights and the principle of legitimate resistance to abuses of power. Human rights indicate the threshold above which it is necessary for otherwise law-abiding people to defy government authority and resort to ‘self-help,’ i.e., struggle. They preserve a memory of issues that have been identified in humanity in the course of history as ‘fighting causes’. ‘Human rights law’, says Heyns, ‘can usefully be understood as a collective effort to make self-help unnecessary, based on a hard look at the lessons of history about what human beings regard as fighting causes.’ “); Christof Heyns, A ‘Struggle Approach’ to Human Rights, in HUMAN RIGHTS, PEACE AND JUSTICE IN AFRICA: A READER 15 (Christof Heyns & Karen Stefiszyn eds., 2009) (“It is said that, while it may be difficult to agree about what justice is, we find it easier to identify injustice, and in this way work our way through from human wrongs to human rights. The struggle approach follows this line of thinking and makes empirical experience, rather than theoretical constructions about its foundations, the starting point of trying to understand the concept of human rights. Any perception of human rights therefore reflects an empirical assessment of the ‘fighting causes’ or values so central to human existence that people across the borders of time and space have taken, and will eventually take matters into their own hands should these core interests not be protected.”); Clifford Bob, Introduction to Fighting for New Rights, in THE INTERNATIONAL STRUGGLE FOR NEW HUMAN RIGHTS 3 (Clifford Bob ed., 2009) (“Adoption of a new right occurs when leading members of the movement accept a grievance they had previously ignored, devoting significant resources to it and in some case promulgating international legal codes to cover it. Adoption does not happen easily. Rather the aggrieved must persuade the rights movement of the claim’s import and its validity as a distinct right.”); id. at 4 (“We argue that the rise of new rights involves four distinct if overlapping activities. First, politicized groups frame long-felt grievances as normative claims. Second, they place these rights on the international agenda by convincing gatekeepers in major rights organizations to accept them. This is crucial because a handful of NGOs and international organizations hold much sway in certifying new rights. Third, states and international bodies, often under pressure from gatekeepers and aggrieved groups, accept the new norms. Finally, national institutions implement the norms.”); id. at 5 (“Four sets of actors play the largest roles in these processes: claimants who seek new rights; major rights NGOs and international organizations, which act as gatekeepers; states, which may ratify such claims as international law and implement them as domestic law; and opponents who combat new rights.”).

538. Jeremy Waldron, The Concept and the Rule of Law, 43 Ga. L. Rev. 1, 5 (2008) (“The Rule of Law is . . . a fragile but crucial ideal, and one that is appropriately invoked whenever governments try to get their way by arbitrary and oppressive action or by short-circuiting the
Donald Trump and his administration will forever be associated with anti-immigrant policies and racist rhetoric, the denial of climate change and basic science, the failure to tackle the issue of gun violence, the advocacy and promotion of baseless conspiracy theories, the attack on and ransacking of the U.S. Capitol (the very citadel of American democracy), and brazen efforts to undermine the

norms and procedures laid down in their countries’ laws or constitution. Interfering with the courts, jailing someone without legal justification, detaining people without any safeguards of due process, manipulating the constitution for partisan advantage—all of these are seen as abuses of the Rule of Law.”). The concept of the Rule of Law itself continues to be vigorously debated and discussed in the legal profession, with scholars attempting to define it with more precision. See Stein, supra note 27, at 185 (“This Article contributes to the ongoing discourse by setting forth eight principles that form the central tenets of the rule of law.”); see also Dawn Johnsen, Toward Restoring Rule-of-Law Norms, 97 TEX. L. REV. 1205 (2019); see also Robin West, Paul Gowder’s Rule of Law, 62 ST. LOUIS U. L.J. 303 (2018) (reviewing Paul Gowder, The Rule of Law in the Real World (2016)). That, in and of itself, is also valuable, for the more focus on the Rule of Law, the better.

Rule of Law, voting rights, and democratic norms and institutions. In 2020, then-President Trump repeatedly and notoriously downplayed the deadly threat posed by the COVID-19 pandemic even as he held large campaign rallies that put scores of Americans—indeed, his own supporters—at risk of contracting the coronavirus. And the brazen rioting at the U.S. Capitol, which so outraged American citizens, took place on January 6, 2021, under Donald Trump’s watchful eyes at the tail end of his presidency as he so desperately tried to intimidate his own vice president, pressure members of Congress, and cling to power.

Just as Alabama Governor George Wallace will always be associated with racism and segregation and U.S. Senator Joseph McCarthy with demagoguery and fear-mongering, Donald Trump—only the third U.S. president in history to be impeached by the U.S. House of Representatives and the first to be impeached twice—will be remembered for his constant lies and self-dealing, authoritarian impulses and associations with hate groups, and his many and varied abuses of power. As one news story aptly emphasized:

---

544. Michael J. Klarman, Foreword: The Degradation of American Democracy—and the Court, 134 HARV. L. REV. 1, 7–8 (2020) (“Since 2017, the Republican assault on voting rights at the state level has been supplemented by President Donald J. Trump’s attack on the basic norms and institutions of democracy at the national level. President Trump attacks the press as ‘the enemy of the people’; assails federal judges who invalidate his Administration’s policies or incarcerate his former political associates; politicizes law enforcement, intelligence, and other sectors of the federal government; uses the presidency for personal gain; slyly encourages violence; makes racist statements and enacts racist policies; systematically lies; erodes government transparency; expresses admiration for foreign autocrats; and delegitimizes elections and political opposition”).

Donald Trump will be remembered as the first president to be impeached twice. He fed the myth that the election was stolen, summoned his supporters to Washington to protest the certification of the Electoral College vote, told them that only through strength could they take back their country, and stood by as they stormed the US Capitol and interfered in the operation of constitutional government.\textsuperscript{551}

History, certainly, will judge Donald Trump and his administration very harshly—and justifiably so. The hard part, of course, is how to undo all the damage that has been done by Trump and his followers and how to strengthen the Rule of Law and democratic institutions going forward to better protect human rights around the world in the years ahead.\textsuperscript{552}

\textsuperscript{552} Much debate over the Rule of Law has centered “on whether the definition should be thin and procedural—rule by law—or should inherently encompass thicker normative notions of fairness, equal protection, due process, and human rights.” Karen Hall, \textit{Mitigating Administrative Barriers to Successful International Rule of Law Reform}, 9 WM. & MARY POL’Y REV. 41, 44 n.19 (2018). It is the latter, more robust conception of the Rule of Law—the one consistent with the U.N. definition of the concept—that must prevail, because a vision of the Rule of Law without consideration of equality, fairness, and the protection of civil liberties and individual rights would be morally bankrupt. \textit{See id.} (“In the ‘thick v. thin’ debate, practitioners have almost universally accepted a more robust and thick definition. The United Nations now defines rule of law as ‘a principle of governance in which all persons, institutions and entities, public and private, including the State itself, are accountable to laws that are publicly promulgated, equally enforced and independently adjudicated, and which are consistent with international human rights norms and standards. It requires, as well, measures to ensure adherence to the principles of supremacy of law, equality before the law, accountability to the law, fairness in the application of the law, separation of powers, participation in decision-making, legal certainty, avoidance of arbitrariness and procedure and legal transparency.’”
